

OLD COUNCIL EXPIRES SUNDAY AT MIDNIGHT

Cannot Legally Act Upon Important Matters
Unless It Meets Prior to
That Time.

THE LAW ON THE SUBJECT IS EXPLICIT

Unless the old council reconsiders its determination to meet next Monday night for the purpose of winding up the affairs of the old administration and decides to hold a session prior to 12 o'clock Sunday night, there are a number of important matters that will never legally see the light of day.

Section 1 of the municipal code says: "For the purpose of carrying into effect the powers and duties conferred and imposed upon present councils, boards of legislation, or other legislative bodies, by the provisions of this act, and for the purpose of conducting the first election to be held in every municipality hereunder, and of preparing for the change in the organization of municipalities being provided for, this act shall take effect from and after the 15th day of November, 1902; and for all other purposes this act, and every portion of the same, including the repeal of the existing laws, shall take effect on the first Monday in May, 1903."

The only interpretation that can reasonably be placed upon the section just quoted is that the code goes into effect and the term of every officer elected under its provisions begins, to be absolutely accurate, at 12 Sunday night. This being undisputed, the question has arisen as to the right of the old council to meet and transact business after that time.

There are several ordinances now pending which have had but one reading, owing to the absence of several members of council at the meeting Tuesday night. If the old body neglects to act before Monday morning it is held the measures will not be passed.

One of the most important of these

IMPORTANT DEAL AT THE SEVRES

W. T. Tebbutt Sells Out to H. A. Keffer and J. L. Higley and Retires.

FUTURE COURSE UNDECIDED

An important change has been made in the ownership and control of the Sevres pottery, located at Market and Second streets, the interests of W. T. Tebbutt, secretary and treasurer of the company, and his associates having been purchased by H. A. Keffer, president of the company, and J. L. Higley, a Canton capitalist. The amounts of stock and the consideration involved in the deal have not been made public, but they will run well into the thousands. Mr. Tebbutt was a large stockholder and besides his own holdings represented a number of others.

The plant under the present management has been remarkably successful. The standard of its product has been raised until it compares favorably with any in the country, and many new lines have been added from time to time. The dinner and toilet lines and specialties made by the plant have gained a wide reputation all over the country. The plant has been one of the busiest in the district.

The present organization of the company will not be disturbed except that Mr. Higley will likely succeed Mr. Tebbutt as secretary and treasurer. Mr. Higley has had no previous experience in the pottery industry, but he is a prudent business man with years of experience. His position will not require a thoroughly practical training. He will come to this city probably this week to assume his new duties.

Mr. Tebbutt, when seen this morning by a News Review reporter, stated that he had made no plans as to the future. "I might take Al Hughes' job

ordinances is that which gives to the city solicitor all expense money while that official is absent from his office on the city's business. This will include the items of expense incurred by the solicitor in carrying cases to the county and other higher courts, no provision for which has been made either in the code or by ordinance. Included in the same measure is a section increasing the salary fixed by a special committee some time ago to compensate the auditor from \$1,600 to \$1,200. This ordinance has had but one reading, and it is held must be passed under suspension of the rules previous to the new administration taking charge on Monday morning.

When the ordinance was up Tuesday evening it did not occur to any of the six councilmen present to look up the law covering the subject, which says: "Section 126—The council shall fix the salaries of all officers, clerks and employees in the city government, except as otherwise provided in this act; and except as otherwise provided in this act all fees pertaining to any office shall be paid into the city treasury. The salary of any officer, clerk or employee so fixed, shall not be increased or diminished during the term for which he may have been elected or appointed." * * *

There have been cases within the past year where the salary of officials were raised after they had entered upon their terms of office, but had not yet qualified. It is argued this will not apply in the present instance, since the law does not mention the word "qualify," but simply says "during their term of office."

An effort will doubtless be made to have President Nice call a meeting for Friday evening.

or be Mayor Weaver's chief of police," he said, jokingly. "I haven't played my trumps right, for I failed to get an offer of a bonus for building a new pottery."

Seriously, Mr. Tebbutt has made no arrangements for the future. He declares he has had enough of the pottery business and will seek some other line. Before engaging in anything he will take a much-needed rest and will leave here Sunday evening for New York and other eastern cities.

ALL THE DEMANDS WILL BE INSISTED UPON

Railroad Committee of Council Determined to Look After the City's Interests.

Considerable speculation has been indulged in since it became known that the Pennsylvania officials would meet the railroad committee as to just what attitude would be assumed by the railroad men when the conference is held tomorrow.

It will be remembered that when the officials met with the council some time ago Supt. Scriven found it convenient to omit several clauses from the demands made by the city. The oversight was not noticed at the time, but it now develops that the matters neglected by the superintendent are the very concessions which the city's committee is determined to have granted, and some trouble may be met in accomplishing it.

Of one thing the general public may rest assured, and that is the committee will insist upon every item included in the list being acceded to or there will be no settlement of the long-standing controversy.

Frankfort, Ky., April 29.—(Special.)—The jury in the case of James Howard, charged with the murder of Goebel, today found him guilty and fixed his punishment at imprisonment for life.

THE CROOKS GAINED BUT SLIM HARVEST

A WELLSVILLE MAN ROBBED OF \$29 ON A STREET CAR.

No Other Losses of Moment On Circus Day Reported to the Police.

Though the city seemed to be about as full of pickpockets and other crooks yesterday as is usual on circus day, there were very few complaints registered at central police station and it is thought that the residents as a whole escaped with an extremely light loss. The police force was on the watch for nefarious work and kept the show grounds under careful surveillance throughout the day. Officers were called upon once to settle a dispute over change made at the ticket office, but were unable to furnish any proof and were compelled to let the matter drop. A man stated that he had given the ticket seller a \$2 bill and that he only received 50 cents in return. The seller denied that he had short changed the man and there was nothing more to it.

A swindling game was nipped in the bud by the officers. It was being worked on the inside of a tent and some fellow, after being victimized, objected. By the time the officers arrived on the scene the game had ceased operations and the men that had been running it agreed to discontinue for the day.

James Patterson, a pottery owner of Wellsville, reported to the officers that his pocket had been picked and as a result he was just \$29 out. He said that he boarded a car in Wellsville to come to the city and while enroute a wallet in his hip pocket was taken. He could not remember of any suspicious persons being near him, and the officers, having no clue to work upon, gave the matter no thought.

It was expected that crooks with Mexican money would work the people, but none of them were seen or heard of and there is little probability that any such work was done.

DYNAMITE EXPLOSION WRECKS A POWDER FACTORY.

Every Window in Houses in a Neighboring Village Shattered.

Altoona, Pa., April 30.—(Special.)—An explosion of dynamite at the works of the Crescent Powder company, in the mountains near here today, killed six workmen and injured a score more.

The force of the explosion was so great that nearly every window in the neighboring village of Williamsburg was shattered. The buildings took fire and were destroyed.

THE NEW SCALE NOT YET SIGNED

Employees of the East Liverpool Railway in An Uncertain Frame of Mind. Decision Tonight.

Whether or not cars run on the East Liverpool Railway company's lines tomorrow rests entirely with L. W. Healy, general manager of the road. A new scale of wages has been presented to him by a committee representing Division No. 52, Amalgamated Association of Street Railway Employees, and at a late hour this afternoon he had not signed it. The only material change from the old agreement is a demand for an increase of one cent an hour for three year men. The new agreement was promptly signed by C. A. Smith for the Southside line.

Mr. Healy last year withheld his decision on the scale now in force until the last car entered the turn on the night of April 30, and he seems to have adopted the same policy again. The men will not know whether it is to be peace or war between them and the company until Mr. Healy signs, or refuses to sign, the scale. They state that all members of the division will decline to take out their runs tomorrow if the new scale is not signed. "Who decides the matter?" was asked him. "I do," was the reply.

RAN THE STREETS LIKE A MANIAC

Man Suffering From Delirium Tremens Caused Excitement and Terror.

A MOST AFFECTING SCENE

Witnessed at the City Jail When the Wife of the Inebriate Came to See Him—Booked to Stay in a Cell Till He Recovers.

Suffering from delirium tremens as the result of a protracted drunk, John Goodwin, a kilnhand living at 181 Fairview street, left his home at a late hour last night, only partially dressed, and ran through the streets up to the Diamond, yelling and carrying on in a manner like a raving maniac. Pedestrians on the streets were badly frightened by the man's actions and many ran from him in wildest terror. His rantings attracted the attention of Officer Aufderheide, who immediately placed him under arrest and lodged him in a cell of the woman's department at the city jail.

Mrs. Goodwin, wife of the prisoner, was informed of his arrest and at 9 o'clock this morning, with her infant child clasped to her breast, applied at the jail and asked to see her husband. She was taken to the corridor and the scene that followed was one more pitiable than has been witnessed at the jail in many months. For a moment the poor woman gazed at her husband and then she broke into bitter tears. But for the kindly words of condolence offered by Officer Dunn, she no doubt would have sobbed until overtaken by nervous prostration. As it was, she came near falling to the floor in a swoon. The husband, though in a delirious state when she entered, revived somewhat upon noticing her expression of feeling, and seemed a little penitent for having wrought such suffering.

Mayor Davidson stated that he would keep Goodwin in jail until he entirely recovers from his spell, but he would not impose a fine, because, as he looks upon it, the money would be taken from the wife and baby and they alone would be the sufferers. It is thought that the man will be over the attack in a few days.

"Zip" Farmer was the only other person that fell into the net of the police during the night. He was arrested by Officer McDermott, who preferred a charge of drunkenness against him. The mayor said: "Zip seems to like me so well that I have concluded to let him stay in jail until next Monday, when both of us will leave the city hall together."

CARPENTERS' STRIKE MAY BE SETTLED

MUCH DEPENDS UPON A MEETING TOMORROW NIGHT.

Bosses Are Reported to Have Made Concessions—Men Saying Little.

It is possible the carpenters' strike will be settled tonight or Friday morning. Everything depends upon the decision of the union when it meets tomorrow evening in regular weekly session.

A conference was held Monday evening between the strike committee and the contractors. Little is known concerning the action of these joint bodies, but enough was gathered to indicate that a settlement is in-sight, and may be effected this week.

It is understood the bosses made some concessions at Monday night's meeting which places the situation in a much more favorable light from the workman's standpoint. It was arranged that the carpenters' committee should take whatever proposition the bosses made before their local at its meeting tomorrow night. It was there to be discussed and a decision reached as to its acceptance or rejection.

The employers seem to think they are making a liberal concession, and have stated it ought to be accepted. On the other hand, the leaders of the strike are not over-enthusiased with the proposition, and many doubts are expressed as to whether it will be finally accepted. The men are saying little, however, beyond the statement that the entire matter will be laid before the local for consideration. Friday evening will see a settlement if one is possible under the circumstances.

THE CASE RESTS WITH THE JURY

PROCEEDINGS HEARD FOR CONDEMNING HAZLETT'S LAND.

A Large Number of Witnesses Were Present from Wellsville Yesterday.

The witnesses in the case of the government against Miss E. P. Hazlett, of this city, in regard to appropriation of land for a dam site, have returned from Cleveland, where the case was being tried. The trial was held yesterday and last evening the case was left in the hands of the jury, who will bring in a verdict some time today.

The land in question lies a short distance above Wellsville and has a frontage of about 400 feet. It formerly belonged to J. G. Kountz and he stated this morning that in 1880 he was offered \$5,000 for the land, or \$12.50 per foot, by capitalists for a pottery site and on his refusal to sell the pottery was built in East Liverpool. Mr. Kountz also stated that his brother, Hiram Kountz, sold some land in that vicinity to the Pennsylvania Railroad company for \$10 per foot frontage. "Surely," remarked Mr. Kountz, "if in 1880 this land was worth \$12.50 per foot and the railroad company are paying \$10 per foot front now the government should not hesitate to pay a fair price for the land."

The jurors of the United States court of Cleveland were in Wellsville Tuesday looking over the land. There were 10 witnesses for the defense and five for the plaintiff, all of whom were from Wellsville.

Judge P. M. Smith is handling the case for Miss Hazlett and Attorney Sullivan for the government. This case is being watched with considerable interest by the citizens of Wellsville, and the verdict of the jury is anxiously looked for.

Title to Right of Way.

Lisbon, April 30.—(Special.)—The Canton & East Liverpool Railway company has commenced proceedings against Elizabeth Z. and James Marshall to appropriate for a right of way a strip of land in Liverpool township. The defendants are residents of Beaver, Pa. Louis W. Healy is made a party defendant, as claiming an interest in the property sought to be appropriated.

Widow Gets the Property.

Lisbon, April 30.—(Special.)—A commission issued to take the depositions of D. R. Shannon and D. C. Nevin, subscribing witnesses to the will of the late William Mitchell, of New Waterford, has been returned duly executed and the will admitted to probate. Mitchell willed all his property to his wife, Mary Ann Mitchell, who is named as executrix.

NEW MAYORS TAKE REINS IN CITIES OF THIS STATE ASSUMING OFFICE MONDAY

Policemen and Firemen Then On Duty Remain,
Entering Classified Service—Code
Points Cleared Up.

From a Staff Correspondent.

Columbus, April 30.—The Ohio solicitors who met here Tuesday and Wednesday have formed a permanent association to be known as the City Solicitors' Association of Ohio, the object being for the cultivation of acquaintanceship among the solicitors, mutual aid and assistance in arriving at a harmonious construction of the municipal laws of Ohio and to secure the enactment of prudent legislation. James M. Butler, of Columbus, is president; U. G. Dorman, Toledo, vice president; Philip G. Smythe, Newark, secretary; Thomas C. Beatty, Portsmouth, treasurer. The proceedings of the meeting will be printed and copies mailed to all solicitors. Membership is restricted to solicitors and ex-solicitors, the latter to be honorary members.

The convention agreed that mayors inaugurated next Monday will immediately be clothed with all the powers given them by the code. They will assume immediate direction of the police and fire departments through the medium of the chiefs of the two departments who will thereafter report to and receive orders from them. It was decided that every man found a member of the police and fire departments next Monday shall be entitled to remain in such service and have his name enrolled in the classified service under protection of the merit system without taking the examination. This does not include marshals or elective police or fire officers, who surrender their offices on Monday and are not placed on the classified list. It was the consensus of opinion that the poor fund should be under jurisdiction of the board of public service; that the city sealer of weights and measures will be appointed by the mayor; that all contracts involving more than \$50 must be made in writing.

THE CALHOUN CASE WILL BE DECIDED

'Squire Rose Will Render an Opinion in the Embezzlement Suit This Afternoon.

'Squire J. N. Rose announces that he will render his decision in the case of the state of Ohio against William Calhoun at 4 o'clock this afternoon. He has received the transcripts of the testimony of both the plaintiffs and the defendant, and though he intended giving out the decision tomorrow, changed the time by request of the defendant's attorney.

Not in years has a case, wherein so trivial an amount was involved, invoked so much interest. There are hundreds of people in the city anxiously waiting the decision of the justice and he anticipates censure no difference what his decision may be. The 'squire is a conscientious man and has the reputation of good, sound judgment. There are few that will fail to understand his findings, especially after he makes his explanations.

The 'squire was trying to determine this morning whether or not a man sitting at the rear of a car could see through the bodies of four men and see the denomination of a piece of money collected by the conductor in the front of the car. The 'squire states that he thinks there is no man that is fallible and that any man, no difference how much experience he has had, is liable to make a mistake. It is the general opinion of the public that the defendant will be dismissed, none believing that the testimony offered at the trial was sufficient to make it probable that he was guilty of the alleged crime.

New Well Reported.

Toronto, April 30.—(Special.)—The well on the Warwick farm, in the old Turkeyfoot district, came in yesterday, good for 15 barrels per day. This is the only new development in the Turkeyfoot district for some months. The wells in the Turkeyfoot extension are all being cleaned out, and authoritative reports say that since many of these wells have been cleaned, they are doing from 12 to 15 barrels more daily.

ing and a copy filed with the city auditor; that the city council must make appropriations from balance now in the various funds to carry the new departments from May 4 to July 4, when the first semi-annual appropriations shall be made; that the city council shall have legislative control of the streets and the board of service executive control. As chairman of the committee on executive officers, Denver C. Hughes, of Canton, reported that city treasurers are not required to give additional bonds as treasurers of school funds.

The committee on finance reported as follows, the convention concurring: General pay ordinances will not be passed by council, the pay roll ordinance for its officers and members being the only matter it is authorized to pass on.

Tax levy ordinances this year must conform to all provisions of the code applying after it goes into effect May 4.

Council must provide by levy for wiping out deficiencies created the previous year.

The treasurer pays out school board funds on order of clerk of board and not on order of city auditor.

Public service board has charge of all poor funds.

All officers must be paid their salaries out of their respective funds. That is, the board of safety will be paid from safety funds, etc.

Council makes appropriations and the board in charge applies to the auditor for warrants to pay salaries and bills. Council has nothing to do with it making semi-annual appropriations.

A GREAT HUSTLE TO GET VOTES IN

Nearly 10,000 Ballots in the News Review Popularity Contest Thus Far This Week.

INTEREST IS WIDESPREAD

There has been a general hustle among the contestants in the News Review popularity contest to get all the Series B coupons in before the time when they become void, and the result has been the busiest week yet. Almost 10,000 votes have been cast since Monday and all the leaders have made substantial gains. Through the timely warnings in this column the votes from subscribers in other cities have been gathered, and the number lost by reason of being received too late will be much smaller than on the 15th of the present month, when the first series ceased to count.

The interest continues to increase and become more widespread, and the number of votes cast daily is growing

OLD COUNCIL EXPIRES SUNDAY AT MIDNIGHT

Cannot Legally Act Upon Important Matters
Unless It Meets Prior to
That Time.

THE LAW ON THE SUBJECT IS EXPLICIT

Unless the old council reconsiders its determination to meet next Monday night for the purpose of winding up the affairs of the old administration and decides to hold a session prior to 12 o'clock Sunday night, there are a number of important matters that will never legally see the light of day.

Section 1 of the municipal code says: "For the purpose of carrying into effect the powers and duties conferred and imposed upon present councils, boards of legislation, or other legislative bodies, by the provisions of this act, and for the purpose of conducting the first election to be held in every municipality hereunder, and of preparing for the change in the organization of municipalities being provided for, this act shall take effect from and after the 15th day of November, 1902; and for all other purposes this act, and every portion of the same, including the repeal of the existing laws, shall take effect on the first Monday in May, 1903."

The only interpretation that can reasonably be placed upon the section just quoted is that the code goes into effect and the term of every officer elected under its provisions begins, to be absolutely accurate, at 12 Sunday night. This being undisputed, the question has arisen as to the right of the old council to meet and transact business after that time.

night on the demand recently made for the reinstatement of Conductor Fisher, who was discharged several weeks ago for what the men claim was merely a minor offense. The feeling of the men toward the company is not the best owing to this incident and arrest of Conductor Will Calhoun on a charge of embezzlement. No. 52 will hold a meeting tonight, commencing at 12 o'clock, when they expect to have the decision of the manager on both the scale and the Fisher matter. The meeting will be largely attended as the men are greatly interested in the two questions. They state that there can be but one result, a strike, if the scale is not signed. A vote of the division will be taken in case Fisher is not reinstated and if it is decided to stand by him a strike may result, even if the scale is signed.

General Manager Healy, when asked this afternoon about the new scale, stated that no decision had been reached.

"Who decides the matter?" was asked him. "I do," was the reply.

CARPENTERS' STRIKE MAY BE SETTLED

MUCH DEPENDS UPON A MEETING TOMORROW NIGHT.

Bosses Are Reported to Have Made Concessions—Men Saying Little.

It is possible the carpenters' strike will be settled tonight or Friday morning. Everything depends upon the decision of the union when it meets tomorrow evening in regular weekly session.

A conference was held Monday evening between the strike committee and the contractors. Little is known concerning the action of these joint bodies, but enough was gathered to indicate that a settlement is in-sight, and may be effected this week.

It is understood the bosses made some concessions at Monday night's meeting which places the situation in a much more favorable light from the workman's standpoint. It was arranged that the carpenter's committee should take whatever proposition the bosses made before their local at its meeting tomorrow night. It was there to be discussed and a decision reached as to its acceptance or rejection.

The employers seem to think they are making a liberal concession, and have stated it ought to be accepted. On the other hand, the leaders of the strike are not over-enthusiased with the proposition, and many doubts are expressed as to whether it will be finally accepted. The men are saying little, however, beyond the statement that the entire matter will be laid before the local for consideration. Friday evening will see a settlement if one is possible under the circumstances.

THE CASE RESTS WITH THE JURY

PROCEEDINGS HEARD FOR CONDEMNING HAZLETT'S LAND.

A Large Number of Witnesses Were Present from Wellsville Yesterday.

The witnesses in the case of the government against Miss E. P. Hazlett, of this city, in regard to appropriation of land for a dam site, have returned from Cleveland, where the case was being tried. The trial was held yesterday and last evening the case was left in the hands of the jury, who will bring in a verdict some time today.

The land in question lies a short distance above Wellsville and has a frontage of about 400 feet. It formerly belonged to J. G. Kountz and he stated this morning that in 1880 he was offered \$5,000 for the land, or \$12.50 per foot, by capitalists for a pottery site and on his refusal to sell the site the pottery was built in East Liverpool. Mr. Kountz also stated that his brother, Hiram Kountz, sold some land in that vicinity to the Pennsylvania Railroad company for \$10 per foot frontage. "Surely," remarked Mr. Kountz, "if in 1880 this land was worth \$12.50 per foot and the railroad company are paying \$10 per foot now the government should not hesitate to pay a fair price for the land."

The jurors of the United States court of Cleveland were in Wellsville Tuesday looking over the land. There were 10 witnesses for the defense and five for the plaintiff, all of whom were from Wellsville.

Judge P. M. Smith is handling the case for Miss Hazlett and Attorney Sullivan for the government. This case is being watched with considerable interest by the citizens of Wellsville, and the verdict of the jury is anxiously looked for.

Title to Right of Way.

Lisbon, April 30.—(Special.)—The Canton & East Liverpool Railway company has commenced proceedings against Elizabeth Z. and James Marshall to appropriate for a right of way a strip of land in Liverpool township. The defendants are residents of Beaver, Pa. Louis W. Healy is made a party defendant, as claiming an interest in the property sought to be appropriated.

Widow Gets the Property.

Lisbon, April 30.—(Special.)—A commission issued to take the depositions of D. R. Shannon and D. C. Nevin, subscribing witnesses to the will of the late William Mitchell, of New Waterford, has been returned duly executed and the will admitted to probate. Mitchell willed all his property to his wife, Mary Ann Mitchell, who is named as executrix.

NEW MAYORS TAKE REINS IN CITIES OF THIS STATE ASSUMING OFFICE MONDAY

Policemen and Firemen Then On Duty Remain,
Entering Classified Service—Code
Points Cleared Up.

From a Staff Correspondent.

Columbus, April 30.—The Ohio solicitors who met here Tuesday and Wednesday have formed a permanent association to be known as the City Solicitors' Association of Ohio, the object being for the cultivation of acquaintanceship among the solicitors mutual aid and assistance in arriving at a harmonious construction of the municipal laws of Ohio and to secure the enactment of prudent legislation. James M. Butler, of Columbus, is president; U. G. Dorman, Toledo, vice president; Philip G. Smythe, Newark, secretary; Thomas C. Beatty, Portsmouth, treasurer. The proceedings of the meeting will be printed and copies mailed to all solicitors. Membership is restricted to solicitors and ex-solicitors, the latter to be honorary members.

The convention agreed that mayors inaugurated next Monday will immediately be clothed with all the powers given them by the code. They will assume immediate direction of the police and fire departments through the medium of the chiefs of the two departments who will thereafter report to and receive orders from them. It was decided that every man found a member of the police and fire departments next Monday shall be entitled to remain in such service and have his name enrolled in the classified service under protection of the merit system without taking the examination. This does not include marshals or elective police or fire officers, who surrender their offices on Monday and are not placed on the classified list. It was the consensus of opinion that the poor fund should be under jurisdiction of the board of public service; that the city sealer of weights and measures will be appointed by the mayor; that all contracts involving more than \$50 must be made in writing.

THE CALHOUN CASE WILL BE DECIDED

'Squire Rose Will Render an Opinion in the Embezzlement Suit This Afternoon.

'Squire J. N. Rose announces that he will render his decision in the case of the state of Ohio against William Calhoun at 4 o'clock this afternoon. He has received the transcripts of the testimony of both the plaintiffs and the defendant and though he intended giving out the decision tomorrow, changed the time by request of the defendant's attorney.

Not in years has a case, wherein so trivial an amount was involved, invoked so much interest. There are hundreds of people in the city anxiously waiting the decision of the justice and he anticipates no difference of opinion what his decision may be. The 'squire is a conscientious man and has the reputation of good, sound judgment. There are few that will fail to understand his findings, especially after he makes his explanations.

The 'squire was trying to determine this morning whether or not a man sitting at the rear of a car could see through the bodies of four men and see the denomination of a piece of money collected by the conductor in the front of the car. The 'squire states that he thinks there is no man that is fallible and that any man, no difference how much experience he has had, is liable to make a mistake. It is the general opinion of the public that the defendant will be dismissed, none believing that the testimony offered at the trial was sufficient to make it probable that he was guilty of the alleged crime.

New Well Reported.

Toronto, April 30.—(Special.)—The well on the Warwick farm, in the old Turkeyfoot district, came in yesterday, good for 15 barrels per day. This is the only new development in the Turkeyfoot district for some months. The wells in the Turkeyfoot extension are all being cleaned out, and authoritative reports say that since many of these wells have been cleaned, they are doing from 12 to 15 barrels more daily.

As chairman of the committee on executive officers, Denver C. Hughes, of Canton, reported that city treasurers are not required to give additional bonds as treasurers of school funds.

The committee on finance reported as follows, the convention concurring: General pay ordinances will not be passed by council, the pay roll ordinance for its officers and members being the only matter it is authorized to pass on.

Tax levy ordinances this year must conform to all provisions of the code applying after it goes into effect May 4.

Council must provide by levy for wiping out deficiencies created the previous year.

The treasurer pays out school board funds on order of clerk of board and not on order of city auditor.

Public service board has charge of all poor funds.

All officers must be paid their salaries out of their respective funds. That is, the board of safety will be paid from safety funds, etc.

Council makes appropriations and the board in charge applies to the auditor for warrants to pay salaries and bills. Council has nothing to do with it making semi-annual appropriations.

The city auditor will be clerk of the tax commission and sinking fund trustees, but council may provide for

There has been a general hustle among the contestants in the News Review popularity contest to get all the Series B coupons in before the time when they become void, and the result has been the busiest week yet. OLD COUNCIL EXPIRES SUNDAY AT MIDNIGHT

Cannot Legally Act Upon Important Matters Unless It Meets Prior to That Time.

THE LAW ON THE SUBJECT IS EXPLICIT

Unless the old council reconsiders its determination to meet next Monday night for the purpose of winding up the affairs of the old administration and decides to hold a session prior to 12 o'clock Sunday night, there are a number of important matters that will never legally see the light of day.

Section 1 of the municipal code says: "For the purpose of carrying into effect the powers and duties conferred and imposed upon present councils, boards of legislation, or other legislative bodies, by the provisions of this act, and for the purpose of conducting the first election to be held in every municipality hereunder, and of preparing for the change in the organization of municipalities being provided for, this act shall take effect from and after the 15th day of November, 1902; and for all other purposes this act, and every portion of the same, including the repeal of the existing laws, shall take effect on the first Monday in May, 1903."

The only interpretation that can reasonably be placed upon the section just quoted is that the code goes into effect and the term of every officer elected under its provisions begins, to be absolutely accurate, at 12 Sunday night. This being undisputed, the question has arisen as to the right of the old council to meet and transact business after that time.

There are several ordinances now pending which have had but one reading, owing to the absence of several members of council at the meeting Tuesday night. If the old body neglects to act before Monday morning it is held the measures will not be passed.

One of the most important of these

IMPORTANT DEAL AT THE SEVRES

W. T. Tebbutt Sells Out to H. A. Keffor and J. L. Higley and Retires.

FUTURE COURSE UNDECIDED

An important change has been made in the ownership and control of the Severs pottery, located at Market and Second streets, the interests of W. T. Tebbutt, secretary and treasurer of the company, and his associates having been purchased by H. A. Keffor, president of the company, and J. L. Higley, a Canton capitalist. The amounts of stock and the consideration involved in the deal have not been made public, but they will run well into the thousands. Mr. Tebbutt was a large stockholder and besides his own holdings represented a number of others.

The plant under the present management has been remarkably successful. The standard of its product has been raised until it compares favorably with any in the country, and many new lines have been added from time to time. The dinner and toilet lines and specialties made by the plant have gained a wide reputation all over the country. The plant has been one of the busiest in the district.

The present organization of the company will not be disturbed except that Mr. Higley will likely succeed Mr. Tebbutt as secretary and treasurer. Mr. Higley has had no previous experience in the pottery industry, but he is a prudent business man with years of experience. His position will not require a thoroughly practical training. He will come to this city probably this week to assume his new duties.

Mr. Tebbutt, when seen this morning by a News Review reporter, stated that he had made no plans as to the future. "I might take Al Hughes' job

ordinances is that which gives to the city solicitor all expense money while that official is absent from his office on the city's business. This will include the items of expense incurred by the solicitor in carrying cases to the county and other higher courts, no provision for which has been made either in the code or by ordinance. Included in the same measure is a section increasing the salary fixed by a special committee some time ago to compensate the auditor from \$1,000 to \$1,200. This ordinance has had but one reading, and it is held must be passed under suspension of the rules previous to the new administration taking charge on Monday morning.

When the ordinance was up Tuesday evening it did not occur to any of the six councilmen present to look up the law covering the subject, which says: "Section 126—The council shall fix the salaries of all officers, clerks and employees in the city government, except as otherwise provided in this act; and except as otherwise provided in this act all fees pertaining to any office shall be paid into the city treasury. The salary of any officer, clerk or employee so fixed, shall not be increased or diminished during the term for which he may have been elected or appointed."

There have been cases within the past year where the salary of officials were raised after they had entered upon their terms of office, but had not yet qualified. It is argued this will not apply in the present instance, since the law does not mention the word "qualify," but simply says "during their term of office."

An effort will doubtless be made to have President Nice call a meeting for Friday evening.

or be Mayor Weaver's chief of police," he said, jokingly. "I haven't played my trumps right, for I failed to get an offer of a bonus for building a new pottery."

Seriously, Mr. Tebbutt has made no arrangements for the future. He declares he has had enough of the pottery business and will seek some other line. Before engaging in anything he will take a much-needed rest and will leave here Sunday evening for New York and other eastern cities.

ALL THE DEMANDS WILL BE INSISTED UPON

Railroad Committee of Council Determined to Look After the City's Interests.

Considerable speculation has been indulged in since it became known that the Pennsylvania officials would meet the railroad committee as to just what attitude would be assumed by the railroad men when the conference is held tomorrow.

It will be remembered that when the officials met with the council some time ago Supt. Scriven found it convenient to omit several clauses from the demands made by the city. The oversight was not noticed at the time, but it now develops that the matters neglected by the superintendent are the very concessions which the city's committee is determined to have granted, and some trouble may be met in accomplishing it.

Of one thing the general public may rest assured, and that is the committee will insist upon every item included in the list being acceded to or there will be no settlement of the long-standing controversy.

Frankfort, Ky., April 30.—(Special.)—The jury in the case of James Howard, charged with the murder of Goebel, today found him guilty and fixed his punishment at imprisonment for life.

THE CROOKS GAINED BUT SLIM HARVEST

A WELLSVILLE MAN ROBBED OF \$29 ON A STREET CAR.

No Other Losses of Moment On Circuit Day Reported to the Police.

Though the city seemed to be about as full of pickpockets and other crooks yesterday as is usual on circuit day, there were very few complaints registered at central police station and it is thought that the residents as a whole escaped with an extremely light loss. The police force was on the watch for nefarious work and kept the show grounds under careful surveillance throughout the day. Officers were called upon once to settle a dispute over change made at the ticket office, but were unable to furnish any proof and were compelled to let the matter drop. A man stated that he had given the ticket seller a \$2 bill and that he only received 50 cents in return. The seller denied that he had short changed the man and there was nothing more to it.

A swindling game was nipped in the bud by the officers. It was being worked on the inside of a tent and some fellow, after being victimized, objected. By the time the officers arrived on the scene the game had ceased operations and the men that had been running it agreed to discontinue for the day.

James Patterson, a pottery owner of Wellsville, reported to the officers that his pocket had been picked and as a result he was just \$29 out. He said that he boarded a car in Wellsville to come to the city and while enroute a wallet in his hip pocket was taken. He could not remember of any suspicious persons being near him, and the officers, having no clue to work upon, gave the matter no thought.

It was expected that crooks with Mexican money would work the people, but none of them were seen or heard of and there is little probability that any such work was done.

SIX WERE KILLED AND A SCORE HURT

DYNAMITE EXPLOSION WRECKS A POWDER FACTORY.

Every Window in Houses in a Neighboring Village Shattered.

Altoona, Pa., April 30.—(Special.)—An explosion of dynamite at the works of the Crescent Powder company, in the mountains near here today, killed six workmen and injured a score more.

The force of the explosion was so great that nearly every window in the neighboring village of Williamsburg was shattered. The buildings took fire and were destroyed.

THE NEW SCALE NOT YET SIGNED

Employees of the East Liverpool Railway in an Uncertain Frame of Mind. Decision Tonight.

Whether or not cars run on the East Liverpool Railway company's lines tomorrow rests entirely with L. W. Healy, general manager of the road. A new scale of wages has been presented to him by a committee representing Division No. 52, Amalgamated Association of Street Railway Employees, and at a late hour this afternoon he had not signed it. The only material change from the old agreement is a demand for an increase of one cent an hour for three year men. The new agreement was promptly signed by C. A. Smith for the Southside line.

Mr. Healy last year withheld his decision on the scale now in force until the last car entered the turn on the night of April 30, and he seems to have adopted the same policy again. The men will not know whether it is to be peace or war between them and the company until Mr. Healy signs, or refuses to sign, the scale. They state that all members of the division will decline to take out their runs tomorrow if the new scale is not signed.

RAN THE STREETS LIKE A MANIAC

Man Suffering From Delirium Tremens Caused Excitement and Terror.

A MOST AFFECTING SCENE

Witnessed at the City Jail When the Wife of the Inebriate Came to See Him—Booked to Stay in a Cell Till He Recovers.

Suffering from delirium tremens as the result of a protracted drunk, John Goodwin, a kilnhand living at 181 Fairview street, left his home at a late hour last night, only partially dressed, and ran through the streets up to the Diamond, yelling and carrying on in a manner like a raving maniac. Pedestrians on the streets were badly frightened by the man's actions and many ran from him in wildest terror. His rantings attracted the attention of Officer Aufderheide, who immediately placed him under arrest and lodged him in a cell of the woman's department at the city jail.

Mrs. Goodwin, wife of the prisoner, was informed of his arrest and at 9 o'clock this morning, with her infant child clasped to her breast, applied at the jail and asked to see her husband. She was taken to the corridor and the scene that followed was one more pitiable than has been witnessed at the jail in many months. For a moment the poor woman gazed at her husband and then she broke into bitter tears. But for the kindly words of condolence offered by Officer Dunn, she no doubt would have sobbed until overtaken by nervous prostration. As it was, she came near falling to the floor in a swoon. The husband, though in a delirious state when she entered, revived somewhat upon noticing her expression of feeling, and seemed a little penitent for having wrought such suffering.

Mayor Davidson stated that he would keep Goodwin in jail until he entirely recovers from his spell, but he would not impose a fine, because, as he looks upon it, the money would be taken from the wife and baby and they alone would be the sufferers. It is thought that the man will be over the attack in a few days.

"Zip" Farmer was the only other person that fell into the net of the police during the night. He was arrested by Officer McDermott, who preferred a charge of drunkenness against him. The mayor said: "Zip seems to like me so well that I have concluded to let him stay in jail until next Monday, when both of us will leave the city hall together."

night on the demand recently made for the reinstatement of Conductor Fisher, who was discharged several weeks ago for what the men claim was merely a minor offense. The feeling of the men toward the company is not the best owing to this incident and arrest of Conductor Will Calhoun on a charge of embezzlement. No. 52 will hold a meeting tonight, commencing at 12 o'clock, when they expect to have the decision of the manager on both the scale and the Fisher matter. The meeting will be largely attended as the men are greatly interested in the two questions. They state that there can be but one result, a strike, is the scale not signed. A vote of the division will be taken in case Fisher is not reinstated and if it is decided to stand by him a strike may result, even if the scale is signed.

General Manager Healy, when asked this afternoon about the new scale, stated that no decision had been reached. "Who decides the matter?" was asked him. "I do," was the reply.

WITH THE WORKMEN IN THE CLAY PLANTS

DOWN THE VALLEY.

Toronto, April 30.—The Mack company's works, brick yards and sewer pipe, are running partially. The Silgo sewer pipe works, opposite Toronto, the largest in the coterie, has been closed down for some weeks for repairs, but will resume Monday of next week.

The American China company this week has been wrestling with a small strike in the decalcomania or printing department on account of placing in a new printing machine. The girls, seven or eight in number, quit, and now the company is endeavoring to fill their places with other labor.

The most important item within the jurisdiction of the American Sewer Pipe company's plants, some 36 in number, is the scarcity of cars among Ohio valley plants, some eight or 10 in number. Two of these plants, the Ohio Valley and Markle, still remain closed down, while other plants, Great Western, Calumet, Forest City and Empire, are still in operation. The scarcity of cars, as usual, has retarded the shipment of ware. Owing to the scarcity of engines on the C. & P. division the regular sewer pipe shifter has been making semi-weekly visits to Toronto, whereas last summer it was taking out between 50 and 60 cars daily. How long the shortage of cars will last is not known, but shipments of fire brick and sewer pipe have been curtailed about three-quarters from last year's shipments.

The American China company has gone back to the making of general ware, having finished its contract on specialties. The same is true of the Chelsea China company at New Cumberland.

The Myers Fire Clay company has begun the manufacture of sewer pipe, and is still building new kilns, to the number of 12. It is said that this company, which is an independent one, has the finest slope down to the clay of any works along the Ohio valley. Very few shipments of pipe have been made as yet, and the company expects to get into good working order within the next month or so.

The new slope to the clay mine at the Forest City works of the American Sewer Pipe company has been completed. The track has not yet been laid down into the mine, but work is progressing along these lines, and a few weeks will see the work completed. There are to be added many improvements for the handling of the clay after it comes from the mine and for its speedy distribution to the clay pans for mixture and manufacture into pipe.

INDIAN POTTERY.

"The potters' wheel is usually cited as the first primitive departure from the rude moulding of clay by the hand alone," says an exchange. "It appears from researches among some of the Arizona Indian tribes that the industry, among some nations at least, took another line of development, which, however, was checked before coming to anything.

"Among these tribes basket bowls, which are woven of flexible materials, are fired with clay into which a large portion of sand is kneaded. While in the plastic condition this clay is pressed with the fingers to fit the side of the basket, which is then put in the sun to dry. A number of cactus seeds, together with some glowing wood embers, are then placed inside the clay-lined basket. The worker, usually a woman, then moves the basket spirally up and down, making the embers, the seeds, dance a lively dance, keeping the coals glowing all the while by blowing upon them. One by one the seeds crack on the outside, and then with equal dexterity, the worker separates them from the coals. When this seed cooking has been repeated several times the clay, hardened by this constant burning, soon separates from its basket mould, and the Indian finds, ready made to her hands, a new vessel impervious to heat and capable of carrying water."

WOMEN WRITERS.

Fifty journalists are all right in fiction and fashion journals and cookery books, but they say some funny things when they enter other fields of literature. They are, however, never so funny as when they unite descriptive criticism with journalism, says a correspondent of the London Pottery Gazette. I have before me a North Country monthly, in which a lady journalist describes a visit she and a lady friend paid to a North Country china shop. She says:

"We saw the latest in epineges, which revealed itself in the shape of cut-glass flower-holders shaped like leaves, clustering about a curved stem of dull gold. My cousin was quite charmed with this, and we both fell in love with the new mother-of-pearl glass, its white-green ground gleam-

ing with beautiful opalescent lights. Sets of finger bowls and ice plates, as well as every variety of small article are made in this, and its price is very moderate. Unique, as well as novel, was the 'Royal Worcester Art Ware'; they never know beforehand what color the beautifully shaded vases will come out, and no two are alike. Some of the Hadley of Worcester vases, and then painted, were particularly nice; and the 'Ribbonette' flower vase, a tall, graceful specimen of green Stourbridge glass, was too good to be passed by."

If it is true that "they do not know beforehand what color the beautifully shaded vases will come out," our china painters are singularly fortunate at guessing at results.

HAVE NO SLATE.

With the time for the convention almost upon them very little is now heard as to the presidency from the delegates, and it seems to be a settled fact that Thomas J. Duffy will be the lucky man. There are many who claimed that he will not be opposed for the honor. The delegates from East Liverpool, it is stated, are a unit for Mr. Duffy. He is greatly favored among the eastern delegates and has about the same standing among the many isolated western locals as he has in this city. No slate will be fixed up by the delegates from this city prior to going to Wheeling, although a number have already stated preferences for national officers. It may be that either the pressers or the turners and handlers, or both, will present a candidate for secretary. Both of these locals are large in membership and very influential in the affairs of the organization. The latter local has been represented among the national officers by President Hughes. The pressers are not represented, except from the sanitary branch in the person of Vice President Hutchins, and they think they have a just claim to some honor. The jiggermen will have the presidency if Mr. Duffy is elected, and the kilnmen have the national treasurer.

OFF FOR THE CIRCUS.

Most of the shops presented a deserted appearance yesterday, many of the operatives taking the day on account of the big circus. Very little work was done in any of the departments after 9 o'clock in the morning. The kilnmen had pulled ahead and in reality lost no time, while in other departments night duty was performed to get ahead.

TRADE BETTER.

Trade at the National has shown a marked improvement during the past week or 10 days and the plant is now in almost full operation. The market must be flat, indeed, when there is not a strong and steady demand for the National's well known lines and their slow season was only what many other good plants have to contend with.

REAPING THE HARVEST.

The local pottery machinery manufacturers are reaping a harvest from the large number of plants that are being built over the country if nobody else is benefited. Nearly every new plant is supplied with machinery from one of the two local concerns, both of which have lately had more orders

than could be promptly filled. Scarcely a week passes without several cars of machinery being shipped to some isolated pottery town, where the citizens, anxious to secure a new industry, have given up large sums in the way of bonuses. East Liverpool leads in the manufacture of potting machinery just as she does in the manufacture of ware.

AMONG THE WORKERS.

John Sutcliffe has taken a position at the National as sticker-up.

James Duffy has taken the cover dish job at the National vacated by Walter Young when he quit to go to Laughlin No. 3.

Joseph Mountford, who recently took a situation with the Minerva plant, was visiting relatives here this week. He reports everything in good shape in the new pottery town.

MINERS MAY STRIKE

Unless Certain Concessions Are Made the District May Go Out.

Toronto, April 29.—(Special.)—It is reliably stated that unless the coal mines of this district, which includes portions of Columbiana county, Jefferson, Carroll and Mahoning counties, are not granted a raise in price of mining, a general strike will occur. The miners will not state the price that has been demanded of operators, sewer pipe and fire brick companies.

Nearly all of the coal miners along the Ohio valley are now affiliated with the miners' union, and if called upon, will go out at the order to strike.

Kane Was Released.

In the re-hearing before the probate court at Steubenville, Albert Kane, of Empire, who is held to be responsible for the injuries of Conductor Kerr, was held for investigation of his case before the grand jury, and his bond fixed by the court at \$200. Squire Ball signed the bond as surety and Kane was released.

"Jim Dumps," cried wife, "Oh me, oh my! I thought I had a good supply. The boys must eat it on the sly! 'Tis 'Force' between meals now, not pie!"

"That saves you work and gives them vim, Buy all you need," says "Sunny Jim."

EDUCATORS MUST BE CHARACTER MAKERS

By JAMES B. DILL, New York Lawyer,
Called "The Father of Trusts"

THE world is full of instances of men who have failed in business because they were "misplaced men." Few men, having come to a realization of the fact that they have started upon the wrong course, entered upon the wrong lines of work, have the courage to turn around and start over again, beginning at the bottom. No class of men are more likely to make this mistake than university graduates. The first thing, therefore, that a university education in the hands of practical instructors should do is to stop "misplaced men" from continuing in the wrong course. It is to keep out of the law school the man who is intended for the ministry. It is to keep the man out of the theological seminary the bent of whose mind leans to the law.

The vital question to the young man in after years is his character, integrity and strength, mental and moral—not so much whether he has absorbed so much Greek, Latin or mathematics, but what impress has the instructor and instruction made upon the character, mental and moral, of the university man.

THE NEED OF THE AGE IS NOT MORE EDUCATION IN EXTENT, BUT MORE EDUCATORS IN THE TRUE SENSE OF THE WORD—MORE CHARACTER MAKERS RATHER THAN LECTURERS OF THEORY.

Toronto, April 30.—(Special.)—Condemnation proceedings will be begun in all probability in the next term of common pleas court in Jefferson county on the lands of the Stewart heirs, located in Postville, one mile above Toronto, for right of way for the Wabash railway through the lands.

The condemnation proceedings in the same court by the Wabash company on the lands of Patrick Nee and Curtis Cable, located above Alikanna, were continued yesterday until a later date in this term of court. Attorneys for plaintiffs and defendants viewed these lands yesterday.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

WITH THE WORKMEN IN THE CLAY PLANTS

DOWN THE VALLEY.

Toronto, April 20.—The Mack company's works, brick yards and sewer pipe, are running partially. The Silgo sewer pipe works, opposite Toronto, the largest in the coterie, has been closed down for some weeks for repairs, but will resume Monday of next week.

The American China company this week has been wrestling with a small strike in the decalcomania or printing department on account of placing in a new printing machine. The girls, seven or eight in number, quit, and now the company is endeavoring to fill their places with other labor.

The most important item within the jurisdiction of the American Sewer Pipe company's plants, some 36 in number, is the scarcity of cars among Ohio valley plants, some eight or 10 in number. Two of these plants, the Ohio Valley and Markle, still remain closed down, while other plants, Great Western, Calumet, Forest City and Empire, are still in operation. The scarcity of cars, as usual, has retarded the shipment of ware. Owing to the scarcity of engines on the C. & P. division the regular sewer pipe shifter has been making semi-weekly visits to Toronto, whereas last summer it was taking out between 50 and 60 cars daily. How long the shortage of cars will last is not known, but shipments of fire brick and sewer pipe have been curtailed about three-quarters from last year's shipments.

The American China company has gone back to the making of general ware, having finished its contract on specialties. The same is true of the Chelsea China company at New Cumberland.

The Myers Fire Clay company has begun the manufacture of sewer pipe, and is still building new kilns, to the number of 12. It is said that this company, which is an independent one, has the finest slope down to the clay of any works along the Ohio valley. Very few shipments of pipe have been made as yet, and the company expects to get into good working order within the next month or so.

The new slope to the clay mine at the Forest City works of the American Sewer Pipe company has not yet been completed. The track has not yet been laid down into the mine, but work is progressing along these lines, and a few weeks will see the work completed. There are to be added many improvements for the handling of the clay after it comes from the mine and for its speedy distribution to the clay pans for mixture and manufacture into pipe.

INDIAN POTTERY.

"The potters' wheel is usually cited as the first primitive departure from the rude moulding of clay by the hand alone," says an exchange. "It appears from researches among some of the Arizona Indian tribes that the industry, among some nations at least, took another line of development, which, however, was checked before coming to anything.

KING EDWARD VISITS THE POPE

Ruler of England and Head of Church Clasp Hands—Alone With Pontiff Twenty Minutes.

Rome, April 20.—King Edward visited Pope Leo at the Vatican, going direct from the British embassy in a closed carriage. He was accompanied by Colonel Lamb, the British military attaché. The carriage bearing the king was followed by another containing members of his majesty's suite.

When the royal party reached the grand staircase leading to the papal apartment King Edward was greeted by the Marquis Sacchetti, who acted for Prince Ruspoli, the introducer of sovereigns, who is ill. Mr. Merry Del Val and Prince Audis-Mattei.

At the Clementine hall the party was met by the papal master of the chamber, Monsignor Bisleti, who was attended by personages of the secret antechamber. Upon arriving before the private apartment of the pope the noble guard rendered military honors to the British sovereign. At the conclusion of this ceremony the door of the pope's apartment was immediately opened and the aged pontiff was revealed standing at the threshold. His hand was extended, awaiting his guest. His holiness was dressed in robes of white and a red velvet cap bordered with ermine. Even King Edward paused a moment upon seeing the pontiff in his white garments. The pope's face was the color of ivory, but he moved without aid and with no apparent difficulty. From his entire person there seemed to emanate sentiments of benevolence and spirituality. The king and the head of the church clasped hands and exchanged a few words in French. King Edward passed within the papal apartment, the door was closed and the pope and his guest were left alone.

King Edward remained with the pontiff for 20 minutes. A bell was then rung and King Edward's suite was admitted and presented to the pope. This little ceremony seemed to please the pope immensely. At its conclusion King Edward took his leave, the pope crossing the room at his side and saying his last words at the door.

From the Vatican King Edward passed through the piazza of St. Peter, where he was warmly greeted in English by a number of Scotch pilgrims now in review, who shouted, "Hurrah for the king." Had King Edward looked up at that moment he would have seen a figure in a window of the second story of the palace; it was Pope Leo. Contrasted with the British sovereign who stood below in the sunlight and the center of the animation of the immense plaza the solitary white figure in the palace window seemed to further the idea of the pope as a prisoner.

WITH THE WORKMEN IN THE CLAY PLANTS

DOWN THE VALLEY.

Toronto, April 20.—The Mack company's works, brick yards and sewer pipe, are running partially. The Silgo sewer pipe works, opposite Toronto, the largest in the coterie, has been closed down for some weeks for repairs, but will resume Monday of next week.

The American China company this week has been wrestling with a small strike in the decalcomania or printing department on account of placing in a new printing machine. The girls, seven or eight in number, quit, and now the company is endeavoring to fill their places with other labor.

The most important item within the jurisdiction of the American Sewer Pipe company's plants, some 36 in number, is the scarcity of cars among Ohio valley plants, some eight or 10 in number. Two of these plants, the Ohio Valley and Markle, still remain closed down, while other plants, Great Western, Calumet, Forest City and Empire, are still in operation. The scarcity of cars, as usual, has retarded the shipment of ware. Owing to the scarcity of engines on the C. & P. division the regular sewer pipe shifter has been making semi-weekly visits to Toronto, whereas last summer it was taking out between 50 and 60 cars daily. How long the shortage of cars will last is not known, but shipments of fire brick and sewer pipe have been curtailed about three-quarters from last year's shipments.

The American China company has gone back to the making of general ware, having finished its contract on specialties. The same is true of the Chelsea China company at New Cumberland.

The Myers Fire Clay company has begun the manufacture of sewer pipe, and is still building new kilns, to the number of 12. It is said that this company, which is an independent one, has the finest slope down to the clay of any works along the Ohio valley. Very few shipments of pipe have been made as yet, and the company expects to get into good working order within the next month or so.

The new slope to the clay mine at the Forest City works of the American Sewer Pipe company has been completed. The track has not yet been laid down into the mine, but work is progressing along these lines, and a few weeks will see the work completed. There are to be added many improvements for the handling of the clay after it comes from the mine and for its speedy distribution to the clay pans for mixture and manufacture into pipe.

INDIAN POTTERY.

"The potters' wheel is usually cited as the first primitive departure from the rude moulding of clay by the hand alone," says an exchange. "It appears from researches among some of the Arizona Indian tribes that the industry, among some nations at least, took another line of development, which, however, was checked before coming to anything.

"Among these tribes basket bowls, which are woven of flexible materials, are fired with clay into which a large portion of sand is kneaded. While in the plastic condition this clay is pressed with the fingers to fit the side of the basket, which is then put in the sun to dry. A number of cactus seeds, together with some glowing wood embers, are then placed inside the clay-lined basket. The worker, usually a woman, then moves the basket spirally up and down, making the embers, the seeds, dance a lively dance, keeping the coals glowing all the while by blowing upon them. One by one the seeds crack on the outside, and then with equal dexterity, the worker separates them from the coals. When this seed cooking has been repeated several times the clay, hardened by this constant burning, soon separates from its basket mould, and the Indian finds, ready made to her hands, a new vessel impervious to heat and capable of carrying water."

WOMEN WRITERS.

Lady journalists are all right in fiction and fashion journals and cookery books, but they say some funny things when they enter other fields of literature. They are, however, never so funny as when they unite descriptive criticism with journalism, says a correspondent of the London Pottery Gazette. I have before me a North Country monthly, in which a lady journalist describes a visit she and a lady friend paid to a North Country china shop. She says:

"We saw the latest in opergines, which revealed itself in the shape of cut-glass flower-holders shaped like leaves, clustering about a curved stem of dull gold. My cousin was quite charmed with this, and we both fell in love with the new mother-of-pearl glass, its whitey-green ground gleam

ing with beautiful opalescent lights. Sets of finger bowls and ice plates, as well as every variety of small article are made in this, and its price is very moderate. Unique, as well as novel, was the 'Royal Worcester Art Ware'; they never know beforehand what color or the beautifully shaded vases will come out, and no two are alike. Some of the Hadley of Worcester vases, in-laid in clays of different colors and then painted, were particularly nice; and the 'Ribonette' flower vase, a tall, graceful specimen of green Stourbridge glass, was too good to be passed by."

If it is true that "they do not know beforehand what color the beautifully shaded vases will come out," our china painters are singularly fortunate at guessing at results.

HAVE NO SLATE.

With the time for the convention almost upon them very little is now heard as to the presidency from the delegates, and it seems to be a settled fact that Thomas J. Duffy will be the lucky man. There are many who claimed that he will not be opposed for the honor. The delegates from East Liverpool, it is stated, are a unit for Mr. Duffy. He is greatly favored among the eastern delegates and has about the same standing among the many isolated western locals as he has in this city. No slate will be fixed up by the delegates from this city prior to going to Wheeling, although a number have already stated preferences for national officers. It may be that either the pressers or the turners and handlers, or both, will present a candidate for secretary. Both of these locals are large in membership and very influential in the affairs of the organization. The latter local has been represented among the national officers by President Hughes. The pressers are not represented, except from the sanitary branch in the person of Vice President Hutchins, and they think they have a just claim to some honor. The jigmen will have the presidency if Mr. Duffy is elected, and the kilnmen have the national treasurer.

OFF FOR THE CIRCUS.

Most of the shops presented a deserted appearance yesterday, many of the operatives taking the day on account of the big circus. Very little work was done in any of the departments after 9 o'clock in the morning. The kilnmen had pulled ahead and in reality lost no time, while in other departments night duty was performed to get ahead.

TRADE BETTER.

Trade at the National has shown a marked improvement during the past week or 10 days and the plant is now in almost full operation. The market must be flat, indeed, when there is not a strong and steady demand for the National's well known lines and their slow season was only what many other good plants have to contend with.

REAPING THE HARVEST.

The local pottery machinery manufacturers are reaping a harvest from the large number of plants that are being built over the country if nobody else is benefited. Nearly every new plant is supplied with machinery from one of the two local concerns, both of which have lately had more orders

West Virginia—Fair; continued warm; Friday, rain and colder.

than could be promptly filled. Scarcely a week passes without several cars of machinery being shipped to some isolated pottery town, where the citizens, anxious to secure a new industry, have given up large sums in the way of bonuses. East Liverpool leads in the manufacture of potters' machinery just as she does in the manufacture of ware.

AMONG THE WORKERS.

John Sutcliffe has taken a position at the National as sticker-up.

James Duffy has taken the cover dish job at the National vacated by Walter Young when he quit to go to Laughlin No. 3.

Joseph Mountford, who recently took a situation with the Minerva plant, was visiting relatives here this week. He reports everything in good shape in the new pottery town.

MINERS MAY STRIKE

Unless Certain Concessions Are Made the District May Go Out.

Toronto, April 23.—(Special.)—It is reliably stated that unless the coal mines of this district, which includes portions of Columbiana county, Jefferson, Carroll and Mahoning counties, are not granted a raise in price of mining, a general strike will occur. The miners will not state the price that has been demanded of operators, sewer pipe and fire brick companies.

Nearly all of the coal miners along the Ohio valley are now affiliated with the miners' union, and if called upon, will go out at the order to strike.

Kane Was Released.

In the re-hearing before the probate court at Steubenville, Albert Kane, of Empire, who is held to be responsible for the injuries of Conductor Kerr, was held for investigation of his case before the grand jury, and his bond fixed by the court at \$200. Squire Ball signed the bond as surety and Kane was released.

EDUCATORS MUST BE CHARACTER MAKERS

By JAMES B. DILL, New York Lawyer,
Called "The Father of Trusts"

THE world is full of instances of men who have failed in business because they were "misplaced men." Few men, having come to a realization of the fact that they have started upon the wrong course, entered upon the wrong lines of work, have the courage to turn around and start over again, beginning at the bottom.

No class of men are more likely to make this mistake than university graduates. The first thing, therefore, that a university education in the hands of practical instructors should do is to stop "misplaced men" from continuing in the wrong course. It is to keep out of the law school the man who is intended for the ministry. It is to keep the man out of the theological seminary the bent of whose mind leans to the law.

The vital question to the young man in after years is his character, integrity and strength, mental and moral—not so much whether he has absorbed so much Greek, Latin or mathematics, but what impress has the instructor and instruction made upon the character, mental and moral, of the university man.

THE NEED OF THE AGE IS NOT MORE EDUCATION IN EXTENT, BUT MORE EDUCATORS IN THE TRUE SENSE OF THE WORD—MORE CHARACTER MAKERS RATHER THAN LECTURERS OF THEORY.

CONDEMNATION PROCEEDINGS

To Be Instituted for Lands Wanted By the Wabash for Extension About Toronto.

Toronto, April 30.—(Special.)—Condemnation proceedings will be begun in all probability in the next term of common pleas court in Jefferson county on the lands of the Stewart heirs, located in Fosterville, one mile above Toronto, for right of way for the Wabash railway through the lands.

The condemnation proceedings in the same court by the Wabash company on the lands of Patrick Nee and Curtis Cable, located above Alikanna, were continued yesterday until a later date in this term of court. Attorneys for plaintiffs and defendants viewed these lands yesterday.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

KING EDWARD VISITS THE POPE

Ruler of England and Head of Church Clasp Hands—Along With Pontiff Twenty Minutes.

Rome, April 30.—King Edward visited Pope Leo at the vatican, going direct from the British embassy in a closed carriage. He was accompanied by Colonel Lamb, the British military attaché. The carriage bearing the king was followed by another containing members of his majesty's suite.

When the royal party reached the grand staircase leading to the papal apartment King Edward was greeted by the Marquis Sacchetti, who acted for Prince Ruspoli, the introducer of sovereigns, who is ill. Mgr. Merry Del Val and Prince Antioch-Mattei.

At the Clementine hall the party was met by the papal master of the chamber, Monsignor Bissetti, who was attended by personages of the secret antechamber. Upon arriving before the private apartment of the pope the noble guard rendered military honors to the British sovereign. At the conclusion of this ceremony the door of the pope's apartment was immediately opened and the aged pontiff was revealed standing at the threshold. His hand was extended, awaiting his guest. His holiness was dressed in robes of white and a red velvet cape bordered with ermine. Even King Edward paused a moment upon seeing the pontiff in his white garments. The pope's face was the color of ivory, but he moved without aid and with no apparent difficulty. From his entire person there seemed to emanate sentiments of benevolence and spirituality. The king and the head of the church clasped hands and exchanged a few words in French. King Edward passed within the papal apartment, the door was closed and the pope and his guest were left alone.

King Edward remained with the pontiff for 20 minutes. A bell was then rung and King Edward's suite was admitted and presented to the pope. This little ceremony seemed to please the pope immensely. At its conclusion King Edward took his leave, the pope crossing the room at his side and saying his last words at the door.

From the vatican King Edward passed through the piazza of St. Peter where he was warmly greeted in English by a number of Scotch pilgrims now in review, who shouted, "Hurrah for the king." Had King Edward looked up at that moment he would have seen a figure in a window of the second story of the palace; it was Pope Leo. Contrasted with the British sovereign who stood below in the sunlight and the center of the animation of the immense plaza the solitary white figure in the palace window seemed to further the idea of the pope as a prisoner.

EAST END

GROWING IN INTEREST

Special Meetings of the Second Christian Church Are Largely Attended.

Another large congregation greeted Rev. C. A. Kleeberger, state evangelist for the Christian church, when he preached last evening in Larkins' hall. Rev. Mr. Kleeberger delivered a scholarly and eloquent address and aroused considerable religious feeling among those present.

The meetings are growing in interest and the meeting place is much too small to accommodate all who would like to attend. There have been several conversions, and a number of accessions to the church. The meetings will continue every night this week and until further announcement is made.

YOUNG PEOPLE WED

Miss Edith Sinclair And William Wright Unite Fortunes for Life.

Miss Edith Sinclair and William Wright were married last night at 9 o'clock by Rev. G. W. Orcutt, of the Erie street M. E. church. The ceremony was performed at the parsonage in the presence of only the immediate friends of the contracting parties.

The bride is a popular and highly esteemed young lady and has been employed in the decorating department at the Lauglin No. 2 plant. The groom is an employee of this plant and is an industrious and enterprising young man. Their many friends are extending hearty congratulations.

Inspecting the Oil Field.

Ernest Smith left this morning for the Knoxville oil field, where he will make an inspection of the land under lease to the Rock Run Oil & Gas company, composed of East End people. The company has not yet received its charter, but it is expected at any time. The territory will be developed as soon as an organization can be effected, and the stockholders are confident of striking it rich.

Many Saw the Show.

The East End has already recovered from the effects of the circus and business is going on as though it had not been interrupted. Yesterday was a veritable holiday for both young and old, and nearly everybody went to see the big show. Business of all kinds was practically suspended during the afternoon and the streets presented a deserted appearance.

Goes to California.

Mrs. Jennie Bryan has disposed of all of her property in the East End, consisting of two dwellings and a large quantity of household furnishings and will leave in a few days for Los Angeles, Cal., where she will make her home.

A Pleasant Party.

Miss Margaret White, of Ohio avenue, was the hostess last evening to quite a number of her young friends. The moments were pleasantly whiled away with innocent games and music and tempting refreshments were served.

Will Entertain Tonight.

Miss Myrtle and Effie White will entertain quite a number of their young friends with a party tonight at the home of Mr. and Mrs. Archie Searight, of Pennsylvania avenue.

EAST END AFFAIRS.

Mr. and Mrs. Frank Chambers were visitors to Pittsburg today.

Miss Ella Guy, of First avenue, is seriously ill with pneumonia.

Warren Horger, of First avenue, is recovering from a severe attack of the grip.

Robert Larkins, the popular young grocer, has purchased a fine new horse for his delivery wagon.

Floyd Reynolds, of Erie street, who has been seriously ill with catarrhal fever, is slightly improved today.

Don't fool with a cold; no one can tell what the end may be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from neglected colds. Nothing can be compared with Chamberlain's Cough Remedy as a quick cure for colds and influenza, and by its use these diseases may be avoided. For sale by Alvin H. Bulger.

STRONG EVIDENCE OF FAITH

Will Reed Guarantees That Hyomei Will Cure the Worst Cases of Catarrh in East Liverpool.

When one of the most reputable concerns in East Liverpool guarantees that a medicine will effect a cure or that it will return the money, it speaks volumes as to the merits of the remedy. It is in this way that Will Reed is selling Hyomei, the treatment that has made the many remarkable cures of both acute and chronic cases of catarrh in East Liverpool and vicinity.

Hyomei is not a pill nor is it a liquid that has to be taken with a tablespoon or wine glass. Just breathe it in by the aid of an inhaler that comes in every outfit and benefit will be seen from the first treatment. It destroys all germ life in the passages and lungs and enriches and purifies the blood with additional ozone. It cures catarrh of the head and throat, or of the stomach, liver and kidneys. Wherever mucous membrane contains catarrhal germs, there Hyomei will do its work of healing. When using this treatment the air you breathe will be found like that on the mountain high above the sea level where grow balsamic trees and plants which made the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

Remember that if Hyomei does not cure you, Will Reed will refund your money. This is a good time to cure catarrh by this natural method and prevent catarrhal colds that are so common at this season.

A Prisoner in Her House.

Mrs. W. H. Layha, of 1001 Agnes avenue, Kansas City, Mo., has for several years been troubled with severe hoarseness and at times a hard cough, which she says, "Would keep me in doors for days. I was prescribed by physicians with no noticeable results. A friend gave me a part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a decided change for the better and at this time after using it for two weeks have no hesitation in saying I realize that I am entirely cured. From this time on Chamberlain's Cough Remedy will be my house constantly."

MI-O-NA A GUARANTEED CURE

Folly of Treating Dyspepsia With Pepsin Tablets.

Mi-o-na is entirely different from other treatments for dyspepsia. The fact that it is sold by Will Reed, the popular druggist, under his personal guarantee to refund the money if it does not cure dyspepsia and restore normal weight, shows that it possesses unusual merit.

Mi-o-na is not an ordinary laxative pill; it is not a digestive tablet composed of pepsin or pancreatin; it is not a mere stimulant or tonic. Mi-o-na is a compressed food tablet that furnishes the constituents necessary to build up the system; it aids the food to assimilate, and strengthens and regulates the digestive organs, enabling the body to gain in natural, healthy plumpness.

Austin Flint, M. D., professor of physiology in the Bellevue Hospital Medical college, New York city, one of the most eminent medical men in the country, says: "I have yet to see a single case in which any of the pepsins, pancreatins or the physiologically absurd combinations of pepsin and pancreatin seem to have produced any benefit, even of a temporary character."

This statement made from a man of Dr. Flint's standing should convince any one of the folly of trying to cure diseases of the digestive organs by the ordinary dyspepsia tablets and powders. Mi-o-na gives quick relief and makes permanent cures. The best evidence that can be offered as to its superiority and its power to cure is the fact that Will Reed will return your money if Mi-o-na does not help you.

CIRCUS DREW

TWO BIG CROWDS

PERFORMANCE ORIGINAL AND STRIKING IN MANY RESPECTS.

Novel Features as Well as Time-Honored Ones Pleased Large Audiences.

The Walter L. Main show has come and gone. Two big audiences greeted its appearance at the West End park yesterday afternoon and evening, and the majority of those who attended were well satisfied with the character of the performances.

The show is a clean one and contains much that is first-class. All the animals, the horses particularly, appeared in excellent condition, intelligent and well trained. The menagerie feature, though not extensive, embraces excellent specimens of beasts both wild and tame, and the ring performances were of an attractive sort. With many of the familiar circus features retained, there was upon the program much that was strikingly new. The equine pyramid and the performances leading up to it, the pony riding poised upon the back of two horses, the slack wire acts, the bicycle riding, the acrobats, the clowns, the riders, the aerial feats and the numerous comic features were of more than average excellence.

The feature on which the management especially prides itself, "Savage South Africa," contains many realistic and thrilling scenes and depicts in excellent style some of the struggles that have taken place in recent years in the Boer country and Matabeleland. The artillery drill and the elephants in warfare were especially good. It takes an immense force of men and animals to represent these scenes and they certainly furnish a novel and interesting show feature.

Excellent order was maintained and the entertainment as a whole was free from objectionable features.

Caution.

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boscho's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25c size has just been introduced this year. Regular size, 75c. At all druggists. 2

KILLED WHILE TESTING ENGINE.

Boiler Explosion Results in Death of One and Injury of Eight Others.

Newark, O., April 30.—Reinhard Scheidler, one of Newark's foremost manufacturers and citizens, vice president of the Newark Savings bank and former owner of the Newark and Granville Electric railway, was killed and eight others were injured by a boiler explosion at the Scheidler machine shops.

The injured are: Bert Vial, badly scalded; James Cain, head injured; James Matchin, machinist, bruised; August Hess, left arm crushed; William Jennings, badly bruised; Emmet Siegel, head injured; Mr. Exar and his son, both of Barnesville, O., cut and bruised. All the injured are expected to recover.

Mr. Scheidler and four employees were testing an engine when the boiler exploded. Mr. Scheidler's skull was crushed, causing almost instant death. No one is able to account for the explosion, as the boiler appeared to be in good condition and was to have been shipped today.

FATAL WRECK ON THE VANDALIA

Three Persons Killed, Two Fatally and a Dozen Seriously Injured.

Terre Haute, Ind., April 30.—Three persons were killed, two fatally and a dozen seriously injured in a wreck in the railroad yards. A westbound Vandalia passenger train struck a switch engine and two cars near the Highland steel mill.

The killed: Clarence Reinhart, Columbus, O.; Nicholas A. Lutz, Sagamore, unidentified man.

Attached to the train was a special carrying a party of 27 people from Philadelphia to the national Y. M. C. A. convention at Topeka, Kan. Another car carried the New Jersey delegation to the Louisiana Purchase exposition dedication. None of the members of either party was injured. The killed and injured were in the day coach.

Of Interest to Every One in East Liverpool.

In every newspaper in the country you will read statements made by people living in out-of-the-way places, who are supposed to have been cured or derived great benefit from some wonderful remedy or "cure-all." But here in East Liverpool we only publish statements made by East Liverpool people. The testimony of your friends, neighbors and fellow-townsmen.

Mrs. Mount, of 165 Fourth street, says: "If weakness across the loins and sharp pains in the back are any indication of kidney complaint, then I had it. I knew what caused the trouble. But how to check it was a mystery until my husband procured Doan's Kidney Pills at the W. & W. Pharmacy for himself. The result in his case was so satisfactory that I used two or three boxes. They cured me. At least up to the present date there has been no symptoms of a recurrence."

For sale by all dealers. Price 50c per box. Foster-Milburn company, of Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no other.

Forger Gets Severe Sentence.

Chambersburg, April 30.—Howard F. Noble, ex-burgess of this place and former Democratic county chairman, who pleaded guilty to nine indictments charging forgery, involving \$10,690, was sentenced to pay a fine of \$100 on each indictment, undergo an imprisonment of eight years in the eastern penitentiary and to make full restitution in each case.

Reporter Was Not Discharged.

Denver, April 30.—The Post denies the statement from the war department to the effect that the reporter whose interview with General Baldwin was the subject of an investigation had been discharged from the paper and says that no such action is contemplated. The reporter has made an affidavit that he quoted General Baldwin correctly.

measured by the amount of nutritive value it contains, is the fresh soda cracker. Many people think a cracker an insignificant and easy thing to make—yet no one ever succeeded in reaching perfection until Uneeda Biscuit were introduced. To maintain the quality of Uneeda Biscuit requires the best of everything—wheat, flour, baker, and bakery.

Uneeda Biscuit furnishes every element necessary to bodily vigor; and, above all, they are fresh and clean. This is due to the In-er-seal Package—identified by the famous red and white trade mark design—which protects them from the air, moisture, dust and other things not best to mention. There's a world of worry, work, skill and care in making a soda cracker like—

GROWING IN INTEREST

Special Meetings of the Second Christian Church Are Largely Attended.

Another large congregation greeted Rev. C. A. Kleeberger, state evangelist for the Christian church, when he preached last evening in Larkins' hall. Rev. Mr. Kleeberger delivered a scholarly and eloquent address and aroused considerable religious feeling among those present.

The meetings are growing in interest and the meeting place is much too small to accommodate all who would like to attend. There have been several conversions, and a number of accessions to the church. The meetings will continue every night this week and until further announcement is made.

YOUNG PEOPLE WED

Miss Edith Sinclair And William Wright Unite Fortunes for Life.

Miss Edith Sinclair and William Wright were married last night at 9 o'clock by Rev. G. W. Orcutt, of the Erie street M. E. church. The ceremony was performed at the parsonage in the presence of only the immediate friends of the contracting parties.

The bride is a popular and highly esteemed young lady and has been employed in the decorating department at the Laughlin No. 2 plant. The groom is an employee of this plant and is an industrious and enterprising young man. Their many friends are extending hearty congratulations.

Inspecting the Oil Field.

Ernest Smith left this morning for the Knoxvill oil field, where he will make an inspection of the land under lease to the Rock Run Oil & Gas company, composed of East End people. The company has not yet received its charter, but it is expected at any time. The territory will be developed as soon as an organization can be effected, and the stockholders are confident of striking it rich.

Many Saw the Show.

The East End has already recovered from the effects of the circus and business is going on as though it had not been interrupted. Yesterday was a veritable holiday for both young and old, and nearly everybody went to see the big show. Business of all kinds was practically suspended during the afternoon and the streets presented a deserted appearance.

Goes to California.

Mrs. Jennie Bryan has disposed of all of her property in the East End, consisting of two dwellings and a large quantity of household furnishings and will leave in a few days for Los Angeles, Cal., where she will make her home.

A Pleasant Party.

Miss Margaret White, of Ohio avenue, was the hostess last evening to quite a number of her young friends. The moments were pleasantly whiled away with innocent games and music and tempting refreshments were served.

Will Entertain Tonight.

Miss Myrtle and Edna White will entertain quite a number of their young friends with a party tonight at the home of Mr. and Mrs. Archie Searight, of Pennsylvania avenue.

EAST END AFFAIRS.

Mr. and Mrs. Frank Chambers were visitors to Pittsburg today.

Miss Ella Guy, of First avenue, is seriously ill with pneumonia.

Warren Horger, of First avenue, is recovering from a severe attack of the grip.

Robert Larkins, the popular young grocer, has purchased a fine new horse for his delivery wagon.

Floyd Reynolds, of Erie street, who has been seriously ill with catarrhal fever, is slightly improved today.

Don't fool with a cold; no one can tell what the end may be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from neglected colds. Nothing can be compared with Chamberlain's Cough Remedy as a quick cure for colds and influenza, and by its use these diseases may be avoided. For sale by Alvin H. Bulger.

STRONG EVIDENCE OF FAITH

Will Reed Guarantees That Hyomei Will Cure the Worst Cases of Catarrh in East Liverpool.

When one of the most reputable concerns in East Liverpool guarantees that a medicine will effect a cure or he will return the money, it speaks volumes as to the merits of the remedy. It is in this way that Will Reed is selling Hyomei, the treatment that has made the many remarkable cures of both acute and chronic cases of catarrh in East Liverpool and vicinity.

Hyomei is not a pill nor is it a liquid that has to be taken with a tablespoon or wine glass. Just breathe it in by the aid of an inhaler that comes in every outfit and benefit will be seen from the first treatment.

It destroys all germ life in the passages and lungs and enriches and purifies the blood with additional ozone. It cures catarrh of the head and throat, or of the stomach, liver and kidneys. Wherever mucous membrane contains catarrhal germs, there Hyomei will do its work of healing. When using this treatment the air you breathe will be found like that on the mountain high above the sea level where grow balsamic trees and plants which made the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

Remember that if Hyomei does not cure you, Will Reed will refund your money. This is a good time to cure catarrh by this natural method and prevent catarrhal colds that are so common at this season.

COUNTY AND NEIGHBORHOOD

The G. A. R. of West Virginia is holding its annual encampment at Clarksburg.

Edward Gunn, a B. & O. brakeman, slipped from a shifting engine and had both feet cut off at Canton.

Twenty-seven cases of smallpox are now under quarantine in Massillon. Those afflicted are suffering with but a mild form of the disease.

Rev. Charles Dunlap, pastor of the Lutheran church at North Georgetown, has resigned to accept a charge at Muncie, Ind. He preached his farewell sermon Sunday.

The Youngstown Y. M. C. A.'s country club house in Mill Creek park, perched high upon the west bluff overlooking the Pioneer pavilion, will be thrown open for the season next week.

"Starved to death" was the verdict of physicians called to examine Robert Roberts, aged 50, whose remains were found in the rear of a hotel in Hubbard, where the family of the deceased resided. Roberts was formerly an iron worker.

A Prisoner in Her House.

Mrs. W. H. Layha, of 1001 Agnes avenue, Kansas City, Mo., has for several years been troubled with severe hoarseness and at times a hard cough, which she says, "Would keep me in doors for days. I was prescribed for by physicians with no noticeable results. A friend gave me a part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a decided change for the better, and at this time after using it for two weeks have no hesitation in saying I realize that I am entirely cured. From this time on Chamberlain's Cough Remedy will be my house constant."

MI-O-NA A GUARANTEED CURE

Folly of Treating Dyspepsia With Pepsin Tablets.

MI-ONA is entirely different from other treatments for dyspepsia. The fact that it is sold by Will Reed, the popular druggist, under his personal guarantee to refund the money if it does not cure dyspepsia and restore normal weight, shows that it possesses unusual merit.

MI-ONA is not an ordinary laxative pill; it is not a digestive tablet composed of pepsin or pancreatin; it is not a mere stimulant or tonic. MI-ONA is a compressed food tablet that furnishes the constituents necessary to build up the system; it aids the food to assimilate, and strengthens and regulates the digestive organs, enabling the body to gain in natural, healthy plumpness.

Austin Flint, M. D., professor of physiology in the Bellevue Hospital Medical college, New York city, one of the most eminent medical men in the country, says: "I have yet to see a single case in which any of the pepsins, pancreatins or the physiologically absurd combinations of pepsin and pancreatin seem to have produced any benefit, even of a temporary character."

This statement made from a man of Dr. Flint's standing should convince any one of the folly of trying to cure diseases of the digestive organs by the ordinary dyspepsia tablets and powders. MI-ONA gives quick relief and makes permanent cures. The best evidence that can be offered as to its superiority and its power to cure is the fact that Will Reed will return your money if MI-ONA does not help you.

CIRCUS DREW TWO BIG CROWDS

PERFORMANCE ORIGINAL AND STRIKING IN MANY RESPECTS.

Novel Features as Well as Time-Honored Ones Pleased Large Audiences.

The Walter L. Main show has come and gone. Two big audiences greeted its appearance at the West End park yesterday afternoon and evening, and the majority of those who attended were well satisfied with the character of the performances.

The show is a clean one and contains much that is first-class. All the animals, the horses particularly, appeared in excellent condition, intelligent and well trained. The menagerie feature, though not extensive, embraces excellent specimens of beasts both wild and tame, and the ring performances were of an attractive sort. With many of the familiar circus features retained, there was upon the program much that was strikingly new. The equine pyramid and the performances leading up to it, the pony riding poised upon the back of two horses, the slack wire acts, the bicycle riding, the acrobats, the clowns, the riders, the aerial feats and the numerous comic features were of more than average excellence.

The feature on which the management especially prides itself, "Savage South Africa," contains many realistic and thrilling scenes and depicts in excellent style some of the struggles that have taken place in recent years in the Boer country and Matabeleland. The artillery drill and the elephants in warfare were especially good. It takes an immense force of men and animals to represent these scenes and they certainly furnish a novel and interesting show feature.

Excellent order was maintained and the entertainment as a whole was free from objectionable features.

Caution.

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25c size has just been introduced this year. Regular size, 75c. At all druggists. 2

KILLED WHILE TESTING ENGINE.

Boiler Explosion Results in Death of One and Injury of Eight Others.

Newark, O., April 30.—Reinhardt Scheidler, one of Newark's foremost manufacturers and citizens, vice president of the Newark Savings bank and former owner of the Newark and Granville Electric railway, was killed and eight others were injured by a boiler explosion at the Scheidler machine shops.

The injured are: Bert Vial, badly scalded; James Cain, head injured; James Matchim, machinist, bruised; August Hess, left arm crushed; William Jennings, badly bruised; Emmet Siegel, head injured; Mr. Egar and his son, both of Barnesville, O., cut and bruised. All the injured are expected to recover.

Mr. Scheidler and four employees were testing an engine when the boiler exploded. Mr. Scheidler's skull was crushed, causing almost instant death. No one is able to account for the explosion, as the boiler appeared to be in good condition and was to have been shipped today.

FATAL WRECK ON THE VANDALIA

Three Persons Killed, Two Fatally and a Dozen Seriously Injured.

Terre Haute, Ind., April 30.—Three persons were killed, two fatally and a dozen seriously injured in a wreck in the railroad yards. A westbound Vandalia passenger train struck a switch engine and two cars near the Highland steel mill.

The killed: Clarence Reinhart, Columbus, O.; Nicholas A. Lutz, baggage master; unidentified man.

Attached to the train was a special carrying a party of 27 people from Philadelphia to the national Y. M. C. A. convention at Topeka, Kan. Another car carried the New Jersey delegation to the Louisiana Purchase exposition dedication. None of the members of either party was injured. The killed and injured were in the day coach.

STRONG EVIDENCE OF FAITH

Will Reed Guarantees That Hyomei Will Cure the Worst Cases of Catarrh in East Liverpool.

When one of the most reputable concerns in East Liverpool guarantees that a medicine will effect a cure or he will return the money, it speaks volumes as to the merits of the remedy. It is in this way that Will Reed is selling Hyomei, the treatment that has made the many remarkable cures of both acute and chronic cases of catarrh in East Liverpool and vicinity.

Hyomei is not a pill nor is it a liquid that has to be taken with a tablespoon or wine glass. Just breathe it in by the aid of an inhaler that comes in every outfit and benefit will be seen from the first treatment.

It destroys all germ life in the passages and lungs and enriches and purifies the blood with additional ozone. It cures catarrh of the head and throat, or of the stomach, liver and kidneys. Wherever mucous membrane contains catarrhal germs, there Hyomei will do its work of healing. When using this treatment the air you breathe will be found like that on the mountain high above the sea level where grow balsamic trees and plants which made the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

Remember that if Hyomei does not cure you, Will Reed will refund your money. This is a good time to cure catarrh by this natural method and prevent catarrhal colds that are so common at this season.

COUNTY AND NEIGHBORHOOD

The G. A. R. of West Virginia is holding its annual encampment at Clarksburg.

Edward Gunn, a B. & O. brakeman, slipped from a shifting engine and had both feet cut off at Canton.

Willis Little, a newsboy, about 13 years of age, was probably fatally injured by being run down by a passenger train.

Twenty-seven cases of smallpox are now under quarantine in Massillon. Those afflicted are suffering with but a mild form of the disease.

Rev. Charles Dunlap, pastor of the Lutheran church at North Georgetown, has resigned to accept a charge at Muncie, Ind. He preached his farewell sermon Sunday.

The Youngstown Y. M. C. A.'s country club house in Mill Creek park, perched high upon the west bluff overlooking the Pioneer pavilion, will be thrown open for the season next week. "Starved to death" was the verdict of physicians called to examine Robert Roberts, aged 50, whose remains were found in the rear of a hotel in Hubbard, where the family of the deceased resided. Roberts was formerly an iron worker.

A Prisoner in Her House.

Mrs. W. H. Layha, of 1001 Agnes avenue, Kansas City, Mo., has for several years been troubled with severe hoarseness and at times a hard cough, which she says, "Would keep me in doors for days. I was prescribed for by physicians with no noticeable results. A friend gave me a part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to say, that after the first day I could notice a decided change for the better, and at this time after using it for two weeks have no hesitation in saying I realize that I am entirely cured. From this time on Chamberlain's Cough Remedy will be in my house constantly."

MI-O-NA A GUARANTEED CURE

Folly of Treating Dyspepsia With Pepsin Tablets.

Mi-o-na is entirely different from other treatments for dyspepsia. The fact that it is sold by Will Reed, the popular druggist, under his personal guarantee to refund the money if it does not cure dyspepsia and restore normal weight, shows that it possesses unusual merit.

Mi-o-na is not an ordinary laxative pill; it is not a digestive tablet composed of pepsin or pancreatin; it is not a mere stimulant or tonic. Mi-o-na is a compressed food tablet that furnishes the constituents necessary to build up the system; it aids the food to assimilate, and strengthens and regulates the digestive organs, enabling the body to gain in natural, healthy plumpness.

Austin Flint, M. D., professor of physiology in the Bellevue Hospital Medical college, New York city, one of the most eminent medical men in the country, says: "I have yet to see a single case in which any of the pepsins, pancreatins or the physiologically absurd combinations of pepsin and pancreatin seem to have produced any benefit, even of a temporary character."

This statement made from a man of Dr. Flint's standing should convince any one of the folly of trying to cure diseases of the digestive organs by the ordinary dyspepsia tablets and powders. Mi-o-na gives quick relief and makes permanent cures. The best evidence that can be offered as to its superiority and its power to cure is the fact that Will Reed will return your money if Mi-o-na does not help you.

CIRCUS DREW

TWO BIG CROWDS

PERFORMANCE ORIGINAL AND STRIKING IN MANY RESPECTS.

Novel Features as Well as Time-Honored Ones Pleased Large Audiences.

The Walter L. Main show has come and gone. Two big audiences greeted its appearance at the West End park yesterday afternoon and evening, and the majority of those who attended were well satisfied with the character of the performances.

The show is a clean one and contains much that is first-class. All the animals, the horses particularly, appeared in excellent condition, intelligent and well trained. The menagerie feature, though not extensive, embraces excellent specimens of beasts both wild and tame, and the ring performances were of an attractive sort. With many of the familiar circus features retained, there was upon the program much that was strikingly new. The equine pyramid and the performances leading up to it, the pony riding poised upon the back of two horses, the slack wire acts, the bicycle riding, the acrobats, the clowns, the riders, the aerial feats and the numerous comic features were of more than average excellence.

The feature on which the management especially prides itself, "Savage South Africa," contains many realistic and thrilling scenes and depicts in excellent style some of the struggles that have taken place in recent years in the Boer country and Matabeleland. The artillery drill and the elephants in warfare were especially good. It takes an immense force of men and animals to represent these scenes and they certainly furnish a novel and interesting show feature.

Excellent order was maintained and the entertainment as a whole was free from objectionable features.

Caution.

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boscho's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25c size has just been introduced this year. Regular size, 75c. At all druggists. 2

KILLED WHILE TESTING ENGINE.

Boiler Explosion Results in Death of One and Injury of Eight Others.

Newark, O., April 30.—Reinhardt Scheidler, one of Newark's foremost manufacturers and citizens, vice president of the Newark Savings bank and former owner of the Newark and Granville Electric railway, was killed and eight others were injured by a boiler explosion at the Scheidler machine shops.

The injured are: Bert Vial, badly scalded; James Cain, head injured; James Matchim, machinist, bruised; August Hess, left arm crushed; William Jennings, badly bruised; Emmet Siegel, head injured; Mr. Edgar and his son, both of Barnesville, O., cut and bruised. All the injured are expected to recover.

Mr. Scheidler and four employees were testing an engine when the boiler exploded. Mr. Scheidler's skull was crushed, causing almost instant death. No one is able to account for the explosion, as the boiler appeared to be in good condition and was to have been shipped today.

FATAL WRECK ON THE VANDALIA

Three Persons Killed, Two Fatally and a Dozen Seriously Injured.

Terre Haute, Ind., April 30.—Three persons were killed, two fatally and a dozen seriously injured in a wreck in the railroad yards. A westbound Vandalia passenger train struck a switch engine and two cars near the Highland steel mill.

The killed: Clarence Reinhart, Columbus, O.; Nicholas A. Lutz, baggage master; unidentified man.

Attached to the train was a special carrying a party of 27 people from Philadelphia to the national Y. M. C. A. convention at Topeka, Kan. Another car carried the New Jersey delegation to the Louisiana Purchase exposition dedication. None of the members of either party was injured. The killed and injured were in the day coach.

HOME NEWS

Of Interest to Every One in East Liverpool.

In every newspaper in the country you will read statements made by people living in out-of-the-way places, who are supposed to have been cured or derived great benefit from some wonderful remedy or "cure-all." But here in East Liverpool we only publish statements made by East Liverpool people. The testimony of your friends, neighbors and fellow-townsmen.

Mrs. Mount, of 165 Fourth street, says: "If weakness across the loins and sharp pains in the back are any indication of kidney complaint, then I had it. I knew what caused the trouble. But how to check it was a mystery until my husband procured Doan's Kidney Pills at the W. & W. Pharmacy for himself. The result in his case was so satisfactory that I used two or three boxes. They cured me. At least up to the present date there has been no symptoms of a recurrence."

For sale by all dealers. Price 50c per box. Foster-Milburn company, of Buffalo, N. Y., sole agents for the United States.

The contest started Saturday, March 14, and will close July 31, 6 p. m. The time for starting on the trips will be arranged as soon as possible thereafter.

The Biggest Little Thing

measured by the amount of nutritive value it contains, is the fresh soda cracker. Many people think a cracker an insignificant and easy thing to make—yet no one ever succeeded in reaching perfection until **Uneeda Biscuit** were introduced. To maintain the quality of **Uneeda Biscuit** requires the best of everything—wheat, flour, baker, and bakery.

Uneeda Biscuit furnishes every element necessary to bodily vigor; and, above all, they are fresh and clean. This is due to the **In-er-seal Package**—identified by the famous red and white trade mark design—which protects them from the air, moisture, dust and other things not best to mention. There's a world of worry, work, skill and care in making a soda cracker like—

O. P. Austin, chief of the bureau of statistics, who is certainly in a position to know whereof he affirms, says: "I have been studying the statistics of our commerce for 20 years, and I have never known the time in which they indicated greater prosperity, greater activity in agriculture and manufacturing or in any of the producing industries of the country, than at present. There is nothing in sight at the present time, at home or abroad, which in my judgment would warrant even the most pessimistic in anticipating adverse conditions in our domestic or foreign trade." Mr. Austin undoubtedly states facts and facts only. Under these conditions, those who are disposed to urge a renewal of tariff agitation and tariff revision would serve themselves and their country best by going exceedingly slow.

Kittanning, Pa., is not a large town and not especially noted for enterprise. But the town now has an executive who proposes to lose no chances to add to municipal revenues. Burgess Clarke says that every person found guilty of using profane language in Kittanning will be fined \$5 for each offense. If he lives up to this platform for a few years Kittanning will soon be rich enough to pave her streets with gold. East Liverpool might derive a large revenue from a strict enforcement of the law in the same respect, and many persons whose ears are constantly greeted by vile language at every street corner and in every public place would applaud vigorously.

There is not enough difference between the terms desired by the East Liverpool contractors and those demanded by the carpenters so that they

ought to hold apart an hour longer. It is for the good of the city and for its growth that the dispute be settled, and it is sincerely to be hoped that arrangements can be effected whereby the little cloud on the labor horizon will disappear soon, to be seen no more.

This city is escaping the blizzard and snow storms, which are reported in the vicinity of Duluth, but is getting storms of quite as disagreeable a character in the shape of blinding clouds and moving whirlwinds of dust. It is certainly time that the street sprinkler be withdrawn from winter quarters and put in active operation.

Certain western Republicans have resolved that the presidential ticket for 1904 shall be Roosevelt and Hanna. They have probably done this without consulting Uncle Mark. If he will not consent to stick, however, there is no need of going out of Ohio to find plenty of good Republicans who will.

It is said that Ohio Republicans at the coming state convention will declare in unmistakable terms for Roosevelt. His administration will be endorsed and his nomination next year demanded. They will voice Republican popular sentiment, if they do.

The fair buildings at St. Louis are to be dedicated today. The great exposition bids fair to be even better entitled to the name, World's fair, by which it will be popularly known, than the great show held at Chicago in 1893.

Salem is to have a big Fourth of July celebration and so is Wellsville. Is the chief city of the county going to allow them to monopolize public attention on the great national holiday?

Newport wants to shut out the circus. The Four Hundred feel that they should be allowed to put on their celebrated dog and monkey show without running up against a counter-attraction.

Some of our Kansas contemporaries, finding it impossible to get along without worrying about something, are expressing an anxious fear that this year's wheat crop is going to be too big to harvest.

If the rest of the world outside of Russia gets an open door to Manchuria it will be because Secretary Hay drove the entering wedge.

The question now arises, What would have become of the Earl of Yar-mouth had he not secured a rich wife just when he did?

There were no mortgages foreclosed in Kansas last year, and Populist oratory is no longer heard from that quarter.

OBITUARY

Joseph Brown.

Joseph Brown, aged 75 years, died yesterday afternoon at his home near Madison church. He had been ill several weeks of gastric fever, which resulted in his death. The funeral services will be held tomorrow afternoon at 1 o'clock and the interment will be made in the Madison church cemetery. Mr. Brown was one of the best known residents of this section. He spent most of the years of his life on the farm where he died, inheriting it from his father, who was one of the old residents of this section. He was a man of exemplary habits, sterling honesty and a consistent member of the Madison Presbyterian church. He is survived by a wife and one daughter, Mrs. J. L. Moore.

AT THE THEATER

The first Shakespearean play of the season will soon be seen at the Grand. There seems to be a general interest in Shakespeare this season. Several spring revivals of his popular plays have been arranged. The more pretentious of the list is Ernest Shipman's tour of 30 performances in which Albert Gallatin and her very efficient company of Shakespearean players will be seen in the enchanting comedy "As You Like It." Miss Gallatin is acknowledged to be the sweetest of the latter day Rosalinds. The scenic embellishments are said to be magnificent and the names of the supporting cast are too well known to need comment, nearly all having previously starred in different productions.

Special announcement: "My Friend From India" will be seen at the Grand next Tuesday evening. This play needs no introduction to the theatergoers of this city. All lovers of fine comedy will miss the treat of the season if they do not see "My Friend From India." This play comes to the Grand complete in every detail, as was seen in its run of over 300 nights in New York. Remember the date, May 5.

Within the next week the much talked of and much written about "Resurrection," Count Tolstol's latest masterpiece, will have received its first production in this city at the Grand. It is rare indeed that such great interest has centered around any dramatic presentation, as has been evinced in every city where the play has been produced.

Complaint of William R. Hearst Against Anthracite Coal Carrying Railroads Before Interstate Commerce Commission.

New York, April 30.—The interstate commerce commission resumed its investigation into the complaint of William R. Hearst against the anthracite coal carrying railroads. John Edmonds, sales agent in New York for the Reading Coal and Iron company, testified that the company sold about 1,000,000 tons of coal a year, payment for which was always made to the finance company. He could not tell the average cost of selling the coal in this city.

President Baer, of the Philadelphia and Reading railway, was again called to the witness stand. He could not tell how much of the coal mined along the railroad he controlled was not purchased by him.

Ex-Governor Budd, of California was introduced as associate with Mr. Hearst's counsel.

Mr. Baer estimated that 8,500,000 tons of coal is carried annually by the Reading system. J. P. Morgan, he said, was not one of the men interested in the Simpson and Watkins project to establish a big sales depot for anthracite coal. He declined to disclose the names of those who were interested. Mr. Baer said he promoted the plan to purchase the Temple Iron company and that six railroads were interested. He suggested the percentage of the different companies and their directors accepted it. The plan, he said, was not so broad as to make the Temple Iron company the sales agent of the six companies in New York, but was intended to get rid of the commission men.

Plan to Get Rid of Commission.

His idea, Mr. Baer said, was not to maintain a uniform price for coal at tidewater, but to get rid of the commission of 10 cents a ton for selling coal. He had reduced the expense of selling.

"But you have not succeeded in reducing the price of coal to the consumer?" asked counsel.

"No," replied Mr. Baer, "because you and your friends have succeeded in raising wages and getting up the cost of necessities so that profits are less."

Asked if the Temple Iron company raised a fund of \$15,000,000 to buy more collieries, he said it was not for the purpose of buying more collieries. He was opposed to loading up with more collieries.

He refused to answer a question whether the Temple Iron company has paid the Philadelphia and Reading company 12½ cents a ton for all coal shipped by it since April 10, 1899.

The capital stock of the Temple Iron company, Mr. Baer said, was deposited with the Guarantee Trust company, of New York, under a voting agreement, and they issued certificates which were held by 300 or 400 different persons. The directors of the Temple company control the different collieries in the Temple system. At their meetings, he said, there was never any discussion about the price and output of coal.

No Pool or Combination.

"I do say most emphatically," he went on, "there has been no pool and no combination to regulate the price or output of coal between the railroad presidents since I have been president of the Reading system."

Mr. Shearn read to the witness a part of the testimony he gave the investigating committee after the strike of 1900, when he explained that the 65-35 per cent agreement between the railroads and the local companies was the result of Senator Hanna—that a continuance of the strike meant danger to the McKinley-Roosevelt presidential ticket. President Baer said it was true.

The price of coal sold by the Philadelphia and Reading company, he said, was fixed after a general consultation with the general coal agents and sales agents. The other companies pursued a like course. He added:

"I thought we were the strongest people and I fixed the price and compelled the other dealers to do the same. They accused me of being arbitrary, and I admit that perhaps it was arbitrary, but I felt that it was necessary. After the strike several of the companies complained they could get a better price than I had fixed for the Reading company's coal. They asked me to raise the price, but I refused, and they had to come down to our price."

Hawaiian Legislature Eended. Honolulu, April 30.—The regular session of the Hawaiian legislature has ended. Eighty-eight acts passed by the legislature received Governor Dole's signature. The bill providing a city government for Honolulu was vetoed. The bill dividing the islands into counties was approved. Under the provisions of this act the islands are to be divided into five counties. There will be a special session of the legislature to pass the appropriation bill.

O. P. Austin, chief of the bureau of statistics, who is certainly in a position to know whereof he affirms, says: "I have been studying the statistics of our commerce for 20 years, and I have never known the time in which they indicated greater prosperity, greater activity in agriculture and manufacturing or in any of the producing industries of the country, than at present. There is nothing in sight at the present time, at home or abroad, which in my judgment would warrant even the most pessimistic in anticipating adverse conditions in our domestic or foreign trade." Mr. Austin undoubtedly states facts and facts only. Under these conditions, those who are disposed to urge a renewal of tariff agitation and tariff revision would serve themselves and their country best by going exceedingly slow.

Kittanning, Pa., is not a large town and not especially noted for enterprise. But the town now has an executive who proposes to lose no chances to add to municipal revenues. Burgess Clarke says that every person found guilty of using profane language in Kittanning will be fined \$5 for each offense. If he lives up to this platform for a few years Kittanning will soon be rich enough to pave her streets with gold. East Liverpool might derive a large revenue from a strict enforcement of the law in the same respect, and many persons whose ears are constantly greeted by vile language at every street corner and in every public place would applaud vigorously.

There is not enough difference between the terms desired by the East Liverpool contractors and those demanded by the carpenters so that they

ought to hold apart an hour longer. It is for the good of the city and for its growth that the dispute be settled, and it is sincerely to be hoped that arrangements can be effected whereby the little cloud on the labor horizon will disappear soon, to be seen no more.

This city is escaping the blizzard and snow storms, which are reported in the vicinity of Duluth, but is getting storms of quite as disagreeable a character in the shape of blinding clouds and moving whirlwinds of dust. It is certainly time that the street sprinkler be withdrawn from winter quarters and put in active operation.

Certain western Republicans have resolved that the presidential ticket for 1904 shall be Roosevelt and Hanna. They have probably done this without consulting Uncle Mark. If he will not consent to stick, however, there is no need of going out of Ohio to find plenty of good Republicans who will.

It is said that Ohio Republicans at the coming state convention will declare in unmistakable terms for Roosevelt. His administration will be endorsed and his nomination next year demanded. They will voice Republican popular sentiment, if they do.

The fair buildings at St. Louis are to be dedicated today. The great exposition bids fair to be even better entitled to the name, World's fair, by which it will be popularly known, than the great show held at Chicago in 1893.

Salem is to have a big Fourth of July celebration and so is Wellsville. Is the chief city of the county going to allow them to monopolize public attention on the great national holiday?

Newport wants to shut out the circus. The Four Hundred feel that they should be allowed to put on their celebrated dog and monkey show without running up against a counter-attraction.

Some of our Kansas contemporaries, finding it impossible to get along without worrying about something, are expressing an anxious fear that this year's wheat crop is going to be too big to harvest.

If the rest of the world outside of Russia gets an open door to Manchuria it will be because Secretary Hay drove the entering wedge.

The question now arises, What would have become of the Earl of Yarmouth had he not secured a rich wife just when he did?

There were no mortgages foreclosed in Kansas last year, and Populist oratory is no longer heard from that quarter.

Joseph Brown.

Joseph Brown, aged 75 years, died yesterday afternoon at his home near Madison church. He had been ill several weeks of gastric fever, which resulted in his death. The funeral services will be held tomorrow afternoon at 1 o'clock and the interment will be made in the Madison church cemetery. Mr. Brown was one of the best known residents of this section. He spent most of the years of his life on the farm where he died, inheriting it from his father, who was one of the old residents of this section. He was a man of exemplary habits, sterling honesty and a consistent member of the Madison Presbyterian church. He is survived by a wife and one daughter, Mrs. J. L. Moore.

AT THE THEATER

The first Shakespearean play of the season will soon be seen at the Grand. There seems to be a general interest in Shakespeare this season. Several spring revivals of his popular plays have been arranged. The more pretensions of the list is Ernest Shipman's tour of 30 performances in which Alberta Gallatin and her very efficient company of Shakespearean players will be seen in the enchanting comedy "As You Like It." Miss Gallatin is acknowledged to be the sweetest of the latter day Rosalinds. The scenic embellishments are said to be magnificent and the names of the supporting cast are too well known to need comment, nearly all having previously starred in different productions.

Special announcement: "My Friend From India" will be seen at the Grand next Tuesday evening. This play needs no introduction to the theatergoers of this city. All lovers of fine comedy will miss the treat of the season if they do not see "My Friend From India." This play comes to the Grand complete in every detail, as was seen in its run of over 300 nights in New York. Remember the date, May 5.

Within the next week the much talked of and much written about "Resurrection" Count Tolstol's latest masterpiece, will have received its first production in this city at the Grand. It is rare indeed that such great interest has centered around any dramatic presentation, as has been evinced in every city where the play has been produced.

O. P. Austin, chief of the bureau of statistics, who is certainly in a position to know whereof he affirms, says: "I have been studying the statistics of our commerce for 20 years, and I have never known the time in which they indicated greater prosperity, greater activity in agriculture and manufacturing or in any of the producing industries of the country, than at present. There is nothing in sight at the present time, at home or abroad, which in my judgment would warrant even the most pessimistic in anticipating adverse conditions in our domestic or foreign trade." Mr. Austin undoubtedly states facts and facts only. Under these conditions, those who are disposed to urge a renewal of tariff agitation and tariff revision would serve themselves and their country best by going exceedingly slow.

Kittanning, Pa., is not a large town and not especially noted for enterprise. But the town now has an executive who proposes to lose no chances to add to municipal revenues. Burgess Clarke says that every person found guilty of using profane language in Kittanning will be fined \$5 for each offense. If he lives up to this platform for a few years Kittanning will soon be rich enough to pave her streets with gold. East Liverpool might derive a large revenue from a strict enforcement of the law in the same respect, and many persons whose ears are constantly greeted by vile language at every street corner and in every public place would applaud vigorously.

There is not enough difference between the terms desired by the East Liverpool contractors and those demanded by the carpenters so that they

ought to hold apart an hour longer. It is for the good of the city and for its growth that the dispute be settled, and it is sincerely to be hoped that arrangements can be effected whereby the little cloud on the labor horizon will disappear soon, to be seen no more.

This city is escaping the blizzard and snow storms, which are reported in the vicinity of Duluth, but is getting storms of quite as disagreeable a character in the shape of blinding clouds and moving whirlwinds of dust. It is certainly time that the street sprinkler be withdrawn from winter quarters and put in active operation.

Certain western Republicans have resolved that the presidential ticket for 1904 shall be Roosevelt and Hanna. They have probably done this without consulting Uncle Mark. If he will not consent to stick, however, there is no need of going out of Ohio to find plenty of good Republicans who will.

It is said that Ohio Republicans at the coming state convention will declare in unmistakable terms for Roosevelt. His administration will be endorsed and his nomination next year demanded. They will voice Republican popular sentiment, if they do.

The fair buildings at St. Louis are to be dedicated today. The great exposition bids fair to be even better entitled to the name, World's fair, by which it will be popularly known, than the great show held at Chicago in 1893.

Salem is to have a big Fourth of July celebration and so is Wellsville. Is the chief city of the county going to allow them to monopolize public attention on the great national holiday?

Newport wants to shut out the circus. The Four Hundred feel that they should be allowed to put on their celebrated dog and monkey show without running up against a counter-attraction.

Some of our Kansas contemporaries, finding it impossible to get along without worrying about something, are expressing an anxious fear that this year's wheat crop is going to be too big to harvest.

If the rest of the world outside of Russia gets an open door to Manchuria it will be because Secretary Hay drove the entering wedge.

The question now arises, What would have become of the Earl of Yarmouth had he not secured a rich wife just when he did?

There were no mortgages foreclosed in Kansas last year, and Populist oratory is no longer heard from that quarter.

OBITUARY

Joseph Brown.
Joseph Brown, aged 75 years, died yesterday afternoon at his home near Madison church. He had been ill several weeks of gastric fever, which resulted in his death. The funeral services will be held tomorrow afternoon at 1 o'clock and the interment will be made in the Madison church cemetery. Mr. Brown was one of the best known residents of this section. He spent most of the years of his life on the farm where he died, inheriting it from his father, who was one of the old residents of this section. He was a man of exemplary habits, sterling honesty and a consistent member of the Madison Presbyterian church. He is survived by a wife and one daughter, Mrs. J. L. Moore.

AT THE THEATER

The first Shakespearian play of the season will soon be seen at the Grand. There seems to be a general interest in Shakespeare this season. Several spring revivals of his popular plays have been arranged. The more pretentious of the list is Ernest Shipman's tour of 30 performances in which Alberta Gallatin and her very efficient company of Shakespearian players will be seen in the enchanting comedy "As You Like It." Miss Gallatin is acknowledged to be the sweetest of the latter day Rosalinds. The scenic embellishments are said to be magnificent and the names of the supporting cast are too well known to need comment, nearly all having previously starred in different productions.

Special announcement: "My Friend From India" will be seen at the Grand next Tuesday evening. This play needs no introduction to the theatergoers of this city. All lovers of fine comedy will miss the treat of the season if they do not see "My Friend From India." This play comes to the Grand complete in every detail, as was seen in its run of over 300 nights in New York. Remember the date, May 5.

Within the next week the much talked of and much written about "Resurrection," Count Tolstol's latest masterpiece, will have received its first production in this city at the Grand. It is rare indeed that such great interest has centered around any dramatic presentation, as has been evinced in every city where the play has been produced.

NO POOL OR COMBINE

To Regulate Price or Output of Coal, Says President Baer.

INVESTIGATION IS CONTINUED

Complaint of William R. Hearst Against Anthracite Coal Carrying Railroads Before Interstate Commerce Commission.

New York, April 30.—The interstate commerce commission resumed its investigation into the complaint of William R. Hearst against the anthracite coal carrying railroads. John Edmonds, sales agent in New York for the Reading Coal and Iron company, testified that the company sold about 1,000,000 tons of coal a year, payment for which was always made to the finance company. He could not tell the average cost of selling the coal in this city.

President Baer, of the Philadelphia and Reading railway, was again called to the witness stand. He could not tell how much of the coal mined along the railroad he controlled was not purchased by him.

Ex-Governor Budd, of California, was introduced as associate with Mr. Hearst's counsel.

Mr. Baer estimated that 8,500,000 tons of coal is carried annually by the Reading system. J. P. Morgan, he said, was not one of the men interested in the Simpson and Watkins project to establish a big sales depot for anthracite coal. He declined to disclose the names of those who were interested. Mr. Baer said he promoted the plan to purchase the Temple Iron company and that six railroads were interested. He suggested the percentage of the different companies and their directors accepted it. The plan, he said, was not so broad as to make the Temple Iron company the sales agent of the six companies in New York, but was intended to get rid of the commission men.

Plan to Get Rid of Commission.

His idea, Mr. Baer said, was not to maintain a uniform price for coal at tidewater, but to get rid of the commission of 10 cents a ton for selling coal. He had reduced the expense of selling.

"But you have not succeeded in reducing the price of coal to the consumer?" asked counsel.

"No," replied Mr. Baer, "because you and your friends have succeeded in raising wages and getting up the cost of necessities so that profits are less."

Asked if the Temple Iron company raised a fund of \$15,000,000 to buy more collieries, he said it was not for the purpose of buying more collieries. He was opposed to loading up with more collieries.

He refused to answer a question whether the Temple Iron company has paid the Philadelphia and Reading company 12½ cents a ton for all coal shipped by it since April 10, 1899.

The capital stock of the Temple Iron company, Mr. Baer said, was deposited with the Guarantee Trust company, of New York, under a voting agreement, and they issued certificates which were held by 300 or 400 different persons. The directors of the Temple company control the different collieries in the Temple system. At their meetings, he said, there was never any discussion about the price and output of coal.

No Pool or Combination.

"I do say most emphatically," he went on, "there has been no pool and no combination to regulate the price or output of coal between the railroad presidents since I have been president of the Reading system."

Mr. Shearn read to the witness a part of the testimony he gave the investigating committee after the strike of 1900, when he explained that the 65-35 per cent agreement between the railroads and the local companies was the result of Senator Hanna—that a continuance of the strike meant danger to the McKinley-Roosevelt presidential ticket. President Baer said it was true.

The price of coal sold by the Philadelphia and Reading company, he said, was fixed after a general consultation with the general coal agents and sales agents. The other companies pursued a like course. He added:

"I thought we were the strongest people and I fixed the price and compelled the other dealers to do the same. They accused me of being arbitrary, and I admit that perhaps it was arbitrary, but I felt that it was necessary. After the strike several of the companies complained they could get a better price than I had fixed for the Reading company's coal. They asked me to raise the price, but I refused, and they had to come down to our price."

Hawaiian Legislature Ended.

Honolulu, April 30.—The regular session of the Hawaiian legislature has ended. Eighty-eight acts passed by the legislature received Governor Dole's signature. The bill providing a city government for Honolulu was vetoed. The bill dividing the islands into counties was approved. Under the provisions of this act the islands are to be divided into five counties. There will be a special session of the legislature to pass the appropriation bill.

It has leaked out that drastic action was taken at the recent secret meeting of attorneys in this city opposed to both Judges Birket and Summers for the supreme bench. An organization was effected for the purpose of carrying the fight against both men into each county and to the state bar association. The object is to secure fair and impartial judges on the supreme bench. After much discussion it was decided not to endorse any candidate.

FRIENDS AND VISITORS

Capt. Harry Palmer, formerly of this city, writes to a friend that he is prospering in the real estate business at Long Beach, Cal.

Tall Blount, of East Liverpool, called on Alliance friends Tuesday evening. His sister in Deerfield, who is quite ill, is somewhat improved.

Miss Bird Smith, who lives north of the city and teaches the Alderliek school, had both her arms broken by being thrown from a buggy in a runaway accident.

Charles W. Meakin, who was here in advance of the "Tyranny of Tears" production in which Paul Gilmore is starring, was in a railroad wreck at Salamanca, N. Y., on Monday and was the only person in the Pullman car not killed or injured.

Mrs. B. C. Ansley, who has been ill for some time, is able to be out. Mr. and Mrs. Ansley are making preparations to go to California in August. Mrs. Ansley's parents reside there and the visit will be a lengthy one.

Cleveland, April 30.—John D. Rockefeller has sent his check for \$10,000 to the local officers of the Salvation Army to aid in the erection of a new \$90,000 citadel which the army is putting up in this city. Mr. Rockefeller had previously made the raising of a certain sum of money a condition of his gift, but a letter from the army officials detailing their efforts to comply with the request showed Mr. Rockefeller that they would not be able to do so by the time set, May 1. Mr. Rockefeller then waived this consideration and sent the check.

WELLSVILLE

TWO ARE ARRESTED
FOR DYNAMITING FISH

Wellsville Man And Boy Accused of Having Broken the Law on Yellow Creek.

A report came to Wellsville lately that Yellow creek was covered with dead fish, caused by dynamiting. At the time of the report the guilty parties were suspected, but no arrests were made until sufficient evidence could be collected.

Constable Maple, of Steubenville, came to this city yesterday and in company with Constable Henry Thorne went to the West End and arrested John Ramsey and Cloyd Thomas for having committed the deed.

Thomas is about 19 years old, lives with his parents in Buckeye row and is employed at the Vulcan brick yards, at which place he was found. Ramsey is about 45 years old and does nothing. He was found in "Pat's" lower place. The two were handcuffed and taken to Steubenville. They are said to have as good as confessed and will be tried within a few days.

Thomas will no doubt be dealt with rather leniently on account of his age, but the charge is a serious one and both will receive their just dues.

Nearly Depopulated the City.

The appearance of the circus in East Liverpool yesterday made the streets of Wellsville look as if a cyclone had struck the town and everybody was anxious to get away. From early until late in the day standing room on the street cars was at a premium. Working men took a day off and business men closed their doors and went to see the elephant. During the evening, however, the streets were thronged with multitudes of people and business boomed for several hours as on a Saturday night.

Last Dance Tonight.

Prof. Bailey, of Alliance, will give a reception this evening in the city hall as a windup of the weekly dances held for the past four months. The dances have been much enjoyed. That of this evening will be something out of the ordinary. Nowling's orchestra will furnish the music, and a swell time is expected. Dancing will commence at 8 o'clock. A large crowd is expected from East Liverpool and a car will be held for them.

Shirley-De Vore.

S. Brade De Vore, of Allegheny, and Miss Elvira Shirley, of Bridgeport, N. J., were married on April 25 at the home of the bride's parents in Bridgeport, N. J. Mr. De Vore was formerly a resident of Wellsville and is quite well known. The couple are at home to their friends in Allegheny, where Mr. De Vore is employed.

Efficer Snider Resigns.

Officer Harry Snider resigned from the police force yesterday afternoon. He has been an efficient officer. The only reason that can be surmised by friends of his is that he has a more lucrative position in view.

WELLSVILLE SHORT STORIES.

Miss Beard, of Ironside, is the guest of friends in this city.

J. R. Thomas, of Youngstown, is in Wellsville on business.

Mrs. Laura Smith is the guest of friends in Steubenville.

C. G. Stone, of Alliance, is the guest of relatives in this city.

Thomas Davis has returned from a visit in McKeesport, Pa.

James Snyder, of Wheeling, is calling on Wellsville friends.

E. G. Whitacre was a business visitor in Pittsburgh yesterday.

Miss Alice Duncan has returned from a visit in Reading, Pa.

Mrs. Chambers, of New Cumberland, spent yesterday in this city.

S. L. Mason, of East Palestine, is visiting relatives in this city.

Miss Ollie Thomas is spending a few days with Toronto friends.

Mrs. E. A. Welsh, of Main street, has removed to East Liverpool.

W. D. Conley, of Pittsburgh, was in this city Wednesday on business.

Miss Mary Furniss, of Hill street, is spending a few days with Pittsburg friends.

Mrs. Haynes and daughter Georgia, of Nevada street, spent yesterday in Pittsburg.

Ralph C. Raymond, of Steubenville, has returned home after a short visit in this city.

Miss Helen Potts, of Pittsburg, has returned home after a visit with friends in this city.

Mrs. John Roberts and son Frank attended the funeral of Miss Sue Rahl at Conway Wednesday.

Mrs. Stellers and Mrs. McLean went to Steubenville yesterday to attend the wedding of Howard Stellers, which will occur this evening.

Charles R. McGregor, Sr., was in Cleveland yesterday as a witness in the United States court in a case of the government against Miss E. P. Hazlett.

One of Herrmann's Tricks.

Not many months before his death Alexander Herrmann, the magician, was a guest at the famous but now defunct Whitechapel club, the rendezvous of Chicago Bohemians. On the night in question a venerable Japanese priest was present. In the course of a few tricks Herrmann picked up a deck of cards and asked some one to select a card. The seven of clubs was the card drawn from the pack, and it was shown to the spectators, but not to the magician. The card was replaced in the deck, which was shuffled and then handed to one of the spectators.

"Look through the deck, please," said Herrmann.

The holder of the cards did as requested.

"Is the card that was drawn in the pack?" asked the wizard.

"No, sir," answered the spectator.

"What was the card?"

"The seven of clubs."

"Well, gentlemen," said Herrmann, "if one of you will kindly unlace the priest's shoe you will find the card that has vanished from the pack."

After a smiling protest the Japanese priest unlaced his shoe, and there, to the amazement of all, was found the seven spot of clubs.—Rochester Post-Express.

Spider Fancies.

An elderly lady who lives in her own house at Buttes Chaumont, Paris, has discovered that spiders are peculiarly appreciative of music. She has made great pets of them, and her home is full of spiders of all kinds, on whom she spends her time and fortune.

Her proteges are lodged in a large airy room, where she has provided every necessary support for their different webs. Her great favorites are enormous black spiders, which, with their hairy legs and great bodies, look very repulsive to others.

When she is inclined to show off their capabilities for music, she surrounds herself with a circle of water to keep off their too delicate attentions and plays slowly, softly and in a minor key on the harp. From all corners of the room the spiders run toward her, listening with evident pleasure, but should she strike up a noisy, gay, inharmonious strain they scurper back to their holes as though disgusted.

A curious fact in connection with this story is that the lady bears the birthmark of a spider.

Mistletoe.

The mistletoe comes chiefly from Brittany. Some 700 tons of the charming white berries plant are exported from French ports yearly. This mistletoe is to the Briton what the pig is to the Irishman—it pays the rent. The peasants of Normandy and Brittany cultivate the parasite on their apple trees, contrary to popular belief. It rarely grows on oaks and it forms their most profitable crop. A few years ago the French department of agriculture decreed the destruction of all mistletoe, on the ground that it injured the apple trees. The peasants, however, denied the impeachment, and as the order is not enforced, they grow and export more "gilt" than ever for the Christmas enlivenment of English and American homes.

PARK ATTRACTIONS

Will Be Many During the Season—Big Heptasoph's Picnic Booked.

Of the attractions booked at Rock Springs park this week the dance arranged for this evening promises to be the most enjoyable. The crowd will be select, only a limited number of invitations having been issued. Elaborate preparations have been made for the affair and the occasion will be an enjoyable one. Rocco's famous orchestra will furnish the music.

Manager J. Howard Maxwell has just returned from Pittsburg, where he has closed with the committee of arrangements for the big Heptasoph's picnic, to be held at the park Wednesday, August 26.

There will not be a bigger demonstration at the park during the present season, and special arrangements will have to be made to accommodate the large number of people. Some difficulty was encountered in arranging for the special trains over the Pennsylvania railroad. On account of the improvements being made to the road on the C. & P. division, it will be necessary to bring the excursion by way of the Panhandle.

MANY TRANSACTIONS

In Chester Real Estate Have Been Recorded During the Past Few Days.

Operations in realty circles in Chester remain active, and not a day passes that several important transactions are not closed.

John Harvey has purchased two lots on Phoenix avenue, and has arranged for the erection of a fine new residence on one of them. As soon as the first is completed another will be commenced immediately adjoining.

E. H. Jessop, of East Liverpool, closed a deal for the purchase of a valuable lot on Phoenix avenue. It has not yet been decided whether or not he will build. It may be that he will keep the purchase for speculation.

A number of other properties are being negotiated for at this time, and it is confidently expected that several of them will be closed up by the end of the present week.

CONTRACTORS SIGN

Three of the Four in Chester Have Agreed to the Carpenters' Scale.

The carpenters' controversy was settled last evening when three of the four contractors of Chester signed the scale. The one question which was undecided to the very last minutes was the time for beginning work. The contractors had taken the same position maintained by the East Liverpool bosses, and insisted that the men start to work at 8 o'clock. Considerable discussion was indulged in by the men and several meetings were held before it was definitely decided to accept the hours.

It was not until last night that the contractors signed up, and only then after it had been agreed that the time for beginning work should be 8 o'clock.

One contractor refused to sign and says he will not do so under any circumstances. Steps will be taken by the union at once to compel him to come into the fold.

A Very Poor Game.

The small crowd who witnessed the base ball game between the Chester team and the Crockery Citys, of East Liverpool, were treated to about the worst exhibition of the national game ever played on the Chester grounds. In the matter of errors and bad playing the honors were equally divided. Both teams went to pieces early in the game.

CHESTER NOTES.

James Johnston is ill at his home on Carolina avenue.

A son was born to Mr. and Mrs. Charles Caldwell last night. They reside on Phoenix avenue.

William Hood, of Martin's Ferry, is a guest at the home of his brother, Norval Hood, Louisiana avenue.

Hon. William Brown and wife, of Brownsdale, were calling on Chester and East Liverpool friends today.

Circus day interfered with the operation of both Chester potteries, and scarcely half the regular force is working today.

Mrs. O. O. Allison, who has been in the country during the absence of her husband in the north, was in Chester yesterday.

The Ladies' Aid Society of the Chester Christian church is meeting this afternoon at the home of Miss Nellie Sinclair.

Mrs. Margaret Allison, near the Washington school house, was a guest of her brother, Robert Hobbs, in Chester, yesterday.

Postmaster Johnston has completed the preparations for the removal of the Chester postoffice to its new quarters on Second street.

Mr. and Mrs. Samuel Allison, who have been guests at the home of their son, Sheriff C. T. Allison at New Cumberland, have returned to Chester. Mr. and Mrs. John P. Miller, who have both been very ill at their home near Fairview, are not improving and little hope is entertained for their recovery.

J. D. Stewart returned from the Battle Creek sanitarium last evening. Mr. Stewart does not believe the treatment there is adapted to his ailment, and he will go to Mt. Clemens next week.

Instinct Stronger Than Will.

A curious story is told of Darwin and snakes. He used to go into the London Zoological society's gardens. Regent's park, and standing by the glass case containing the cobra de capello put his forehead against the glass while the cobra struck out at him. The glass was between them. Darwin's mind was perfectly convinced as to the inability of the snake to harm him, yet he would always dodge. Time after time he tried it, his will and reason keeping him there, his instinct making him dodge. The instinct was stronger than both will and reason.

Bismarck and Grant.

Sidney Whitman in his "Personal Reminiscences of Prince Bismarck" says:

"Bismarck's intimate friendship with Motley, the historian, is well known. He was also particularly attached to George Bancroft, so that when it became a question of Bancroft being recalled from his post of United States minister at Berlin Bismarck wrote specially to his friend Motley and begged him to intercede with the president to allow Bancroft to remain, and he did remain."

"Bismarck told me that when General Grant came to Berlin he accompanied him to see one of the reviews at the Tempelhof field. Grant was not well that day, and they had to drive out in a closed carriage. Grant looked downcast and told Bismarck that it worried him to think that he was to meet the Prussian soldiers sitting coddled up in a carriage like any ordinary civilian. 'Never you mind that, General Grant,' Bismarck said. 'You may sit here hidden from view, but our soldiers are well aware what sort of fighting man is in this closed carriage.'"

Splendid Isolation.

"Why do you remain apart from others?" asked a young lion of his sire. "Would not a herd of lions present an imposing array?"

"By no means," answered the elder. "It would greatly diminish the respect now felt for us. Sheep may herd together, but the lion must flock by himself."—New York Herald.

WELLSVILLE

TWO ARE ARRESTED
FOR DYNAMITING FISH

Wellsville Man And Boy Accused of Having Broken the Law on Yellow Creek.

A report came to Wellsville lately that Yellow creek was covered with dead fish, caused by dynamiting. At the time of the report the guilty parties were suspected, but no arrests were made until sufficient evidence could be collected.

Constable Maple, of Steubenville, came to this city yesterday and in company with Constable Henry Thorne went to the West End and arrested John Ramsey and Cloyd Thomas for having committed the deed.

Thomas is about 19 years old, lives with his parents in Buckeye row and is employed at the Vulcan brick yards, at which place he was found. Ramsey is about 45 years old and does nothing. He was found in "Pat's" lower place. The two were handcuffed and taken to Steubenville. They are said to have as good as confessed and will be tried within a few days.

Thomas will not doubt be dealt with rather leniently on account of his age, but the charge is a serious one and both will receive their just dues.

Nearly Depopulated the City.

The appearance of the circus in East Liverpool yesterday made the streets of Wellsville look as if a cyclone had struck the town and everybody was anxious to get away. From early until late in the day standing room on the street cars was at a premium. Working men took a day off and business men closed their doors and went to see the elephant. During the evening, however, the streets were thronged with multitudes of people and business boomed for several hours as on a Saturday night.

Last Dance Tonight.

Prof. Bailey, of Alliance, will give a reception this evening in the city hall as a windup of the weekly dances held for the past four months. The dances have been much enjoyed. That of this evening will be something out of the ordinary. Nowling's orchestra will furnish the music, and a swell time is expected. Dancing will commence at 8 o'clock. A large crowd are expected from East Liverpool and a car will be held for them.

Shirley-De Vore.

S. Brade De Vore, of Allegheny, and Miss Elvira Shirley, of Bridgeport, N. J., were married on April 25 at the home of the bride's parents in Bridgeport, N. J. Mr. De Vore was formerly a resident of Wellsville and is quite well known. The couple are at home to their friends in Allegheny, where Mr. De Vore is employed.

Officer Harry Snider resigned from the police force yesterday afternoon. He has been an efficient officer. The only reason that can be surmised by friends of his is that he has a more lucrative position in view.

One of Herrmann's Tricks.

Not many months before his death Alexander Herrmann, the magician, was a guest at the famous but now defunct Whitechapel club, the rendezvous of Chicago Bohemians. On the night in question a venerable Japanese priest was present. In the course of a few tricks Herrmann picked up a deck of cards and asked some one to select a card. The seven of clubs was the card drawn from the pack, and it was shown to the spectators, but not to the magician. The card was replaced in the deck, which was shuffled and then handed to one of the spectators.

"Look through the deck, please," said Herrmann.

The holder of the cards did as requested.

"Is the card that was drawn in the pack?" asked the wizard.

"No, sir," answered the spectator.

"What was the card?"

"The seven of clubs."

"Well, gentlemen," said Herrmann, "if one of you will kindly unlace the oracle's shoe you will find the card that has vanished from the pack."

After a smiling protest the Japanese priest unlaced his shoe, and there, to the amazement of all, was found the seven spot of clubs.—Rochester Post-Express.

Spider Fancies.

An elderly lady who lives in her own house at Buttes Chaumont, Paris, has discovered that spiders are peculiarly appreciative of music. She has many great pets of them, and her house is full of spiders of all kinds, on whom she spends her time and fortune.

Her proteges are lodged in a large airy room, where she has provided every necessary support for their different webs. Her great favorites are enormous black spiders, which, with their hairy legs and great bodies, look very repulsive to others.

When she is inclined to show off their capabilities for music, she surrounds herself with a circle of water to keep off their too delicate attentions and plays slowly, softly and in a minor key on the harp. From all corners of the room the spiders run toward her, listening with evident pleasure, but should she strike up a noisy, gay, inharmonious strain they scamper back to their holes as though disgusted.

A curious fact in connection with this story is that the lady bears the birthmark of a spider.

Mistletoe.

The mistletoe comes chiefly from Brittany. Some 700 tons of the charming white berried plant are exported from French ports yearly. This mistletoe is to the Breton what the pig is to the Irishman—it pays the rent. The peasants of Normandy and Brittany cultivate the parasite on their apple trees—contrary to popular belief, it rarely grows on oaks and it forms their most profitable crop. A few years ago the French department of agriculture decreed the destruction of all mistletoe, on the ground that it injured the apple trees. The peasants, however, denied the impeachment, and as the order is not enforced, they grow and export more "guir" than ever for the Christmas enlightenment of English and American homes.

PARK ATTRACTIONS

Will Be Many During the Season—Big Heptasoph's Picnic Booked.

Of the attractions booked at Rock Springs park this week the dance arranged for this evening promises to be the most enjoyable. The crowd will be select, only a limited number of invitations having been issued. Elaborate preparations have been made for the affair and the occasion will be an enjoyable one. Rocoeto's famous orchestra will furnish the music.

Manager J. Howard Maxwell has just returned from Pittsburg, where he has closed with the committee of arrangements for the big Heptasoph's picnic, to be held at the park Wednesday, August 26.

There will not be a bigger demonstration at the park during the present season, and special arrangements will have to be made to accommodate the large number of people. Some difficulty was encountered in arranging for the special trains over the Pennsylvania railroad. On account of the improvements being made to the roadbed on the C. & P. division, it will be necessary to bring the excursion by way of the Panhandle.

MANY TRANSACTIONS

In Chester Real Estate Have Been Recorded During the Past Few Days.

Operations in realty circles in Chester remain active, and not a day passes that several important transactions are not closed.

John Harvey has purchased two lots on Phoenix avenue, and has arranged for the erection of a fine new residence on one of them. As soon as the first is completed another will be commenced immediately adjoining.

E. H. Jessop, of East Liverpool, closed a deal for the purchase of a valuable lot on Phoenix avenue. It has not yet been decided whether or not he will build. It may be that he will keep the purchase for speculation.

A number of other properties are being negotiated for at this time, and it is confidently expected that several of them will be closed up by the end of the present week.

CONTRACTORS SIGN

Three of the Four in Chester Have Agreed to the Carpenters' Scale.

The carpenters' controversy was settled last evening when three of the four contractors of Chester signed the scale. The one question which was undecided to the very last minutes was the time for beginning work. The contractors had taken the same position maintained by the East Liverpool bosses, and insisted that the men start to work at 8 o'clock. Considerable discussion was indulged in by the men and several meetings were held before it was definitely decided to accept the hours.

It was not until last night that the contractors signed up, and only then after it had been agreed that the time for beginning work should be 8 o'clock. One contractor refused to sign and says he will not do so under any circumstances. Steps will be taken by the union at once to compel him to come into the fold.

A Hopeless Case.

A big policeman at Victoria station early one morning some days ago, says Tit-Bits, walked up to a young man who he had observed hurrying to and fro in a feverish way for an hour or more, and said:

"Is there anything I can do for you?"

"Do for me? By Jove! No; not unless you can bring back that 8:35 train. I'll bet a thousand pounds it left before its time!"

"Can't you go by another train?"

"Certainly. That's what I am waiting for. But it doesn't leave till 4:30 this afternoon and won't get to where I'm going till about 7, and that won't do at all."

"If it's anything important, can't you send a telegram?"

"Send a telegram? I've sent half a dozen already. The fact is I am on my way to a wedding to take place at noon. I've got some presents for the bride."

"Well," said the policeman, "the case isn't so bad. You can deliver the presents the next morning. The wedding will be over, of course, but—"

"Wedding over? Jupiter! It won't be over. That's the trouble."

"Why not?"

"Because it can't come off unless I'm there. I've got to be present. I'm the man that's going to be married. Policemen, you mean well, but you can't pour any of the oil of joy into this wounded bosom. I'll feel obliged if you'll go away somewhere and leave me to my misery."

Why She Gave Up Her Job.

A West Philadelphia girl who recently started to teach a Sunday school class has given it up as a bad job. "I am not built that way," she said in explaining to several friends why she had thrown up the sponge and retired from the ring. "It's all due to my temper, which is by no means angelic, and it requires an angelic disposition to lead a Sunday school class of small boys in the way they should go. There was one young imp named Paul, who was the limit. If I ever get to heaven and meet Paul, one of the other of us will have to quit. He had annoyed me from the first, but the end came that Sunday when the lesson was about turning your other cheek if your enemy smites you. Just in what I thought was the most interesting part of the lesson and when I could almost smell the hair singeing my hair Master Paul surreptitiously pulled out all my hairpins, and down it came all about my shoulders. Forgetting all about the lesson, I turned and slapped him in the face. Then I threw up the job."

His Inside Information.

A Christian Scientist while walking in the country came across a small boy sitting under an apple tree, doubled up with pain.

"My little man," he said, "what is the matter?"

"I ate some green apples," moaned the boy, "and, oh, how I ache!"

"You don't ache," answered the follower of Mrs. Eddy. "You only think so."

The boy looked up in astonishment at such a statement, and then replied, in a most positive manner: "That's all right. You may think so, but I've got inside information."—Philadelphia Ledger.

TWO ARE ARRESTED
FOR DYNAMITING FISH

Wellsville Man and Boy Accused of Having Broken the Law on Yellow Creek.

A report came to Wellsville lately that Yellow creek was covered with dead fish, caused by dynamiting. At the time of the report the guilty parties were suspected, but no arrests were made until sufficient evidence could be collected.

Constable Maple, of Steubenville, came to this city yesterday and in company with Constable Henry Thorne went to the West End and arrested John Ramsey and Cloyt Thomas for having committed the deed.

Thomas is about 19 years old, lives with his parents in Buckeye row and is employed at the Vulcan brick yards, at which place he was found. Ramsey is about 45 years old and does nothing. He was found in "Pat's" lower place. The two were handcuffed and taken to Steubenville. They are said to have as good as confessed and will be tried within a few days.

Thomas will no doubt be dealt with rather leniently on account of his age, but the charge is a serious one and both will receive their just dues.

Nearly Depopulated the City.

The appearance of the circus in East Liverpool yesterday made the streets of Wellsville look as if a cyclone had struck the town and everybody was anxious to get away. From early until late in the day standing room on the street cars was at a premium. Working men took a day off and business men closed their doors and went to see the elephant. During the evening, however, the streets were thronged with multitudes of people and business boomed for several hours as on a Saturday night.

Last Dance Tonight.

Prof. Bailey, of Alliance, will give a reception this evening in the city hall as a windup of the weekly dances held for the past four months. The dances have been much enjoyed. That of this evening will be something out of the ordinary. Nowling's orchestra will furnish the music, and a swell time is expected. Dancing will commence at 8 o'clock. A large crowd are expected from East Liverpool and a car will be held for them.

Shirley-De Vore.

S. Brade De Vore, of Allegheny, and Miss Elvira Shirley, of Bridgeton, N. J., were married on April 25 at the home of the bride's parents in Bridgeton, N. J. Mr. De Vore was formerly a resident of Wellsville and is quite well known. The couple are at home to their friends in Allegheny, where Mr. De Vore is employed.

Efficer Snider Resigns.

Officer Harry Snider resigned from the police force yesterday afternoon. He has been an efficient officer. The only reason that can be surmised by friends of his is that he has a more lucrative position in view.

One of Herrmann's Tricks.

Not many months before his death Alexander Herrmann, the magician, was a guest at the famous but now defunct Whitechapel club, the rendezvous of Chicago Bohemians. On the night in question a venerable Japanese priest was present. In the course of a few tricks Herrmann picked up a deck of cards and asked some one to select a card.

The seven of clubs was the card drawn from the pack, and it was shown to the spectators, but not to the magician. The card was rebled in the deck, which was shuffled and then handed to one of the spectators.

"Look through the deck, please," said Herrmann.

The holder of the cards did as requested.

"Is the card that was drawn in the pack?" asked the wizard.

"No, sir," answered the spectator.

"What was the card?"

"The seven of clubs."

"Well, gentlemen," said Herrmann, "if one of you will kindly unlace the priest's shoe you will find the card that has vanished from the pack."

After a smiling protest the Japanese priest unlaced his shoe, and there, to the amazement of all, was found the seven spot of clubs.—Rochester Post-Express.

Spider Fancies.

An elderly lady who lives in her own house at Buttes Chaumont, Paris, has discovered that spiders are peculiarly appreciative of music. She has made great pets of them, and her house is full of spiders of all kinds, on whom she spends her time and fortune.

Her proteges are lodged in a large airy room, where she has provided every necessary support for their different webs. Her great favorites are enormous black spiders, which, with their hairy legs and great bodies, look very repulsive to others.

When she is inclined to show off their capabilities for music, she surrounds herself with a circle of water to keep off their too delicate attentions and plays slowly, softly and in a minor key on the harp. From all corners of the room the spiders run toward her, listening with evident pleasure, but should she strike up a noisy, gay, inharmonious strain they scamper back to their holes as though disgusted.

A curious fact in connection with this story is that the lady bears the birthmark of a spider.

Mistletoe.

The mistletoe comes chiefly from Brittany. Some 700 tons of the charming white berried plant are exported from French ports yearly. This mistletoe is to the Breton what the pig is to the Irishman—it pays the rent. The peasants of Normandy and Brittany cultivate the parasite on their apple trees—contrary to popular belief, it rarely grows on oaks and it forms their most profitable crop. A few years ago the French department of agriculture decreed the destruction of all mistletoe on the ground that it injured the apple trees. The peasants, however, denied the impeachment, and as the order is not enforced, they grow and export more "gilt" than ever for the Christmas enlivenment of English and American homes.

PARK ATTRACTIONS

Will Be Many During the Season—Big Heptasoph's Picnic Booked.

Of the attractions booked at Rock Springs park this week the dance arranged for this evening promises to be the most enjoyable. The crowd will be select, only a limited number of invitations having been issued. Elaborate preparations have been made for the affair and the occasion will be an enjoyable one. Rocereto's famous orchestra will furnish the music.

Manager J. Howard Maxwell has just returned from Pittsburgh, where he has closed with the committee of arrangements for the big Heptasoph's picnic, to be held at the park Wednesday, August 26.

There will not be a bigger demonstration at the park during the present season, and special arrangements will have to be made to accommodate the large number of people. Some difficulty was encountered in arranging for the special trains over the Pennsylvania railroad. On account of the improvements being made to the roadbed on the C. & P. division, it will be necessary to bring the excursion by way of the Panhandle.

John Harvey has purchased two lots on Phoenix avenue, and has arranged for the erection of a fine new residence on one of them. As soon as the first is completed another will be commenced immediately adjoining.

E. H. Jessop, of East Liverpool, closed a deal for the purchase of a valuable lot on Phoenix avenue. It has not yet been decided whether or not he will build. It may be that he will keep the purchase for speculation.

A number of other properties are being negotiated for at this time, and it is confidently expected that several of them will be closed up by the end of the present week.

MANY TRANSACTIONS

In Chester Real Estate Have Been Recorded During the Past Few Days.

Operations in realty circles in Chester remain active, and not a day passes that several important transactions are not closed.

CONTRACTORS SIGN

Three of the Four in Chester Have Agreed to the Carpenters' Scale.

The carpenters' controversy was settled last evening when three of the four contractors of Chester signed the scale. The one question which was undecided to the very last minutes was the time for beginning work. The contractors had taken the same position maintained by the East Liverpool bosses, and insisted that the men start to work at 8 o'clock. Considerable discussion was indulged in by the men and several meetings were held before it was definitely decided to accept the hours.

It was not until last night that the contractors signed up, and only then after it had been agreed that the time for beginning work should be 8 o'clock. One contractor refused to sign and says he will not do so under any circumstances. Steps will be taken by the union at once to compel him to come into the fold.

A Very Poor Game.

The small crowd who witnessed the base ball game between the Chester team and the Crockery Citys, of East Liverpool, were treated to about the worst exhibition of the national game ever played on the Chester grounds. In the matter of errors and bad playing the honors were equally divided. Both teams went to pieces early in

District Convention.

The district convention of the Women's Home Missionary society will be held at the Third Presbyterian church, Wheeling, May 6 and 7. The district is composed of the four Panhandle counties and Washington and Greene counties, Pa. One of the main features will be an address by Rev. George W. Bailey, of Westminster college, Utah, who will take as his subject, "The Mormons."

Paving Work Delayed.

Work on the paving of the street railway track has been delayed for several days on account of the non-arrival of several carloads of brick, which were ordered some time ago. The contractor expects to complete his contract within 20 days, provided the brick can be secured.

CHESTER NOTES.

James Johnston is ill at his home on Carolina avenue.

A son was born to Mr. and Mrs. Charles Caldwell last night. They reside on Phoenix avenue.

William Hood, of Martin's Ferry, is a guest at the home of his brother, Norval Hood, Louisiana avenue.

Hon. William Brown and wife, of Brownsdale, were calling on Chester and East Liverpool friends today.

Circus day interfered with the operation of both Chester potteries, and scarcely half the regular force is working today.

Mrs. O. O. Allison, who has been in the country during the absence of her husband in the north, was in Chester yesterday.

The Ladies' Aid Society of the Chester Christian church is meeting this afternoon at the home of Miss Nellie Sinclair.

Mrs. Margaret Allison, near the Washington school house, was a guest of her brother, Robert Hobbs, in Chester, yesterday.

Postmaster Johnston has completed the preparations for the removal of the Chester postoffice to its new quarters on Second street.

Mr. and Mrs. Samuel Allison, who have been guests at the home of their son, Sheriff C. T. Allison at New Cumberland, have returned to Chester.

Mr. and Mrs. John P. Miller, who have both been very ill at their home near Fairview, are not improving and little hope is entertained for their recovery.

J. P. Stewart returned from the Battle Creek sanitarium last evening. Mr. Stewart does not believe the treatment there is adapted to his ailment, and he will go to Mt. Clemens next week.

Rock Springs Bowling Alley will open Saturday evening for the season.

Instinct Stronger Than Will.

A curious story is told of Darwin and snakes. He used to go into the London Zoological society's gardens, Regent's park, and standing by the glass case containing the cobra de capello, put his forehead against the glass while the cobra struck out at him. The glass was between them, Darwin's mind was perfectly convinced as to the inability of the snake to harm him, yet he would always dodge. Time after time he tried it, his will and reason keeping him there, his instinct making him dodge. The instinct was stronger than both will and reason.

Why She Gave Up Her Job.

A West Philadelphia girl who recently started to teach a Sunday school class has given it up as a bad job. "I am not built that way," she said in explaining to several friends why she had thrown up the sponge and retired from the ring. "It's all due to my temper, which is by no means angelic, and it requires an angelic disposition to lead a Sunday school class of small boys in the way they should go. There was one young fellow named Paul, who was the limit. If I ever got to heaven and meet Paul, one or the other of us will have to quit. He had annoyed me from the first, but the end came that Sunday when the lesson was about turning your other cheek if your enemy smites you. Just in what I thought was the most interesting part of the lesson and when I could almost smell the hals singing my hair Master Paul surreptitiously pulled out all my hairpins, and down it came all about my shoulders. Forgetting all about the lesson, I turned and slapped him in the face. Then I threw up the job."—Philadelphia Record.

His Inside Information.

A Christian Scientist while walking in the country came across a small boy sitting under an apple tree, doubled up with pain.

"My little man," he said, "what is the matter?"

"I ate some green apples," moaned the boy, "and, oh, how I ache!"

"You don't ache," answered the follower of Mrs. Eddy. "You only think so."

The boy looked up in astonishment at such a statement, and then replied, in a most positive manner:

"That's all right. You may think so, but I've got inside information."—Philadelphia Ledger.

Bismarck and Grant.

Sidney Whitman in his "Personal Reminiscences of Prince Bismarck" says:

"Bismarck's intimate friendship with Motley, the historian, is well known. He was also particularly attached to George Bancroft, so that when it became a question of Bancroft being recalled from his post of United States minister at Berlin Bismarck wrote specially to his friend Motley and begged him to intercede with the president to allow Bancroft to remain, and he did remain.

"Bismarck told me that when General Grant came to Berlin he accompanied him to see one of the reviews at the Tempelhofer field. Grant was not well that day, and they had to drive out in a closed carriage. Grant looked downcast and told Bismarck that it worried him to think that he was to meet the Prussian soldiers sitting cuddled up in a carriage like any ordinary civilian. 'Never you mind that, General Grant,' Bismarck said. 'You may sit here hidden from view, but our soldiers are well aware what sort of fighting man is in this closed carriage.'"

Splendid Isolation.

"Why do you remain apart from others?" asked a young lion of his sire.

"Would not a herd of lions present an imposing array?"

"By no means," answered the elder.

"It would greatly diminish the respect now felt for us. Sheep only herd together, but the lion must flock by him self."—New York Herald.

REALM OF SPORTS

THE PARK SUFFERED

By the Tenting of the Big Show. But Will Be Repaired—Secretary Travis Booking More Dates.

As the result of the big show in the West End park the outfield and the diamond are very badly torn up. It was thought that the circus men would spare the diamond, this having been done in previous years, but they paid no heed to the aftermath and planted the stakes deep into the ground, leaving big holes in many spots. The management, however, has made arrangements to have the bad places repaired and by Saturday afternoon when the locals will cross bats with the fast team of Leetsdale, Pa., there will not be a flaw in the surface.

Without doubt the West End ball grounds are among the best in the country. They are in better condition than ever before and will be kept so if the management carries out intended plans. The outfield is free from high grass and stubble, and the fielders for the first season in the history of the park can do their work without hindrance. The diamond has been rolled and scraped until it is as level as a plane, and the fastest kind of ball is possible on it.

Secretary Travis continues to secure dates with out-of-town teams, and has now some of the best organizations on the road booked. He received word yesterday from Homestead that the team which gave the local team some very hard battles last year will be here during the first week of July. This team will draw an immense crowd, much rivalry existing, and it being a fond hope with the local fans to see the Pennsylvania boys go down to defeat.

JIMMIE DUNN HERE

New Castle Boxer Visiting Friends. Lutz Will Fight Winner of Youngs-Lemmons Bout.

Jimmie Dunn, the well known boxer of New Castle, arrived in the city last evening to be the guest of his friend Larry Lutz for a few days. Jimmie is one of the most successful young fighters of his class in the country. The last fight he had was with Billy Davidson at Pittsburg, when he knocked him out in eight rounds.

Lutz states that he has arranged to fight the winner of the Youngs-Lemmons bout, which will take place in Beaver Falls before the Nonpareil Athletic club next month. Lutz has been against both of the men and knows them well. Youngs won the decision from Lutz on March 2 and Lemmons went down before the local boxer when they met.

LUTZ WILL SIGN

In response to a challenge of Charles Conkle, a wrestler of Beaver Falls, Larry Lutz has written him that he will be willing to meet him at any date he sets. Conkle recently returned from Canada, where he was successful in several wrestling matches. He, in the challenge, agrees to throw Lutz twice in an hour.

Wrestling is one of Lutz's strong points, and he anticipates easy money if the match is made. It is not known what the stakes will be, but Lutz will not agree to the match unless the amount is \$200 or over.

Hurt So Badly Was Nearly Crazy.

Had no Sleep—Could Hardly Lie Down.

Dr. Miles' Nervine Permanently Cured Me.

"A year ago I suffered from extreme nervous stomach trouble. I was afraid of everything, could not bear to hear singing or music and reading or hearing of a death nearly brought me down. I could not sleep or hardly lie down, the back of my head hurt me so badly I nearly went crazy. My shoulders hurt and the least thing I did would bring on an attack of extreme nervousness. There were times when I would have a lump in my throat and my mouth would be so dry I could hardly speak. I was in despair until I began to take Dr. Miles' Restorative Nervine. I have taken in all twelve bottles and consider myself permanently cured. My home doctor has since remarked on my healthy appearance and said he wished he could say his medicine helped me. He knows it was Dr. Miles' Nervine. We are never without the Anti-Pain Pills and consider our medicines household remedies. I cannot say enough for the Nervine, because in addition to my own case my daughter, who was out of school for a long time because of St. Vitus' dance, was completely cured by eight bottles. She is now feeling fine and going to school every day. We thank you for your kindness and will never stop singing the praises of Dr. Miles' Restorative Nervine."—Mrs. C. E. Ring, Lima, O.

THE Bowser had dined well and spent a pleasant hour afterward, and Mr. Bowser had about finished his cigar and his newspaper when he looked up and said:

"Under the regime of forty years ago these men who are squeezing the public with high prices for everything would be hauled up pretty smartly."

He pronounced the word as if spelled "regimee," and, without thinking what it might lead to, Mrs. Bowser inquired:

"Under the what, did you say?"

"Under the regime. Wasn't my pronunciation clear?"

"You don't get the word exactly right. It is pronounced 'razheem'."

"What! Why, woman, you are way off! I have been familiar with the word for thirty years, and I think I know how it should be pronounced. It

hasn't I got just as good a right to my way as this infernal old mousback of a Webster has to his? I'll bet dollars to cents that even the tramps on the streets call it regimee. I've a good mind to go out and—"

But he didn't have to. The bell rang, and as he passed down the hall and opened the door a tramp stood there and humbly asked for a dime to pay for lodgings.

"Come right in here," replied Mr. Bowser as he seized him by the arm.

"Now, then, do you know beans from pumpkins?"

"I think I do," was the reply.

"Then tell me how you pronounce the word regimee."

"I—I don't think I'd call it 'bee,'" replied the man after some thought.

"Of course not."

"And it can't be buttermilk."

"Have you got sawdust in your head?"

"I wouldn't say it was cold chicken or mince pie, but it may be—"

"May be what?" asked Mr. Bowser as the other hesitated.

"Durned if I don't believe it's a highball, and I want to thank you for it in advance. If all men were as generous as you are, us fellows—"

He got no further—that is, he got a good deal further. He got outdoors, and the door struck his heels as he went. Mrs. Bowser was trying hard to keep a placid face as Mr. Bowser returned to the sitting room, and noting the fact he pointed a finger at her and sternly said:

"This performance is not half over with yet. I will not sleep until I have proved my case."

"I am willing to let it go as you say," she replied. "What do we care whether it is regimee or razheem?"

"I care because I have been called an ass and an idiot, and I don't propose to stand it. I will go out on the street and put the case to the public. You needn't protest, for it will do no good."

He went. His experience with the tramp warned him against that class, but meeting an intelligent looking man with a bundle under his arm he stopped him and said:

"A word with you, if you please."

"Same old story, I suppose," sneered the man in reply, "and I haven't time to listen to it."

"Sir, I am no tramp!" said Mr. Bowser with great dignity.

"No? Then what is it?"

"How do you pronounce the word spelled regimee?"

"Hum! Don't you monkey with me, old man! I wasn't born yesterday."

The man passed on, and it took Mr. Bowser ten minutes to get over his anger and accept a second pedestrian.

He was told to forget it. The third asked him when he got out of the lunatic asylum, and the fourth picked up a club from the street and whistled for the police. Mrs. Bowser and the cat had been looking out of the front win-

dow.

the word was not pronounced regimee. Now prove it."

"Won't you let it go, dear?" she pleaded, now realizing that she had been anything but diplomatic.

"Never—never in this world. If I am an idiot, I want to know it right here and now. Produce your authority or admit that it was simply a specimen of your audacious cheek."

Mrs. Bowser waited a minute and then took a dictionary from the revolving bookcase and hunted out the word and laid the book before him.

Under the caption of "Re" he read:

"Regime (razheem), n. Fr. regime, Pr. regime, razheem, regime, Sp. regime. See infra. Mode or style of rule or management; character of government; administration."

"Well," she asked as he looked up, "what does this prove?"

"Heaven! He heaved the book upon the lounge and gave the cat a great scare. 'Haven't I told you a hundred times over that I was not to be spelt down by a dictionary? Would I spout frog with two g's because some idiot of a man put it so in a dictionary?'"

"Then how can we settle it?"

"By what the public says. I can bring a thousand people here to say that the word is pronounced regimee. Is one man to be set up against a thousand? To come right down to it,

dow for a quarter of an hour when a boy appeared with a note for her. It was from Mr. Bowser. It read:

"I say it's regimee, and I'll be hanged if I don't prove it or die in the attempt. You can go to bed or sit up or hang yourself."

Ten o'clock came, 11, 12, 1. Then the cat fell asleep, and Mrs. Bowser heaved a sigh and gave it up and went to bed.

She knew Mr. Bowser. She knew he would find that regimee or break both his legs and lose the rest of his hair trying.

Constipation

Will Undermine Your Health.

Mull's Grape Tonic Cures Constipation.

When the sewer of a city becomes stopped up, the refuse backs into the streets where it decays and rots, spreading disease-creating germs throughout the entire city. An epidemic of sickness follows. It is the same way when the bowels fail to work. The undigested food backs into the system and there it rots and decays. From this festering mass the blood saps up all the disease germs, and at every heart beat carries them to every tissue, just as the water works of a city forces impure water into every house. The only way to cure a condition like this is to cure the constipation. Pills and the ordinary cathartics will do no good.

MULL'S GRAPE TONIC

Is a crushed fruit tonic-laxative

which permanently cures the affliction.

The tonic properties contained in the grape

go into every afflicted tissue and creates

strength and health. It will quickly restore lost flesh and make

rich, red blood. As a laxative its action is immediate and positive,

gentle and natural. Mull's Grape Tonic is guaranteed or money back.

REALM OF SPORTS

THE PARK SUFFERED

By the Tenting of the Big Show, But Will Be Repaired—Secretary Travis Booking More Dates.

As the result of the big show in the West End park the outfield and the diamond are very badly torn up. It was thought that the circus men would spare the diamond, this having been done in previous years, but they paid no heed to the aftermath and planted the stakes deep into the ground, leaving big holes in many spots. The management, however, has made arrangements to have the bad places repaired and by Saturday afternoon when the locals will cross bats with the fast team of Leetsdale, Pa., there will not be a flaw in the surface.

Without doubt the West End ball grounds are among the best in the country. They are in better condition than ever before and will be kept so if the management carries out intended plans. The outfield is free from high grass and stubble, and the fielders for the first season in the history of the park can do their work without hindrance. The diamond has been rolled and scraped until it is as level as a plane, and the fastest kind of ball is possible on it.

Secretary Travis continues to secure dates with out-of-town teams, and has now some of the best organizations on the road booked. He received word yesterday from Homestead that the team which gave the local team some very hard battles last year will be here during the first week of July. This team will draw an immense crowd, much rivalry existing, and it being a fond hope with the local fans to see the Pennsylvania boys go down to defeat.

JIMMIE DUNN HERE

New Castle Boxer Visiting Friends. Lutz Will Fight Winner of Youngs-Lemmons Bout.

Jimmie Dunn, the well known boxer of New Castle, arrived in the city last evening to be the guest of his friend Larry Lutz for a few days. Jimmie is one of the most successful young fighters of his class in the country. The last fight he had was with Billy Davidson at Pittsburg, when he knocked him out in eight rounds.

Lutz states that he has arranged to fight the winner of the Youngs-Lemmons bout, which will take place in Beaver Falls before the Nonpareil Athletic club next month. Lutz has been against both of the men and knows them well. Youngs won the decision from Lutz on March 2 and Lemmons went down before the local boxer when they met.

LUTZ WILL SIGN

Article of Agreement for a Wrestling Match With Clark Conkle if the Stakes Are Large Enough.

In response to a challenge of Charles Conkle, a wrestler of Beaver Falls, Larry Lutz has written him that he will be willing to meet him at any date he sets. Conkle recently returned from Canada, where he was successful in several wrestling matches. He, in the challenge, agrees to throw Lutz twice in an hour.

Wrestling is one of Lutz's strong points, and he anticipates easy money if the match is made. It is not known what the stakes will be, but Lutz will not agree to the match unless the amount is \$200 or over.

Head

Hurt So Badly Was Nearly Crazy.

Had no Sleep—Could Hardly Lie Down.

Dr. Miles' Nervine Permanently Cured Me.

"A year ago I suffered from extreme nervous stomach trouble. I was afraid of everything, could not bear to hear singing or music and reading or hearing of a death nearly brought on my own. I could not sleep or hardly lie down, the back of my head hurt me so badly I nearly went crazy. My shoulders hurt and the least thing I did would bring on an attack of extreme nervousness. There were times when I would have a lump in my throat and my mouth would be so dry I could hardly speak. I was in despair until I began to take Dr. Miles' Restorative Nervine. I have taken in all twelve bottles and consider myself permanently cured. My home doctor has since remarked on my healthy appearance and said he wished he could say his medicine helped me. He knows it was Dr. Miles' Nervine. We are now without the Anti-Pain Pills and consider your medicines household remedies. I cannot say enough for the Nervine, because in addition to my own case my daughter, who was out of school for a long time because of St. Vitus' dance, was completely cured by eight bottles. She is now feeling fine and going to school every day. We thank you for your kindness and will never stop singing the praises of Dr. Miles' Restorative Nervine."—Mrs. C. E. King, Lima, O.

Bowser Sticks To It

He Insists "Regime" Is Not Pronounced "Razheem"

is reg-i-mee, of course. You have got it mixed up with some of those French words you come across in novels."

"But I haven't, my dear. It is 'razheem,' and every well learned person will say so. I haven't read a novel in a year, and I don't pretend to understand French or try to get off any French words."

"And do you mean to tell me to my face that I am a numskull and an ass?" exclaimed Mr. Bowser as he set his jaw and grew red as fire.

"No, dear; I simply say that you don't give the word the right pronunciation. It is nothing to dispute over, however, and we will drop it. Do you think it will be colder tomorrow?"

"Colder or hotter he hanged! You have the same as called me a fool, and I propose to have the matter settled. If it has come to the point where a husband must go to school to his wife, I want to know it. You have said that

Fishing.
Gladys Young was fond of fishing. So she fished from morn till night, But, to tell the truth about it, Gladys never had a bite.

Hat awry and cheeks like roses, Empty basket on her arm, Fold the giggling lads and lassies, No wee fishes came to harm.

"Where's your fish?" they cried in chorus, "Lovely day!" and "Stream so still!" Gladys blushed, "I caught but one fish, And he's climbing up the hill."

Constipation

Will Undermine Your Health.

Mull's Grape Tonic Cures Constipation.

When the sewer of a city becomes stopped up, the refuse backs into the streets where it decays and rots, spreading disease creating germs throughout the entire city. An epidemic of sickness follows. It is the same way when the bowels fail to work. The undigested food backs into the system and there it rots and decays. From this festering mass the blood saps up all the disease germs, and at every heart beat carries them to every tissue just as the water works of a city forces impure water into every house. The only way to cure a condition like this is to cure the constipation. Pills and the ordinary cathartics will do no good.

MULL'S GRAPE TONIC

Is a crushed fruit tonic-laxative

which permanently cures the affliction. The tonic properties contained in the grape go into every afflicted tissue and creates strength and health. It will quickly restore lost flesh and make rich, red blood. As a laxative its action is immediate and positive, gentle and natural. Mull's Grape Tonic is guaranteed or money back.

JUST one taste of Hagee's Cordial of Cod Liver Oil (with Hypophosphites) will dispel any idea that it is repulsive, nauseating like ordinary cod liver oil.

Those who have been deprived of testing its remarkable reconstructive qualities because they imagined it the greasy, fishy kind, could never be more mistaken.

Hagee's Cordial is a thin palatable fluid, with a pleasant odor and agreeable taste. Children take it readily and it agrees with the most delicate stomach. For thin, emaciated, weak conditions of adults, children or infants, its bracing, tonic effect is marvelous.

MOUNTAIN SIDE FELL

At Least 112 Dead From Disaster in Little Mining Town of Frank.

OUTSIDE MEN INSTANTLY KILLED

While Those in Mine Are Imprisoned by Debris and Undoubtedly Doomed.

People Panic-Stricken—The Valley Threatened With Flood.

Chicago, April 30.—Information concerning the disaster was obtained from Edward B. Liagre, of Frank, who is in Chicago. Mr. Liagre is identified with the Little collieries, located a few hundred yards north of Frank. It was in a mine connected with these collieries that the catastrophe took place. Mr. Liagre said that there was an explosion of gas, which burst out of the side of the mountain, and this led to rumors of volcanic eruption and earthquakes.

Mr. Liagre received a telegram from Frank, saying:

"Gas exploding in mine completely destroyed the Frank colliery."

"There was no volcanic eruption," said Mr. Liagre. "Frank is a town of about 1,000 people. The mountain, I should say, is nearly 8,000 feet high. There are many Italians in Frank, but all nationalities are represented in the population."

Vancouver, B. C., April 30.—Overwhelmed by countless tons of rock and with probably 112 of its inhabitants killed almost instantly, the little mining town of Frank, in Spithwestern Alberta, is threatened with complete destruction by flood.

Old Mans river, which flows through the center of the town, is dammed up by falling rocks to the height of nearly 100 feet, and the entire valley above the town is flooded for miles. A big body of water is pressing with force upon the dam, the only protection the town of Frank now has, unless the river shall find another channel. Should the impromptu dam break the entire village would be swept away.

A dispatch from Frank says: "A tremendous loud reverberation shook the whole valley of the Old Mans river at 4:10 o'clock and scarcely half the inhabitants of this town awakened to a realization of the impending danger, when from the top of Turtle mountain, overlooking the settlement, millions of tons of rock were hurled.

"The Frank mines, operated by the French Canadian Coal company, across the river from the town, were seen to be buried under hundreds of feet of rock just as the morning light was breaking. Inside of five minutes from the first thunderous shock and before half the town realized what had happened, a small force of men had started to the relief of the miners, despite the great risk they ran of being buried under the rocks, which were still being precipitated from the left mountain top. The volunteer relief force was unable to get into the mine, but managed to get near enough to determine that not a man at the workings had escaped death. Many had been fearfully mangled.

"The disaster was merciful to those men who were employed above ground, in that they must have been killed instantly, while these men in the workings of the mine may yet be alive if they have air to breathe. The disaster was not confined to the vicinity of the mine alone, for many of the dwelling houses in the town of Frank were demolished by the falling rock. Some of the occupants of these houses escaped death, but many others were instantly killed. It is conservatively estimated that the loss of life will exceed 100 and the latest returns place the number of dead at 112.

"When reports concerning the magnitude of the disaster and details concerning it commenced to come in from reliable men who had been out prospecting for news it was discovered that the earth opened for three-quarters of a mile and many feet in width and that the whole northern face of Turtle mountain slipped from its place.

"The shock resultant upon the precipitation of the millions of tons of rock into the valley, while only actually demolishing comparatively few of the houses, shook the foundations of a majority of the dwellings in the town so that they are unsafe to live in, and many hundreds of people will have to live in the open or under such temporary shelter as may be procurable. The railroad track for a distance of two miles or more east of the station is covered with from 10 to 40 feet of rock and the telegraph wires are down.

"At dusk the rock was still being thrown on the town from Turtle mountain, and it is impossible to venture within half a mile of the mine workings. It is now certain that 18 men are buried in the workings. All hope for them has been abandoned. The streets are crowded with relatives and friends of those known to be entombed. The women are behaving in a most heroic manner."

THE FIRST STEP

Of the child is an event in the mother's life. How proud she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, weak and deficient in vitality, and clings to the mother's arms with no desire to walk or play.

Mother should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

The use of Dr. Pierce's Favorite Prescription, and can say it just what you advertise it to be, and can cheerfully recommend it," writes Mrs. Victor J. Hadin, of Leonardsville, N.J. "I have been using Dr. Pierce's Favorite Prescription for some time, and it has given me strength and health, and I have been able to give my children the strength and health that I desire for them."

"We now have a darling baby boy, strong and healthy, who weighed nine pounds when born (July 28th). During this month he has gained three and one-half pounds."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

DEATH OF VETERAN COMEDIAN

Stuart Robson Succumbs to Heart Disease at Hotel Savoy, New York.

New York, April 30.—Stuart Robson, the veteran comedian, died of heart disease at the Hotel Savoy. He was 67 years old and had been on the stage for 51 years.

Mr. Robson was taken ill early in March and was obliged to rest completely for two weeks. He resumed his engagement on March 19, and after playing in New York and Brooklyn appeared in various towns in the upper part of this state. A few days ago he was taken ill in Auburn and was brought to this city. The interment will take place at Cohasset, Mass., on Friday.

Smuggling Suspect Arrested. Detroit, April 30.—A United States officer arrested a man who gave the name of Albert Schmidt and his residence at Toronto, Ont., on suspicion of smuggling \$10,000 worth of diamonds, pearls and gold novelties into the United States. The officers believe the property was brought to Detroit from Paris by way of Canada. Schmidt was caught while he was endeavoring to pawn a diamond ring. The police allege they have learned that a pair of \$1,200 diamond earrings, which are a part of the smuggled property, have been pawned in Chicago.

No Cabinet Meeting in St. Louis. St. Louis, April 30.—There is little likelihood of a cabinet meeting in St. Louis during the stay of President Roosevelt in the city. The only member of his cabinet who was seen by the president up to the time that he left the house of President Francis for the Sigel memorial meeting was Secretary Hitchcock, and he saw him in a social way only. The president does not know of any cabinet meeting to be held while he is in St. Louis.

Boy Confesses to Killing. Grand Rapids, Mich., April 30.—Henry Hasse, aged 14, confessed that he shot and killed 7-year-old Charles Pohlman, on the evening of April 10, and with the assistance of his younger brother, Otto, carried the dead boy in a bag to the lake shore railroad and placed it upon the track. The Hasse boys claim the shooting was accidental, occurring in the Hasse home, where the boys were playing with a small rifle.

Decrease of Divorces. Berlin April 30.—The statistical bureau published figures showing a heavy decrease in the number of divorces in Prussia. There were 101 divorces per 100,000 marriages in 1895, which ratio was maintained until 1899, but the number declined in 1901 to 77 per 100,000. In Berlin the number of divorces decreased in 1901 from 457 to 273.

Committed for Extradition. London, April 30.—Nordenkotter, the chemist who fled from Berlin during his trial there in February last on the charges of carrying on an extensive business as a quack doctor, and who was arrested here March 10, was committed for extradition.

A SIGN OF GREATNESS

President Speaks on "Good Roads" at the St. Louis Convention.

READY FOR OPENING OF FAIR.

Immense Throng Line Streets and Wildly Cheer Roosevelt on March to Hall—Ex-President Cleveland Arrives and Is Warmly Welcomed.

St. Louis, April 30.—President Roosevelt has arrived to participate in the dedication ceremonies of the Louisiana Purchase exposition.

It was expected generally that he would leave his train at Union station, and a dense throng had congregated there. But to avoid just such an assemblage arrangements were made to have him leave the train at Forsythe junction, three miles from the center of the city. His train arrived at Forsythe junction at 4:20 o'clock, where he was met and escorted to the Good Roads convention in Odeon hall for a brief address. Members of the national commission of the world's fair, a reception committee, headed by President Francis, and a crowd of spectators were present to welcome the president. For an hour before his train arrived troops of military and squadrons of police were stationed about the point of disembarkation to prevent a crush.

As the presidential train arrived President Roosevelt, accompanied by Governor Dockery, of Missouri, who had joined the train at Keokuk, Ia., stepped off the rear end.

President Francis, of the Louisiana Purchase exposition, seized the hand of the president and gave him an informal welcome to St. Louis. Mayor Wells, President Carter, of the national commission, and other members of that body, the reception committee of the world's fair and military officers shook hands with the president, and after this brief and informal reception he was escorted to the carriage in waiting. Mayor Wells, United States Senator Carter and Secretary Loeb accompanied the president in the carriage, which was at once driven off to the Good Roads convention.

Enthusiastic Woman Disappointed. Just as the carriage started a mid-dle-aged woman rushed through the line of officers, wildly waving her handkerchief and vociferously cheering the president. She attempted to reach in and seize his hand, but the quickening pace of the horses prevented, and although she ran after the vehicle, still cheering and waving her handkerchief for the distance of half a block, she was finally distanced and lost in the crowd.

The military companies and a platoon of police had been waiting two blocks away, and as soon as the line of carriages appeared a slow-march was taken up to cover the three miles to Odeon hall. People were congregated along the streets and wildly cheering as the president passed. He continually doffed his hat in acknowledgment. The hall was packed with a crowd which had been waiting patiently for hours. The president spoke of good roads in tones which showed as well as his words that he was thoroughly in sympathy with the object of the associations.

Speech of President. "Roads," he declared, "tell the greatness of a nation. The influence of the nations which have not been road builders has been evanescent. Rome, the most powerful of the ancient civilizations, left her impress on literature and speech; she changed the boundaries of nations, but plainness than anything else left to remind us of the Roman civilization are the Roman roads."

At this point in the president's speech the crowd rose and cheered, waving handkerchiefs and hats. "Merely from historical analogy," the president continued, "this country, which we believe, will reach a position of leadership never equalled, this country, I say, should so act that posterity will justly say when speaking of us, 'That nation built good roads.'"

The president declared that good roads probably were the greatest agency for regulating the flow from the country to the city of young men and young women.

"A long line of liquid morass is not pleasant," the president continued. "It means in many instances practical isolation to the farmer. When the girl or the boy can't take a turn on a 'bike,' even to a neighbor's, because of the roads, well, it is a situation not likely to make farm life attractive."

In conclusion the president spoke of the benefits to the country districts—of the trolley line, the telephone and the rural free delivery—and closed with the assertion that good roads would prove the greatest benefit of all.

From Odeon Hall the President was driven at a sharp trot to St. Louis university. A few minutes were spent here, after which the president and other guests repaired to the home of President Francis for dinner.

Ex-President Cleveland arrived 25 minutes late, and a large reception committee was waiting for him.

ASK PROTECTION FROM MAFIA

Boston Italians Receive Threatening Letters and Appeal to Police Authorities.

Boston, April 30.—Several Boston Italians called at police headquarters to beg for protection against the Mafia, by which they claimed to have been ordered to contribute to the defense fund of the New York "barrel" murder case. Inspectors have been sent to the Italian quarter to make investigations.

Each of the foreigners showed a letter dated April 25, New York. The letters had been mailed Monday.

The letters told them that every where they went they were marked men, that the eye of Mafia was on them always, that they were as good as dead if they did not send the required money immediately. The letters were signed with a Latin name.

The Italians who received the letters are not members of the order, but they say they know of an Italian in their district who is. This alleged Mafia man may be arrested by the inspectors if he can be connected with the threatening letters.

Encampment of Veterans. Clarkburg, W. Va., April 30.—Thousands of veterans are in attendance at the twenty-first annual state encampment of the Grand Army of the Republic, department of West Virginia. The Women's Relief Corps and Ladies of the G. A. R. and Sons of Veterans are also meeting in yearly session. Major A. C. Moore, junior commander, will probably be the next grand commander of the state. The encampment is to last three days.

Forest Fires Extinguished. Detroit, April 30.—Heavy rains fell throughout the northern portion of lower Michigan and the forest fires that have threatened the smaller towns and done great damage throughout the lumber woods, have been extinguished. No lives have been reported lost in the fires.

Doblin Declared Insane. New York, April 30.—Philip Doblin, who achieved notoriety from his testimony in the investigation in Washington of the purchase of submarine boats, was declared insane by Justice Giegerich, of the supreme court.

Ended Life in Novel Manner. West Chester, April 30.—Caroline W. Carson, aged 51 years, was found drowned in the cellar of her house. She committed suicide by standing upon a chair and submerging her head in a barrel of water. The woman was unmarried.

JUST one taste of Hagee's Cordial of Cod Liver Oil (with Hypophosphites of Lime and Soda) will dispel any idea that it is repulsive, nauseating like ordinary cod liver oil.

Those who have been deprived of testing its remarkable reconstructive qualities because they imagined it the greasy, fishy kind, could never be more mistaken.

Hagee's Cordial is a thin palatable fluid, with a pleasant odor and agreeable taste. Children take it readily and it agrees with the most delicate stomach. For thin, emaciated, weak conditions of adults, children or infants, its bracing, tonic effect is marvelous.

MOUNTAIN SIDE FELL

At Least 112 Dead From Disaster in Little Mining Town of Frank.

OUTSIDE MEN INSTANTLY KILLED

While Those in Mine Are Imprisoned by Debris and Undoubtedly Doomed.

People Panic-Stricken—The Valley Threatened With Flood.

Chicago, April 30.—Information concerning the disaster was obtained from Edward B. Liagre, of Frank, who is in Chicago. Mr. Liagre is identified with the Little collieries, located a few hundred yards north of Frank. It was in a mine connected with these collieries that the catastrophe took place. Mr. Liagre said that there was an explosion of gas, which burst out of the side of the mountain, and this led to rumors of volcanic eruption and earthquakes.

Mr. Liagre received a telegram from Frank, saying:

"Gas exploding in mine completely destroyed the Frank colliery."
"There was no volcanic eruption," said Mr. Liagre. "Frank is a town of about 1,000 people. The mountain, I should say, is nearly 8,000 feet high. There are many Italians in Frank, but all nationalities are represented in the population."

Vancouver, B. C., April 30.—Overwhelmed by countless tons of rock and with probably 112 of its inhabitants killed almost instantly, the little mining town of Frank, in southwestern Alberta, is threatened with complete destruction by flood.

Old Mans river, which flows through the center of the town, is dammed up by falling rocks to the height of nearly 100 feet, and the entire valley above the town is flooded for miles. A big body of water is pressing with force upon the dam, the only protection the town of Frank now has, unless the river shall find another channel. Should the impromptu dam break the entire village would be swept away.

A dispatch from Frank says:

"A tremendous loud reverberation shook the whole valley of the Old Mans river at 4:10 o'clock and scarcely half the inhabitants of this town awakened to a realization of the impending danger, when from the top of Turtle mountain, overlooking the settlement, millions of tons of rock were hurled."

"The Frank mines, operated by the French Canadian Coal company, across the river from the town, were seen to be buried under hundreds of feet of rock just as the morning light was breaking. Inside of five minutes from the first thunderous shock and before half the town realized what had happened, a small force of men had started to the relief of the miners, despite the great risk they ran of being buried under the rocks, which were still being precipitated from the lofty mountain top. The volunteer relief force was unable to get into the mine, but managed to get near enough to determine that not a man at the workings had escaped death. Many had been fearfully mangled."

"The disaster was merciful to those men who were employed above ground, in that they must have been killed instantly, while those men in the workings of the mine may yet be alive if they have air to breathe. The disaster was not confined to the vicinity of the mine alone, for many of the dwelling houses in the town of Frank were demolished by the falling rock. Some of the occupants of these houses escaped death, but many others were instantly killed. It is conservatively estimated that the loss of life will exceed 100 and the latest returns place the number of dead at 112.

"When reports concerning the magnitude of the disaster and details concerning it commenced to come in from reliable men who had been out prospecting for news it was discovered that the earth opened for three-quarters of a mile and many feet in width and that the whole northern face of Turtle mountain slipped from its place.

"The shock resultant upon the precipitation of the millions of tons of rock into the valley, while only actually demolishing comparatively few of the houses, shook the foundations of a majority of the dwellings in the town so that they are unsafe to live in, and many hundreds of people will have to live in the open or under such temporary shelter as may be procurable. The railroad track for a distance of two miles or more east of the station is covered with from 10 to 40 feet of rock and the telegraph wires are down.

"At dusk the rock was still being thrown on the town from Turtle mountain, and it is impossible to venture within half a mile of the mine workings. It is now certain that 18 men are buried in the workings. All hope for them has been abandoned. The streets are crowded with relatives and friends of those known to be entombed. The women are behaving in a most heroic manner."

THE FIRST STEP

Of the child is an event in the mother's life. How proud she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, weak and deficient in vitality, and clings to the mother's arms with no desire to walk or play.

Mothers should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

The use of Dr. Pierce's Favorite Prescription by expectant mothers gives them health and strength to give their children. It nourishes the nerves, strengthens the body and gives great muscular strength and elasticity, so that the baby's advent is practically painless.

"I have been using Dr. Pierce's Favorite Prescription, and can say it is just what you advise it to be, and can cheerfully recommend it," writes Mrs. Victor J. Hadin, of Leominster, Mass. "I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me said I did about as well as any one he had seen (as I was sick only about three hours), and also that your 'Favorite Prescription' was the one 'parent medicine' which he had faith in."

"We now have a darling baby boy, strong and healthy, who weighed nine pounds when born (July 28th). During this month he has gained three and one-half pounds."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

The People's Common Sense Medical Adviser, a book containing 1000 pages, is given away. Send 21 one-cent stamps for expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

DEATH OF VETERAN COMEDIAN

Stuart Robson Succumbs to Heart Disease at Hotel Savoy, New York.

New York, April 30.—Stuart Robson, the veteran comedian, died of heart disease at the Hotel Savoy. He was 67 years old and had been on the stage for 51 years.

Mr. Robson was taken ill early in March and was obliged to rest com-

pletely for two weeks. He resumed his engagement on March 19, and after playing in New York and Brooklyn appeared in various towns in the upper part of this state. A few days ago he was taken ill in Auburn and was brought to this city. The interment will take place at Cohasset, Mass., on Friday.

Smuggling Suspect Arrested.
Detroit, April 30.—A United States officer arrested a man who gave the name of Albert Schmidt and his residence at Toronto, Ont., on suspicion of smuggling \$10,000 worth of diamonds, pearls and gold novelties into the United States. The officers believe the property was brought to Detroit from Paris by way of Canada. Schmidt was caught while he was endeavoring to pawn a diamond ring. The police allege they have learned that a pair of \$1,200 diamond earrings, which are a part of the smuggled property, have been pawned in Chicago.

No Cabinet Meeting in St. Louis.
St. Louis, April 30.—There is little likelihood of a cabinet meeting in St. Louis during the stay of President Roosevelt in the city. The only member of his cabinet who was seen by the president up to the time that he left the house of President Francis for the Sigel memorial meeting was Secretary Hitchcock, and he saw him in a social way only. The president does not know of any cabinet meeting to be held while he is in St. Louis.

Boy Confesses to Killing.
Grand Rapids, Mich., April 30.—Henry Hasse, aged 14, confessed that he shot and killed 7-year-old Charles Pohlman on the evening of April 10, and with the assistance of his younger brother, Otto, carried the dead boy in a bag to the lake shore railroad and placed it upon the track. The Hasse boys claim the shooting was accidental, occurring in the Hasse home, where the boys were playing with a small rifle.

Decrease of Divorces.
Berlin April 30.—The statistical bureau published figures showing a heavy decrease in the number of divorces in Prussia. There were 191 divorces per 100,000 marriages in 1895, which ratio was maintained until 1899, but the number declined in 1901 to 77 per 100,000. In Berlin the number of divorces decreased in 1901 from 457 to 273.

Committed for Extradition.
London, April 30.—Nordenkotter, the chemist who fled from Berlin during his trial there in February last on the charge of carrying on an extensive business as a quack doctor, and who was arrested here March 10, was committed for extradition.

A SIGN OF GREATNESS

President Speaks on "Good Roads" at the St. Louis Convention.

READY FOR OPENING OF FAIR.

Immense Throng Line Streets and Wildly Cheer Roosevelt on March to Hall—Ex-President Cleveland Arrives and Is Warmly Welcomed.

St. Louis, April 30.—President Roosevelt has arrived to participate in the dedication ceremonies of the Louisiana Purchase exposition.

It was expected generally that he would leave his train at Union station, and a dense throng had congregated there. But to avoid just such an assemblage arrangements were made to have him leave the train at Forsythe junction, three miles from the center of the city. His train arrived at Forsythe junction at 4:20 o'clock, where he was met and escorted to the Good Roads convention in Odeon hall for a brief address. Members of the national commission of the world's fair, a reception committee, headed by President Francis, and a crowd of spectators were present to welcome the president. For an hour before his train arrived troops of military and squadrons of police were stationed about the point of disembarkation to prevent a crush.

As the presidential train arrived President Roosevelt, accompanied by Governor Dockery, of Missouri, who had joined the train at Keokuk, Ia., stepped off the rear end.

President Francis, of the Louisiana Purchase exposition, seized the hand of the president and gave him an informal welcome to St. Louis. Mayor Wells, President Carter, of the national commission, and other members of that body, the reception committee of the world's fair and military officers shook hands with the president, and after this brief and informal reception he was escorted to the carriage in waiting. Mayor Wells, United States Senator Carter and Secretary Loeb accompanied the president in the carriage, which was at once driven off to the Good Roads convention.

Enthusiastic Woman Disappointed.
Just as the carriage started a mid-dle-aged woman rushed through the line of officers, wildly waving her handkerchief and vociferously cheering the president. She attempted to reach in and seize his hand, but the quickening pace of the horses prevented, and although she ran after the vehicle, still cheering and waving her handkerchief for the distance of half a block, she was finally distanced and lost in the crowd.

The military companies and a platoon of police had been waiting two blocks away, and as soon as the line of carriages appeared a slower march was taken up to cover the three miles to Odeon hall. People were congregated along the streets and wildly cheering as the president passed. He continually doffed his hat in acknowledgment. The hall was packed with a crowd which had been waiting patiently for hours. The president spoke of good roads in tones which showed as well as his words that he was thoroughly in sympathy with the object of the associations.

Speech of President.
"Roads," he declared, "tell the greatness of a nation. The influence of the nations which have not been road builders has been evanescent. Rome, the most powerful of the civilizations, left her impress on literature and speech; she changed the boundaries of nations, but plainness than anything else left to remind us of the Roman civilization are the Roman roads."

At this point in the president's speech the crowd rose and cheered, waving handkerchiefs and hats.

"Merely from historical analogy," the president continued, "this country, which, we believe, will reach a position of leadership never equalled, this country, I say, should so act that posterity will justly say when speaking of us, 'That nation built good roads.'"

The president declared that good roads probably were the greatest agency for regulating the flow from the country to the city of young men and young women.

"A long line of liquid morass is not pleasant," the president continued, "it means in many instances practical isolation to the farmer. When the girl or the boy can't take a turn on a 'bike,' even to a neighbor's, because of the roads, well, it is a situation not likely to make farm life attractive."

In conclusion the president spoke of the benefits to the country districts—of the trolley line, the telephone and the rural free delivery—and closed with the assertion that good roads would prove the greatest benefit of all.

From Odeon hall the President was driven at a sharp trot to St. Louis university. A few minutes were spent here, after which the president and other guests repaired to the home of President Francis for dinner.

Ex-President Cleveland arrived 25 minutes late, and a large reception committee was waiting for him.

ASK PROTECTION FROM MAFIA

Boston Italians Receive Threatening Letters and Appeal to Police Authorities.

Boston, April 30.—Several Boston Italians called at police headquarters to beg for protection against the Mafia, by which they claimed to have been ordered to contribute to the defense fund of the New York "barrel" murder case. Inspectors have been sent to the Italian quarter to make investigations.

Each of the foreigners showed a letter dated April 25, New York. The letters had been mailed Monday.

The letters told them that every where they went they were marked men, that the eye of Mafia was on them always, that they were as good as dead if they did not send the required money immediately. The letters were signed with a Latin name.

The Italians who received the letters are not members of the order, but they say they know of an Italian in their district who is. This alleged Mafia man may be arrested by the inspectors if he can be connected with the threatening letters.

Encampment of Veterans.

Clarksburg, W. Va., April 30.—Thousands of veterans are in attendance at the twenty-first annual state encampment of the Grand Army of the Republic, department of West Virginia. The Women's Relief Corps and Ladies of the G. A. R. and Sons of Veterans are also meeting in yearly session. Major A. C. Moore, junior commander, will probably be the next grand commander of the state. The encampment is to last three days.

Forest Fires Extinguished.

Detroit, April 30.—Heavy rains fell throughout the northern portion of lower Michigan and the forest fires that have threatened the smaller towns and done great damage through out the lumber woods, have been extinguished. No lives have been reported lost in the fires.

Doblin Declared Insane.

New York, April 30.—Philip Doblin, who achieved notoriety from his testimony in the investigation in Washington of the purchase of submarine boats, was declared insane by Justice Giegerich, of the supreme court.

Ended Life in Novel Manner.

West Chester, April 30.—Caroline W. Carson, aged 51 years, was found drowned in the cellar of her house. She committed suicide by standing upon a chair and submerging her head in a barrel of water. The woman was unmarried.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Victors Won—The Victor Athletic club won, 6 to 5, against the Buckeyes at Rock Springs park yesterday.

Attending Convention—A number of ladies of the Home Missionary Society of the First M. E. church are to-day attending a convention of the Home Missionary Society in Steubenville.

Fine Sidewalk—Property owners on the west side of Thompson avenue, from Ravine street to the reservoir, are having a fine sidewalk of flagstone laid, greatly to the improved appearance of that rapidly growing residence district.

Struck in the Eye—John P. Wood, of the Lisbon road, met with a painful accident yesterday and as a result has a very sore eye. While chopping wood a large stick flew off the block, striking him in the eye. It is thought the injury will not be a permanent one.

Ill for Months—A letter received from Ed Zollinger, a former well-

known street railway employee of this city, states that he has been ill with rheumatism in New York for several months. He was treated in a hospital, and while there an operation was performed, but he was not benefited. The family are making preparations to remove to Pasadena, Cal., soon.

RECEIVER ASKED FOR A CREAMERY

Stockholder Alleges Property of a North Georgetown Concern Is Depreciating.

Lisbon, April 30.—(Special.)—John A. Gallenbaugh has brought suit against the remaining stockholders of the North Georgetown Creamery company, asking that the firm may be dissolved and that a receiver be appointed to dispose of the property and distribute the proceeds. The plaintiff says he is entitled to a one-twentieth interest in the proceeds, as the owner of two of the 40 shares of the concern, valued at \$100 each. He says that the purpose of the partnership no longer exists and that the value of the shares has greatly depreciated. He further alleges that as the time which the partnership was to continue has expired, the property is deteriorating in value every day from neglect and misuse.

For these reasons, he thinks, a receiver should be appointed to wind up the affairs of the concern. W. S. Ammons, of Salem, is the plaintiff's attorney.

ENGINEER TOD ENTHUSIASTIC OVER ELECTRIC LINE.

Youngstown & Southern Will Enter Upon Its Career With Splendid Prospects.

Engineer Tod, of the Youngstown & Southern railway, after going over the route from Youngstown to this city, was very enthusiastic over the proposition. He says between Youngstown and Lisbon there will be a grade of only 1 per cent, and it is estimated that the entire route between Youngstown and East Liverpool, a distance of 42 miles, will have a grade of less than 2 per cent. Mr. Tod says the Youngstown & Southern will have a better grade than any other electric railroad in the country, and is pronounced in his statement that he never saw a better prospect.

He says there is now the greatest opportunity in the world for the farmers along the route who have an abundance of timber land to put their timber on the market by cutting it up into ties for the new line. He says the new road will prove to be a great market opener for the farmers, and its value in this regard cannot be overestimated. The fact is pointed out that all along the line there are portable mills, which prove the resourcefulness of the country from a timber standpoint.

The fact is also pointed out by Mr. Tod that there are no bridges, culverts or anything of that sort along the entire route until Lisbon is reached, and that the entire line will be free from grade crossings. It is also conceded that outside of the Gorge road at Niagara Falls the Youngstown & Southern road will unquestionably be the most picturesque in the country.

THE CAR TWO WEEKS ON WAY TO WELLSVILLE

Consignee Refused to Receive a Shipment of Oats And a Lawsuit Resulted.

Lisbon, April 30.—(Special.)—The case of Jared C. Williams against the E. H. Rogers company, of Wellsville, is being tried in court today. Williams sues for damages in the sum of \$308.20 for which he asks judgment with interest from August 14, 1902. He alleges that on August 1, 1902, he shipped a carload of oats from Chicago to the defendants in Wellsville in accordance with a contract.

The car arrived at Wellsville on August 14, whereupon the defendant refused to receive the consignment. After giving due notice, the plaintiffs sold the oats, getting therefrom \$611.66, the best price obtainable, which was applied on the defendants' account, leaving the sum sued for yet due.

Suit to Quiet Title.

Lisbon, April 30.—(Special.)—Alice C. Ryan, through her attorney, Judge J. G. Moore, of Lisbon, has brought suit against Zedock Stiver, John W. Stiver et al. to quiet her title on two lots in the village of Columbiana. The plaintiff says she was in actual possession of the property and that these tracts are situated in F. and J. Stivers' addition to Columbiana. The defendants claim ownership as heirs of Frederick Stivers, deceased, and the plaintiff asks that they may be compelled to prove their interests.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Victors Won—The Victor Athletic club won, 6 to 5, against the Buckeyes at Rock Springs park yesterday.

Attending Convention—A number of ladies of the Home Missionary Society of the First M. E. church are today attending a convention of the Home Missionary Society in Steubenville.

Fine Sidewalk—Property owners on the west side of Thompson avenue, from Ravine street to the reservoir, are having a fine sidewalk of flagstone laid, greatly to the improved appearance of that rapidly growing residence district.

Struck in the Eye—John P. Wood, of the Lisbon road, met with a painful accident yesterday and as a result has a very sore eye. While chopping wood a large stick flew off the block, striking him in the eye. It is thought the injury will not be a permanent one.

Ill for Months—A letter received from Ed Zollinger, a former well-

known street railway employee of this city, states that he has been ill with rheumatism in New York for several months. He was treated in a hospital, and while there an operation was performed, but he was not benefited. The family are making preparations to remove to Pasadena, Cal., soon.

RECEIVER ASKED FOR A CREAMERY

Stockholder Alleges Property of a North Georgetown Concern Is Depreciating.

Lisbon, April 30.—(Special).—John A. Gallenbaugh has brought suit against the remaining stockholders of the North Georgetown Creamery company, asking that the firm may be dissolved and that a receiver be appointed to dispose of the property and distribute the proceeds. The plaintiff says he is entitled to a one-twentieth interest in the proceeds, as the owner of two of the 40 shares of the concern, valued at \$100 each. He says that the purpose of the partnership no longer exists and that the value of the shares has greatly depreciated. He further alleges that as the time which the partnership was to continue has expired, the property is deteriorating in value every day from neglect and misuse.

For these reasons, he thinks, a receiver should be appointed to wind up the affairs of the concern. W. S. Ammons, of Salem, is the plaintiff's attorney.

Lisbon Epworth League.

Lisbon, April 30.—(Special).—At a business meeting of the local Epworth League in the M. He says the new road will prove to be a great market opener for the farmers, and its value in this regard cannot be overestimated. The fact is pointed out that all along the line there are portable mills, which prove the resourcefulness of the country from a timber standpoint.

The fact is also pointed out by Mr. Tod that there are no bridges, culverts or anything of that sort along the entire route until Lisbon is reached, and that the entire line will be free from grade crossings. It is also conceded that outside of the Gorge road at Niagara Falls the Youngstown & Southern road will unquestionably be the most picturesque in the country.

THE CAR TWO WEEKS ON WAY TO WELLSVILLE

Consignee Refused to Receive a Shipment of Oats And a Lawsuit Resulted.

Lisbon, April 30.—(Special).—The case of Jared C. Williams against the E. H. Rogers company, of Wellsville, is being tried in court today. Williams sues for damages in the sum of \$308.39 for which he asks judgment with interest from August 14, 1902. He alleges that on August 1, 1902, he shipped a carload of oats from Chicago to the defendants in Wellsville in accordance with a contract.

The car arrived at Wellsville on August 14, whereupon the defendant refused to receive the consignment. After giving due notice, the plaintiffs sold the oats, getting therefrom \$611.66, the best price obtainable, which was applied on the defendants' account, leaving the sum sued for yet due.

Suit to Quiet Title.

Lisbon, April 30.—(Special).—Alice C. Ryan, through her attorney, Judge J. G. Moore of Lisbon, has brought suit against Zedock Stiver, John W. Stiver et al. to quiet her title on two lots in the village of Columbiana. The plaintiff says she was in actual possession of the property and that these tracts are situated in F. and J. Stiver's addition to Columbiana. The defendants claim ownership as heirs of Frederick Stivers, deceased, and the plaintiff asks that they may be compelled to prove their interests.

BY THE LITTLE ONES.

A Number of Bright Sayings From the Lips of Youngsters.

Little Elsie—Harry, what is a verse the person?

Small Harry—Why, a person who makes verses, of course.

Teacher—How many kinds of force have we?

Bright Pupil—Three.

Teacher—Name them.

Bright Pupil—Bodily force, mental force and the police force.

Little Margie had been very naughty and her mother was mildly reproving her when the little miss exclaimed: "Mamma, for goodness' sake whip me and stop talking so much about it."

Elmer (aged five)—Mamma, my stomach says it's time for dinner.

Mamma—Well, dear, go and see what the clock says.

Elmer (a moment later)—The clock says my stomach is ten minutes fast.

"Have you made any good resolutions for the new year, Bobby?" asked the minister.

"Yes, sir; one," replied the little fellow. "I've resolved not to fight other boys."

"That's good," said the minister.

"And how did you happen to make it?"

"Cause," answered truthful Bobby, "I always get licked."—Chicago News.

Carefully Educated.

"So you want a job, do you?"

"Yes, sir," replied the boy.

"How long have you gone to school?"

"Ten years, sir."

"Can you read?"

"No, sir, but I can do drawn work and drop stitching."

"Can you write?"

"No, but I have a certificate for proficiency in china painting."

"Can you add a column of figures?"

"Not very well, sir, but I got the highest mark in my class for original research in last year's bird nests."

"What did you learn those ten years?"

"That's about all, sir. You see, I'm only fifteen."—Newark News.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Victors Won—The Victor Athletic club won, 6 to 5, against the Buckeyes at Rock Springs park yesterday.

Attending Convention—A number of ladies of the Home Missionary Society of the First M. E. church are today attending a convention of the Home Missionary Society in Steubenville.

Fine Sidewalk—Property owners on the west side of Thompson avenue, from Ravine street to the reservoir, are having a fine sidewalk of flagstone laid, greatly to the improved appearance of that rapidly growing residence district.

Struck in the Eye—John P. Wood, of the Lisbon road, met with a painful accident yesterday and as a result has a very sore eye. While chopping wood a large stick flew off the block, striking him in the eye. It is thought the injury will not be a permanent one.

Ill for Months—A letter received from Ed Zollinger, a former well-

known street railway employee of this city, states that he has been ill with rheumatism in New York for several months. He was treated in a hospital, and while there an operation was performed, but he was not benefited. The family are making preparations to remove to Pasadena, Cal., soon.

RECEIVER ASKED FOR A CREAMERY

Stockholder Alleges Property of a North Georgetown Concern Is Depreciating.

Lisbon, April 30.—(Special)—John A. Gallenbaugh has brought suit against the remaining stockholders of the North Georgetown Creamery company, asking that the firm may be dissolved and that a receiver be appointed to dispose of the property and distribute the proceeds. The plaintiff says he is entitled to a one-twentieth interest in the proceeds, as the owner of two of the 40 shares of the concern, valued at \$100 each. He says that the purpose of the partnership no longer exists and that the value of the shares has greatly depreciated. He further alleges that as the time which the partnership was to continue has expired, the property is deteriorating in value every day from neglect and misuse.

For these reasons, he thinks, a receiver should be appointed to wind up the affairs of the concern. W. S. Ammons, of Salem, is the plaintiff's attorney.

Lisbon Epworth League.

Lisbon, April 30.—(Special)—At a business meeting of the local Epworth League in the M. E. church last evening the annual election of officers was held, resulting as follows: Miss Berntha Johnston, president; Miss Millicent Bennett, first vice president; Mrs. C. H. Young, second vice president; Mrs. W. B. Chaine, third vice president; Miss Lucy Wainwright, secretary; C. M. Young, treasurer. Installation services will be held Sunday evening, May 10, conducted by Dr. L. L. Gilbert, of Cincinnati, who will give the concluding number of the anniversary lecture course, on that evening.

SOCIAL EVENTS

Woodburn Poe.

Miss Sarah E. Woodburn, one of the best known young ladies of Hancock county, was married last evening by Rev. Dr. J. C. Taggart, of East Liverpool, to George A. Poe, of this city. The ceremony was performed at the home of Robert L. Enier, brother-in-law of the bride, at Wellsville. The immediate relatives of both the contracting parties were present, and the ceremony was pretty and impressive. The groom's parents reside in East Liverpool and the couple will make their future home here.

Prof. Rayman's Class.

Prof. R. E. Rayman will entertain his Sunday school class of the First Presbyterian church this evening. The social will be held in the lecture room, and every arrangement is being made to make the evening pleasurable. A musical and literary program has been arranged, and the members of the class are looking forward to the entertainment with great anticipations.

Coulson-Smith.

At the residence of Samuel Davis, Riverview avenue, Mrs. Elizabeth Coulson and George T. Smith were married last evening by Squire H. P. McCarron. There were invited guests present and the affair was a happy one. The groom is a well-known decorator. The couple will soon go to housekeeping.

Alumni Association Meeting.

A meeting of the East Liverpool High School Alumni association will be held tomorrow evening in the high school rooms. The meeting will be a very important one, as it will be decided concerning the matter of the alumni banquet. It was to have been held last evening, but was postponed.

Licensed to Wed.

Lisbon, April 30.—(Special)—The following marriage licenses have been issued: George Smith and Elizabeth Coulson, of East Liverpool, and Calvin J. Heck and Alzetta Yerian, of East Palestine.

A marriage license has been granted to Lorin W. Beach and Miss Iva Walter, both of Lisbon. They will be married this evening.

Saloon Man Sells Out.

Lisbon, April 30.—(Special)—Pierce Parbick, a saloonist who has been in business several years on Walnut street, a few doors west of the court house, has sold out to his bartender, Louis Vaughn, who will take possession tomorrow. Mr. Parbick retires on account of ill health.

A BETTER GRADE THAN ANY OTHER

ENGINEER TOD ENTHUSIASTIC OVER ELECTRIC LINE.

Youngstown & Southern Will Enter Upon Its Career With Splendid Prospects.

Engineer Tod, of the Youngstown & Southern railway, after going over the route from Youngstown to this city, was very enthusiastic over the proposition. He says between Youngstown and Lisbon there will be a grade of only 1 per cent, and it is estimated that the entire route between Youngstown and East Liverpool, a distance of 42 miles, will have a grade of less than 2 per cent. Mr. Tod says the Youngstown & Southern will have a better grade than any other electric railroad in the country, and is pronounced in his statement that he never saw a better prospect.

He says there is now the greatest opportunity in the world for the farmers along the route who have an abundance of timber land to put their timber on the market by cutting it up into ties for the new line. He says the new road will prove to be a great market opener for the farmers, and its value in this regard cannot be overestimated. The fact is pointed out that all along the line there are portable mills, which prove the resourcefulness of the country from a timber standpoint.

The fact is also pointed out by Mr. Tod that there are no bridges, culverts or anything of that sort along the entire route until Lisbon is reached, and that the entire line will be free from grade crossings. It is also conceded that outside of the Gorge road at Niagara Falls the Youngstown & Southern road will unquestionably be the most picturesque in the country.

OLD COUNCIL EXPIRES SUNDAY AT MIDNIGHT

Cannot Legally Act Upon Important Matters
Unless It Meets Prior to
That Time.

THE LAW ON THE SUBJECT IS EXPLICIT

Unless the old council reconsiders its determination to meet next Monday night for the purpose of winding up the affairs of the old administration and decides to hold a session prior to 12 o'clock Sunday night, there are a number of important matters that will never legally see the light of day.

Section 1 of the municipal code says: "For the purpose of carrying into effect the powers and duties conferred and imposed upon present councils, boards of legislation, or other legislative bodies, by the provisions of this act, and for the purpose of conducting the first election to be held in every municipality hereunder, and of preparing for the change in the organization of municipalities being provided for, this act shall take effect from and after the 15th day of November, 1902; and for all other purposes this act, and every portion of the same, including the repeal of the existing laws, shall take effect on the first Monday in May, 1903."

The only interpretation that can reasonably be placed upon the section just quoted is that the code goes into effect and the term of every officer elected under its provisions begins, to be absolutely accurate, at 12 Sunday night. This being undisputed, the question has arisen as to the right of the old council to meet and transact business after that time.

There are several ordinances now pending which have had but one reading, owing to the absence of several members of council at the meeting Tuesday night. If the old body neglects to act before Monday morning it is held the measures will not be passed.

One of the most important of these

IMPORTANT DEAL AT THE SEVRES

W. T. Tebbutt Sells Out to H. A. Keffer and J. L. Higley and Retires.

FUTURE COURSE UNDECIDED

An important change has been made in the ownership and control of the Severs pottery, located at Market and Second streets, the interests of W. T. Tebbutt, secretary and treasurer of the company, and his associates having been purchased by H. A. Keffer, president of the company, and J. L. Higley, a Canton capitalist. The amounts of stock and the consideration involved in the deal have not been made public, but they will run well into the thousands. Mr. Tebbutt was a large stockholder and besides his own holdings represented a number of others.

The plant under the present management has been remarkably successful. The standard of its product has been raised until it compares favorably with any in the country, and many new lines have been added from time to time. The dinner and toilet lines and specialties made by the plant have gained a wide reputation all over the country. The plant has been one of the busiest in the district.

The present organization of the company will not be disturbed except that Mr. Higley will likely succeed Mr. Tebbutt as secretary and treasurer. Mr. Higley has had no previous experience in the pottery industry, but he is a prudent business man with years of experience. His position will not require a thoroughly practical training. He will come to this city probably this week to assume his new duties.

Mr. Tebbutt, when seen this morning by a News Review reporter, stated that he had made no plans as to the future. "I might take Al Hughes' job

ordinances is that which gives to the city solicitor all expense money while that official is absent from his office on the city's business. This will include the items of expense incurred by the solicitor in carrying cases to the county and other higher courts, no provision for which has been made either in the code or by ordinance. Included in the same measure is a section increasing the salary fixed by a special committee some time ago to compensate the auditor from \$1,000 to \$1,200. This ordinance has had but one reading, and it is held must be passed under suspension of the rules previous to the new administration taking charge on Monday morning.

When the ordinance was up Tuesday evening it did not occur to any of the six councilmen present to look up the law covering the subject, which says: "Section 126—The council shall fix the salaries of all officers, clerks and employees in the city government, except as otherwise provided in this act; and except as otherwise provided in this act all fees pertaining to any office shall be paid into the city treasury. The salary of any officer, clerk or employee so fixed, shall not be increased or diminished during the term for which he may have been elected or appointed."

There have been cases within the past year where the salary of officials were raised after they had entered upon their terms of office, but had not yet qualified. It is argued this will not apply in the present instance, since the law does not mention the word "qualify," but simply says "during their term of office."

An effort will doubtless be made to have President Nice call a meeting for Friday evening.

or be Mayor Weaver's chief of police," he said, jokingly. "I haven't played my trumps right, for I failed to get an offer of a bonus for building a new pottery."

Seriously, Mr. Tebbutt has made no arrangements for the future. He declares he has had enough of the pottery business and will seek some other line. Before engaging in anything he will take a much-needed rest and will leave here Sunday evening for New York and other eastern cities.

ALL THE DEMANDS WILL BE INSISTED UPON

Railroad Committee of Council Determined to Look After the City's Interests.

Considerable speculation has been indulged in since it became known that the Pennsylvania officials would meet the railroad committee as to just what attitude would be assumed by the railroad men when the conference is held tomorrow.

It will be remembered that when the officials met with the council some time ago Supt. Scriven found it convenient to omit several clauses from the demands made by the city. The oversight was not noticed at the time, but it now develops that the matters neglected by the superintendent are the very concessions which the city's committee is determined to have granted, and some trouble may be met in accomplishing it.

Of one thing the general public may rest assured, and that is the committee will insist upon every item included in the list being acceded to or there will be no settlement of the long-standing controversy.

THE JURY DECLARES JAS. HOWARD GUILTY

Another Conviction in the Goebel Murder Case—Life Sentence Fixed.

Frankfort, Ky., April 30.—(Special.)—The jury in the case of James Howard, charged with the murder of Goebel, today found him guilty and fixed his punishment at imprisonment for life.

THE CROOKS GAINED BUT SLIM HARVEST

A WELLSVILLE MAN ROBBED OF \$29 ON A STREET CAR.

No Other Losses of Moment On Circuit Day Reported to the Police.

Though the city seemed to be about as full of pickpockets and other crooks yesterday as is usual on circuit day, there were very few complaints registered at central police station and it is thought that the residents as a whole escaped with an extremely light loss. The police force was on the watch for nefarious work and kept the show grounds under careful surveillance throughout the day. Officers were called upon once to settle a dispute over change made at the ticket office, but were unable to furnish any proof and were compelled to let the matter drop. A man stated that he had given the ticket seller a \$2 bill and that he only received 50 cents in return. The seller denied that he had short changed the man and there was nothing more to it.

A swindling game was nipped in the bud by the officers. It was being worked on the inside of a tent and some fellow, after being victimized, objected. By the time the officers arrived on the scene the game had ceased operations and the men that had been running it agreed to discontinue for the day.

James Patterson, a pottery owner of Wellsville, reported to the officers that his pocket had been picked and as a result he was just \$29 out. He said that he boarded a car in Wellsville to come to the city and while enroute a wallet in his hip pocket was taken. He could not remember of any suspicious persons being near him, and the officers, having no clue to work upon, gave the matter no thought.

It was expected that crooks with Mexican money would work the people, but none of them were seen or heard of and there is little probability that any such work was done.

SIX WERE KILLED AND A SCORE HURT

DYNAMITE EXPLOSION WRECKED A POWDER FACTORY.

Every Window in Houses in a Neighboring Village Shattered.

Altoona, Pa., April 30.—(Special.)—An explosion of dynamite at the works of the Crescent Powder company, in the mountains near here today, killed six workmen and injured a score more.

The force of the explosion was so great that nearly every window in the neighboring village of Williamsburg was shattered. The buildings took fire and were destroyed.

THE NEW SCALE NOT YET SIGNED

Employees of the East Liverpool Railway in an Uncertain Frame of Mind. Decision Tonight.

Whether or not cars run on the East Liverpool Railway company's lines tomorrow rests entirely with L. W. Healy, general manager of the road. A new scale of wages has been presented to him by a committee representing Division No. 52, Amalgamated Association of Street Railway Employees, and at a late hour this afternoon he had not signed it. The only material change from the old agreement is a demand for an increase of one cent an hour for three year men. The new agreement was promptly signed by C. A. Smith for the Southside line.

Mr. Healy last year withheld his decision on the scale now in force until the last car entered the turn on the night of April 30, and he seems to have adopted the same policy again. The men will not know whether it is to be peace or war between them and the company until Mr. Healy signs, or refuses to sign, the scale. They state that all members of the division will decline to take out their runs tomorrow if the new scale is not signed.

An answer must also be given to night on the demand recently made for the reinstatement of Conductor Fisher, who was discharged several weeks ago for what the men claim was merely a minor offense. The feeling of the men toward the company is not the best owing to this incident and arrest of Conductor Will Calhoun on a charge of embezzlement. No. 52 will hold a meeting tonight, commencing at 12 o'clock, when they expect to have the decision of the manager on both the scale and the Fisher matter. The meeting will be largely attended as the men are greatly interested in the two questions. They state that there can be but one result, a strike, is the scale is not signed. A vote of the division will be taken in case Fisher is not reinstated and if it is decided to stand by him a strike may result, even if the scale is signed.

RAN THE STREETS LIKE A MANIAC

Man Suffering From Delirium Tremens Caused Excitement and Terror.

A MOST AFFECTING SCENE

Witnessed at the City Jail When the Wife of the Inebriate Came to See Him—Booked to Stay in a Cell Till He Recovers.

Suffering from delirium tremens as the result of a protracted drunk, John Goodwin, a kilnhand living at 184 Fairview street, left his home at a late hour last night, only partially dressed, and ran through the streets up to the Diamond, yelling and carrying on in a manner like a raving maniac. Pedestrians on the streets were badly frightened by the man's actions and many ran from him in wildest terror. His rantings attracted the attention of Officer Aufderheide, who immediately placed him under arrest and lodged him in a cell of the woman's department at the city jail.

Mrs. Goodwin, wife of the prisoner, was informed of his arrest and at 9 o'clock this morning, with her infant child clasped to her breast, applied at the jail and asked to see her husband. She was taken to the corridor and the scene that followed was one more pitiable than has been witnessed at the jail in many months. For a moment the poor woman gazed at her husband and then she broke into bitter tears. But for the kindly words of condolence offered by Officer Dunn, she no doubt would have sobbed until overtaken by nervous prostration.

As it was, she came near falling to the floor in a swoon. The husband, though in a delirious state when she entered, revived somewhat upon noticing her expression of feeling, and seemed a little penitent for having wrought such suffering.

Mavor Davidson stated that he would keep Goodwin in jail until he entirely recovers from his spell, but he would not impose a fine, because, as he looks upon it, the money would be taken from the wife and baby and they alone would be the sufferers. It is thought that the man will be over the attack in a few days.

"Zip" Farmer was the only other person that fell into the net of the police during the night. He was arrested by Officer McDermott, who preferred a charge of drunkenness against him. The mavor said: "Zip seems to like me so well that I have concluded to let him stay in jail until next Monday, when both of us will leave the city hall together."

Oil Territory—Twenty-four farms in the vicinity of Round Knob are reported to have been leased by Columbus parties, who will at once test them for oil.

CARPENTERS' STRIKE MAY BE SETTLED

MUCH DEPENDS UPON A MEETING TOMORROW NIGHT.

Bosses Are Reported to Have Made Concessions—Men Saying Little.

It is possible the carpenters' strike will be settled tonight or Friday morning. Everything depends upon the decision of the union when it meets tomorrow evening in regular weekly session.

A conference was held Monday evening between the strike committee and the contractors. Little is known concerning the action of these joint bodies, but enough was gathered to indicate that a settlement is in sight, and may be effected this week.

It is understood the bosses made some concessions at Monday night's meeting which places the situation in a much more favorable light from the workman's standpoint. It was arranged that the carpenter's committee should take whatever proposition the bosses made before their local at its meeting tomorrow night. It was there to be discussed and a decision reached as to its acceptance or rejection.

The employers seem to think they are making a liberal concession, and have stated it ought to be accepted. On the other hand, the leaders of the strike are not over-enthusiased with the proposition, and many doubts are expressed as to whether it will be finally accepted. The men are saying little, however, beyond the statement that the entire matter will be laid before the local for consideration. Friday evening will see a settlement if one is possible under the circumstances.

THE CASE RESTS WITH THE JURY

PROCEEDINGS HEARD FOR CONDEMNING HAZLETT'S LAND.

A Large Number of Witnesses Were Present from Wellsville Yesterday.

The witnesses in the case of the government against Miss E. P. Hazlett, of this city, in regard to appropriation of land for a dam site, have returned from Cleveland, where the case was being tried. The trial was held yesterday and last evening the case was left in the hands of the jury, who will bring in a verdict some time today.

The land in question lies a short distance above Wellsville and has a frontage of about 400 feet. It formerly belonged to J. G. Kountz and he stated this morning that in 1880 he was offered \$5,000 for the land, or \$12.50 per foot, by capitalists for a pottery site and on his refusal to sell the pottery was built in East Liverpool. Mr. Kountz also stated that his brother, Hiram Kountz, sold some land in that vicinity to the Pennsylvania Railroad company for \$10 per foot frontage. "Surely," remarked Mr. Kountz, "if in 1880 this land was worth \$12.50 per foot and the railroad company are paying \$10 per foot front now the government should not hesitate to pay a fair price for the land."

The jurors of the United States court of Cleveland were in Wellsville Tuesday looking over the land. There were 10 witnesses for the defense and five for the plaintiff, all of whom were from Wellsville.

Judge P. M. Smith is handling the case for Miss Hazlett and Attorney Sullivan for the government. This case is being watched with considerable interest by the citizens of Wellsville, and the verdict of the jury is anxiously looked for.

Title to Right of Way.

Liston, April 30.—(Special.)—The Canton & East Liverpool Railway company has commenced proceedings against Elizabeth Z. and James Marshall to appropriate for a right of way a strip of land in Liverpool township. The defendants are residents of Beaver, Pa. Louis W. Healy is made a party defendant, as claiming an interest in the property sought to be appropriated.

Widow Gets the Property.

Liston, April 30.—(Special.)—A commission issued to take the depositions of D. R. Shannon and D. C. Nevin, subscribing witnesses to the will of the late William Mitchell, of New Waterford, has been returned duly executed and the will admitted to probate. Mitchell willed all his property to his wife, Mary Ann Mitchell, who is named as executrix.

NEW MAYORS TAKE REINS IN CITIES OF THIS STATE ASSUMING OFFICE MONDAY

Policemen and Firemen Then On Duty Remain, Entering Classified Service—Code Points Cleared Up.

From a Staff Correspondent.

Columbus, April 30.—The Ohio solicitors who met here Tuesday and Wednesday have formed a permanent association to be known as the City Solicitors' Association of Ohio, the object being for the cultivation of acquaintanceship among the solicitors, mutual aid and assistance in arriving at a harmonious construction of the municipal laws of Ohio and to secure the enactment of prudent legislation. James M. Butler, of Columbus, is president; U. G. Dorman, Toledo, vice president; Philip G. Smythe, Newark, secretary; Thomas C. Beatty, Portsmouth, treasurer. The proceedings of the meeting will be printed and copies mailed to all solicitors. Membership is restricted to solicitors and ex-solicitors, the latter to be honorary members.

The convention agreed that mayors inaugurated next Monday will immediately be clothed with all the powers given them by the code. They will assume immediate direction of the police and fire departments through the medium of the chiefs of the two departments who will thereafter report to and receive orders from them. It was decided that every man found a member of the police and fire departments next Monday shall be entitled to remain in such service and have his name enrolled in the classified service under protection of the merit system without taking the examination. This does not include marshals or elective police or fire officers, who surrender their offices on Monday and are not placed on the classified list.

It was the consensus of opinion that the poor fund should be under jurisdiction of the board of public service; that the city sealer of weights and measures will be appointed by the mavor; that all contracts involving more than \$50 must be made in writing.

The city auditor will be clerk of the tax commission and sinking fund trustees, but council may provide for

THE CALHOUN CASE WILL BE DECIDED

'Squire Rose Will Render an Opinion in the Embezzlement Suit This Afternoon.

'Squire J. N. Rose announces that he will render his decision in the case of the state of Ohio against William Calhoun at 4 o'clock this afternoon. He has received the transcripts of the testimony of both the plaintiffs and the defendant and though he intended giving out the decision tomorrow, changed the time by request of the defendant's attorney.

Not in years has a case, wherein so trivial an amount was involved, invoked so much interest. There are hundreds of people in the city anxiously waiting the decision of the justice and he anticipates censure no difference what his decision may be. The 'squire is a conscientious man and has the reputation of good, sound judgment. There are few that will fail to understand his findings, especially after he makes his explanations.

The 'squire was trying to determine this morning whether or not a man sitting at the rear of a car could see through the bodies of four men and see the denomination of a piece of money collected by the conductor in the front of the car. The 'squire states that he thinks there is no man that is fallible and that any man, no difference how much experience he has had, is liable to make a mistake. It is the general opinion of the public that the defendant will be dismissed, none believing that the testimony offered at the trial was sufficient to make it probable that he was guilty of the alleged crime.

New Well Reported.

Toronto, April 30.—(Special.)—The well on the Warwick farm, in the old Turkeyfoot district, came in yesterday, good for 15 barrels per day. This is the only new development in the Turkeyfoot district for some months. The wells in the Turkeyfoot extension are all being cleaned out, and authoritative reports say that since many of these wells have been cleaned, they are doing from 12 to 15 barrels more daily.

ing and a copy filed with the city auditor; that the city council must make appropriations from balance now in the various funds to carry the new departments from May 4 to July 4, when the first semi-annual appropriations shall be made; that the city council shall have legislative control of the streets and the board of service executive control. As chairman of the committee on executive officers, Denver C. Hughes, of Canton, reported that city treasurers are not required to give additional bonds as treasurers of school funds.

The committee on finance reported as follows, the convention concurring:

General pay ordinances will not be passed by council, the pay roll ordinance for its officers and members being the only matter it is authorized to pass on.

Tax levy ordinances this year must conform to all provisions of the code applying after it goes into effect May 1.

Council must provide by levy for wiping out deficiencies created the previous year.

The treasurer pays out school board funds on order of clerk of board and not on order of city auditor.

Public service board has charge of all poor funds.

All officers must be paid their salaries out of their respective funds. That is, the board of safety will be paid from safety funds, etc.

Council makes appropriations and the board in charge applies to the auditor for warrants to pay salaries and bills. Council has nothing to do with it making semi-annual appropriations.

The city auditor will be clerk of the tax commission and sinking fund trustees, but council may provide for

A GREAT HUSTLE TO GET VOTES IN

Nearly 10,000 Ballots in the News Review Popularity Contest Thus Far This Week.

INTEREST IS WIDESPREAD

There has been a general hustle among the contestants in the News Review popularity contest to get all the Series B coupons in before the time when they become void, and the result has been the busiest week yet. Almost 10,000 votes have been cast since Monday and all the leaders have made substantial gains. Through the timely warnings in this column the votes from subscribers in other cities have been gathered, and the number lost by reason of being received too late will be much smaller than on the 15th of the present month, when the first series ceased to count.

The interest continues to increase and become more widespread, and the number of votes cast daily is growing

WITH THE WORKMEN IN THE CLAY PLANTS

DOWN THE VALLEY.

Toronto, April 30.—The Mack company's works, brick yards and sewer pipe, are running partially. The Silgo sewer pipe works, opposite Toronto, the largest in the coterie, has been closed down for some weeks for repairs, but will resume Monday of next week.

The American China company this week has been wrestling with a small strike in the decalcomania or printing department on account of placing in a new printing machine. The girls, seven or eight in number, quit, and now the company is endeavoring to fill their places with other labor.

The most important item within the jurisdiction of the American Sewer Pipe company's plants, some 36 in number, is the scarcity of cars among Ohio valley plants, some eight or 10 in number. Two of these plants, the Ohio Valley and Markle, still remain closed down, while other plants, Great Western, Calumet, Forest City and Empire, are still in operation. The scarcity of cars, as usual, has retarded the shipment of ware. Owing to the scarcity of engines on the C. & P. division the regular sewer pipe shifter has been making semi-weekly visits to Toronto, whereas last summer it was taking out between 50 and 60 cars daily. How long the shortage of cars will last is not known, but shipments of fire brick and sewer pipe have been curtailed about three-quarters from last year's shipments.

The American China company has gone back to the making of general ware, having finished its contract on specialties. The same is true of the Chelsea China company at New Cumberland.

The Myers Fire Clay company has begun the manufacture of sewer pipe, and is still building new kilns, to the number of 12. It is said that this company, which is an independent one, has the finest slope down to the clay of any works along the Ohio valley. Very few shipments of pipe have been made as yet, and the company expects to get into good working order within the next month or so.

The new slope to the clay mine at the Forest City works of the American Sewer Pipe company has been completed. The track has not yet been laid down into the mine, but work is progressing along these lines, and a few weeks will see the work completed. There are to be added many improvements for the handling of the clay after it comes from the mine and for its speedy distribution to the clay pans for mixture and manufacture into pipe.

INDIAN POTTERY.

"The potters' wheel is usually cited as the first primitive departure from the rude moulding of clay by the hand alone," says an exchange. "It appears from researches among some of the Arizona Indian tribes that the industry, among some nations at least, took another line of development, which, however, was checked before coming to anything.

"Among these tribes basket bowls, which are woven of flexible materials, are fired with clay into which a large portion of sand is kneaded. While in the plastic condition this clay is pressed with the fingers to fit the side of the basket, which is then put in the sun to dry. A number of cactus seeds, together with some glowing wood embers, are then placed inside the clay-lined basket. The worker, usually a woman, then moves the basket spirally up and down, making the embers, the seeds, dance a lively dance, keeping the coals glowing all the while by blowing upon them. One by one the seeds crack on the outside, and then with equal dexterity, the worker separates them from the coals. When this seed cooking has been repeated several times the clay, hardened by this constant burning, soon separates from its basket mould, and the Indian finds, ready made to her hands, a new vessel impervious to heat and capable of carrying water."

WOMEN WRITERS.

Fifty journalists are all right in fiction and fashion journals and cookery books, but they say some funny things when they enter other fields of literature. They are, however, never so funny as when they unite descriptive criticism with journalism, says a correspondent of the London Pottery Gazette. I have before me a North Country monthly, in which a lady journalist describes a visit she and a lady friend paid to a North Country china shop. She says:

"We saw the 'latest' in ceteris, which revealed itself in the shape of cut-glass flower-holders shaped like leaves, clustering about a curved stem of dull gold. My cousin was quite charmed with this, and we both fell in love with the new mother-of-pearl glass, its white-green ground gleam-

ing with beautiful opalescent lights. Sets of finger bowls and ice plates, as well as every variety of small article are made in this, and its price is very moderate. Unique, as well as novel, was the 'Royal Worcester Art Ware'; they never know beforehand what color the beautifully shaded vases will come out, and no two are alike. Some of the Hadley of Worcester vases, in-laid in clays of different colors, and then painted, were particularly nice; and the 'Ribbonette' flower vase, a tall, graceful specimen of green Stourbridge glass, was too good to be passed by."

If it is true that "they do not know beforehand what color the beautifully shaded vases will come out," our china painters are singularly fortunate at guessing at results.

HAVE NO SLATE.

With the time for the convention almost upon them very little is now heard as to the presidency from the delegates, and it seems to be a settled fact that Thomas J. Duffy will be the lucky man. There are many who claimed that he will not be opposed for the honor. The delegates from East Liverpool, it is stated, are a unit for Mr. Duffy. He is greatly favored among the eastern delegates and has about the same standing among the many isolated western locals as he has in this city. No slate will be fixed up by the delegates from this city prior to going to Wheeling, although a number have already stated preferences for national officers. It may be that either the pressers or the turners and handlers, or both, will present a candidate for secretary. Both of these locals are large in membership and very influential in the affairs of the organization. The latter local has been represented among the national officers by President Hughes. The pressers are not represented, except from the sanitary branch in the person of Vice President Hutchins, and they think they have a just claim to some honor. The jiggers will have the presidency if Mr. Duffy is elected, and the kilnmen have the national treasurer.

OFF FOR THE CIRCUS.

Most of the shops presented a deserted appearance yesterday, many of the operatives taking the day on account of the big circus. Very little work was done in any of the departments after 9 o'clock in the morning. The kilnmen had pulled ahead and in reality lost no time, while in other departments night duty was performed to get ahead.

TRADE BETTER.

Trade at the National has shown a marked improvement during the past week or 10 days and the plant is now in almost full operation. The market must be flat, indeed, when there is not a strong and steady demand for the National's well known lines and their slow season was only what many other good plants have to contend with.

REAPING THE HARVEST.

The local pottery machinery manufacturers are reaping a harvest from the large number of plants that are being built over the country if nobody else is benefited. Nearly every new plant is supplied with machinery from one of the two local concerns, both of which have lately had more orders

"Jim Dumps," cried wife, "Oh me, oh my! I thought I had a good supply. The boys must eat it on the sly! 'Tis 'Force' between meals now, not pie!"

than could be promptly filled. Scarcely a week passes without several cars of machinery being shipped to some isolated pottery town, where the citizens, anxious to secure a new industry, have given up large sums in the way of bonuses. East Liverpool leads in the manufacture of potting machinery just as she does in the manufacture of ware.

AMONG THE WORKERS.

John Sutcliffe has taken a position at the National as sticker-up.

James Duffy has taken the cover dish job at the National vacated by Walter Young when he quit to go to Laughlin No. 3.

Joseph Mountford, who recently took a situation with the Minerva plant, was visiting relatives here this week. He reports everything in good shape in the new pottery town.

MINERS MAY STRIKE

Unless Certain Concessions Are Made the District May Go Out.

Toronto, April 29.—(Special.)—It is reliably stated that unless the coal mines of this district, which includes portions of Columbiana county, Jefferson, Carroll and Mahoning counties, are not granted a raise in price of mining, a general strike will occur. The miners will not state the price that has been demanded of operators, sewer pipe and fire brick companies.

Nearly all of the coal miners along the Ohio valley are now affiliated with the miners' union, and if called upon, will go out at the order to strike.

Kane Was Released.

In the re-hearing before the probate court at Steubenville, Albert Kane, of Empire, who is held to be responsible for the injuries of Conductor Kerr, was held for investigation of his case before the grand jury, and his bond fixed by the court at \$200. 'Squire Ball signed the bond as surety and Kane was released.

EDUCATORS MUST BE CHARACTER MAKERS

By JAMES B. DILL, New York Lawyer,
Called "The Father of Trusts"

THE world is full of instances of men who have failed in business because they were "misplaced men." Few men, having come to a realization of the fact that they have started upon the wrong course, entered upon the wrong lines of work, have the courage to turn around and start over again, beginning at the bottom.

No class of men are more likely to make this mistake than university graduates. The first thing, therefore, that a university education in the hands of practical instructors should do is to stop "misplaced men" from continuing in the wrong course. It is to keep out of the law school the man who is intended for the ministry. It is to keep the man out of the theological seminary the bent of whose mind leans to the law.

The vital question to the young man in after years is his character, integrity and strength, mental and moral—not so much whether he has absorbed so much Greek, Latin or mathematics, but what impress has the instructor and instruction made upon the character, mental and moral, of the university man.

THE NEED OF THE AGE IS NOT MORE EDUCATION IN EXTENT, BUT MORE EDUCATORS IN THE TRUE SENSE OF THE WORD—MORE CHARACTER MAKERS RATHER THAN LECTURERS OF THEORY.

To Be Instituted for Lands Wanted
By the Wabash for Extension
About Toronto.

Toronto, April 30.—(Special.)—Condemnation proceedings will be begun in all probability in the next term of common pleas court in Jefferson county on the lands of the Stewart heirs, located in Fosterville, one mile above Toronto, for right of way for the Wabash railway through the lands.

The condemnation proceedings in the same court by the Wabash company on the lands of Patrick Nee and Curtis Cable, located above Aikanna, were continued yesterday until a later date in this term of court. Attorneys for plaintiffs and defendants viewed these lands yesterday.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; unless cases of deafness are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that is entirely cured by Hall's Catarrh Cure. Send for circulars, free.

KING EDWARD VISITS THE POPE

Ruler of England and Head of Church
Clasp Hands—Alone With Pontiff
Twenty Minutes.

Rome, April 30.—King Edward visited Pope Leo at the Vatican, going direct from the British embassy in a closed carriage. He was accompanied by Colonel Lamb, the British military attaché. The carriage bearing the king was followed by another containing members of his majesty's suite.

When the royal party reached the grand staircase leading to the papal apartment King Edward was greeted by the Marquis Sacchetti, who acted for Prince Ruspini, the introducer of sovereigns, who is ill. Mr. Merry Del Val and Prince Antel-Mattel.

At the Clementine hall the party was met by the papal master of the chamber, Monsignor Bisiotti, who was attended by personages of the secret antechamber. Upon arriving before the private apartment of the pope the noble guard rendered military honors to the British sovereign. At the conclusion of this ceremony the door of the pope's apartment was immediately opened and the aged pontiff was revealed standing at the threshold. His hand was extended, awaiting his guest. His holiness was dressed in robes of white and a red velvet cape bordered with ermine. Even King Edward paused a moment upon seeing the pontiff in his white garments. The pope's face was the color of ivory, but he moved without aid and with no apparent difficulty. From his entire person there seemed to emanate sentiments of benevolence and spirituality. The king and the head of the church clasped hands and exchanged a few words in French. King Edward passed within the papal apartment, the door was closed and the pope and his guest were left alone.

King Edward remained with the pontiff for 20 minutes. A bell was then rung and King Edward's suite was admitted and presented to the pope. This little ceremony seemed to please the pope immensely. At its conclusion King Edward took his leave, the pope crossing the room at his side and saying his last words at the door.

From the Vatican King Edward passed through the piazza of St. Peter, where he was warmly greeted in English by a number of Scotch pilgrims now in review, who shouted, "Hurrah for the king." Had King Edward looked up at that moment he would have seen a figure in a window of the second story of the palace; it was Pope Leo. Contrasted with the British sovereign who stood below in the sunlight and the center of the animation of the immense plaza the solitary white figure in the palace window seemed to further the idea of the pope as a prisoner.

EAST END

GROWING IN INTEREST

Special Meetings of the Second Christian Church Are Largely Attended.

Another large congregation greeted Rev. C. A. Kleeberger, state evangelist for the Christian church, when he preached last evening in Larkins' hall. Rev. Mr. Kleeberger delivered a scholarly and eloquent address and aroused considerable religious feeling among those present.

The meetings are growing in interest and the meeting place is much too small to accommodate all who would like to attend. There have been several conversions, and a number of accessions to the church. The meetings will continue every night this week and until further announcement is made.

YOUNG PEOPLE WED

Miss Edith Sinclair And William Wright Unite Fortunes for Life.

Miss Edith Sinclair and William Wright were married last night at 9 o'clock by Rev. G. W. Orcutt, of the Erie street M. E. church. The ceremony was performed at the parsonage in the presence of only the immediate friends of the contracting parties.

The bride is a popular and highly esteemed young lady and has been employed in the decorating department at the Laughlin No. 2 plant. The groom is an employee of this plant and is an industrious and enterprising young man. Their many friends are extending hearty congratulations.

Inspecting the Oil Field.

Ernest Smith left this morning for the Knoxville oil field, where he will make an inspection of the land under lease to the Rock Run Oil & Gas company, composed of East End people. The company has not yet received its charter, but it is expected at any time. The territory will be developed as soon as an organization can be effected, and the stockholders are confident of striking it rich.

Many Saw the Show.

The East End has already recovered from the effects of the circus and business is going on as though it had not been interrupted. Yesterday was a veritable holiday for both young and old, and nearly everybody went to see the big show. Business of all kinds was practically suspended during the afternoon and the streets presented a deserted appearance.

Goes to California.

Mrs. Jennie Bryan has disposed of all of her property in the East End, consisting of two dwellings and a large quantity of household furnishings and will leave in a few days for Los Angeles, Cal., where she will make her home.

A Pleasant Party.

Miss Margaret White, of Ohio avenue, was the hostess last evening to quite a number of her young friends. The moments were pleasantly whiled away with innocent games and music and tempting refreshments were served.

Will Entertain Tonight.

Miss Myrtle and Effie White will entertain quite a number of their young friends with a party tonight at the home of Mr. and Mrs. Archie Searight, of Pennsylvania avenue.

EAST END AFFAIRS.

Mr. and Mrs. Frank Chambers were visitors to Pittsburgh today.

Miss Ella Guy, of First avenue, is seriously ill with pneumonia.

Warren Harger, of First avenue, is recovering from a severe attack of the grip.

Robert Larkins, the popular young grocer, has purchased a fine new horse for his delivery wagon.

Floyd Reynolds, of Erie street, who has been seriously ill with catarrhal fever, is slightly improved today.

Don't fool with a cold; no one can tell what the end may be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from neglected colds. Nothing can be compared with Chamberlain's Cough Remedy as a quick cure for colds and influenza, and by its use these diseases may be avoided. For sale by Alvin H. Bulger.

STRONG EVIDENCE OF FAITH

Will Reed Guarantees That Hymel Will Cure the Worst Cases of Catarrh in East Liverpool.

When one of the most reputable concerns in East Liverpool guarantees that a medicine will effect a cure or he will return the money, it speaks volumes as to the merits of the remedy. It is in this way that Will Reed is selling Hymel, the treatment that has made the many remarkable cures of both acute and chronic cases of catarrh in East Liverpool and vicinity.

Hymel is not a pill nor is it a liquid that has to be taken with a tablespoon or wine glass. Just breathe it in by the aid of an inhaler that comes in every outfit and benefit will be seen from the first treatment. It destroys all germ life in the passages and lungs and enriches and purifies the blood with additional ozone. It cures catarrh of the head and throat, or of the stomach, liver and kidneys. Wherever mucous membrane contains catarrhal germs, there Hymel will do its work of healing. When using this treatment the air you breathe will be found like that on the mountain high above the sea level where grow balsamic trees and plants which made the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

Remember that if Hymel does not cure you, Will Reed will refund your money. This is a good time to cure catarrh by this natural method and prevent catarrhal colds that are so common at this season.

A Prisoner in Her House.

Mrs. W. H. Layha, of 1001 Agnes avenue, Kansas City, Mo., has for several years been troubled with severe hoarseness and at times a hard cough, which she says, "Would keep me in doors for days. I was prescribed for by physicians with no noticeable results. A friend gave me a part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could breathe a decided change for the better, and at this time after using it for two weeks have no hesitation in saying I really feel that I am entirely cured. From this time on Chamberlain's Cough Remedy will be in my house constantly."

MI-O-NA A GUARANTEED CURE

Folly of Treating Dyspepsia With Pepsin Tablets.

MI-O-NA is entirely different from other treatments for dyspepsia. The fact that it is sold by Will Reed, the popular druggist, under his personal guarantee to refund the money if it does not cure dyspepsia and restore normal weight, shows that it possesses unusual merit.

MI-O-NA is not an ordinary laxative pill; it is not a digestive tablet composed of pepsin or pancreatin; it is not a mere stimulant or tonic. MI-O-NA is a compressed food tablet that furnishes the constituents necessary to build up the system; it aids the food to assimilate, and strengthens and regulates the digestive organs, enabling the body to gain in natural, healthy plumpness.

Austin Flint, M. D., professor of physiology in the Bellevue Hospital Medical college, New York city, one of the most eminent medical men in the country, says: "I have yet to see a single case in which any of the pepsins, pancreatins or the physiologically absurd combinations of pepsin and pancreatin seem to have produced any benefit, even of a temporary character."

This statement made from a man of Dr. Flint's standing should convince any one of the folly of trying to cure diseases of the digestive organs by the ordinary dyspepsia tablets and powders. MI-O-NA gives quick relief and makes permanent cures. The best evidence that can be offered as to its superiority and its power to cure is the fact that Will Reed will return your money if MI-O-NA does not help you.

CIRCUS DREW TWO BIG CROWDS

PERFORMANCE ORIGINAL AND STRIKING IN MANY RESPECTS.

Novel Features as Well as Time-Honored Ones Pleased Large Audiences.

The Walter L. Main show has come and gone. Two big audiences greeted its appearance at the West End park yesterday afternoon and evening, and the majority of those who attended were well satisfied with the character of the performances.

The show is a clean one and contains much that is first-class. All the animals, the horses particularly, appeared in excellent condition, intelligent and well trained. The menagerie feature, though not extensive, embraces excellent specimens of beasts both wild and tame, and the ring performances were of an attractive sort. With many of the familiar circus features retained, there was upon the program much that was strikingly new. The equine pyramid and the performances leading up to it, the pony riding poised upon the back of two horses, the slack wire acts, the bicycle riding, the acrobats, the clowns, the riders, the aerial feats and the numerous comic features were of more than average excellence. The feature on which the management especially prides itself, "Savage South Africa," contains many realistic and thrilling scenes and depicts in excellent style some of the struggles that have taken place in recent years in the Boer country and Matabeleland. The artillery drill and the elephants in warfare were especially good. It takes an immense force of men and animals to represent these scenes and they certainly furnish a novel and interesting show feature.

Excellent order was maintained and the entertainment as a whole was free from objectionable features.

Caution. This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boscho's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25c size has just been introduced this year. Regular size, 75c. At all druggists.

KILLED WHILE TESTING ENGINE.

Boiler Explosion Results in Death of One and Injury of Eight Others.

Newark, O., April 30.—Reinhard Scheidler, one of Newark's foremost manufacturers and citizens, vice president of the Newark Savings bank and former owner of the Newark and Granville Electric railway, was killed and eight others were injured by a boiler explosion at the Scheidler machine shops.

The injured are: Bert Vial, badly scalded; James Cain, head injured; James Matchim, machinist, bruised; August Hess, left arm crushed; William Jennings, badly bruised; Emmet Siegel, head injured; Mr. Egan and his son, both of Barnesville, O., cut and bruised. All the injured are expected to recover.

Mr. Scheidler and four employees were testing an engine when the boiler exploded. Mr. Scheidler's skull was crushed, causing almost instant death. No one is able to account for the explosion, as the boiler appeared to be in good condition and was to have been shipped today.

FATAL WRECK ON THE VANDALIA

Three Persons Killed, Two Fatally and a Dozen Seriously Injured.

Terre Haute, Ind., April 30.—Three persons were killed, two fatally and a dozen seriously injured in a wreck in the railroad yards. A westbound Vandalia passenger train struck a switch engine and two cars near the Highland steel mill.

The killed: Clarence Reinhardt, Columbus, O.; Nicholas A. Lutz, baggage-master; unidentified man.

Attached to the train was a special carrying a party of 27 people from a Philadelphia to the national Y. M. C. A. convention at Toledo, Kan. Another car carried the New Jersey delegation to the Louisiana Purchase exposition dedication. None of the members of either party was injured. The killed and injured were in the day coach.

HOME NEWS

Of Interest to Every One in East Liverpool.

In every newspaper in the country you will read statements made by people living in out-of-the-way places, who are supposed to have been cured or derived great benefit from some wonderful remedy or "cure-all." But here in East Liverpool we only publish statements made by East Liverpool people. The testimony of your friends, neighbors and fellow-townsmen.

Mrs. Mount, of 165 Fourth street, says: "If weakness across the loins and sharp pains in the back are any indication of kidney complaint, then I had it. I knew what caused the trouble. But how to check it was a mystery until my husband procured Doan's Kidney Pills at the W. & W. Pharmacy for himself. The result in his case was so satisfactory that I used two or three boxes. They cured me. At least up to the present date there has been no symptoms of a recurrence."

O. P. Austin, chief of the bureau of statistics, who is certainly in a position to know whereof he affirms, says: "I have been studying the statistics of our commerce for 20 years, and I have never known the time in which we indicated greater prosperity, greater activity in agriculture and manufacturing or in any of the producing industries of the country, than at present. There is nothing in sight at the present time, at home or abroad, which in my judgment would warrant the most pessimistic in anticipating adverse conditions in our domestic or foreign trade." Mr. Austin undoubtedly states facts and facts only, under these conditions, those who are so prone to urge a renewal of tariff agitation and tariff revision would serve themselves and their country best by going exceedingly slow.

Kittanning, Pa., is not a large town and not especially noted for enterprise, but the town now has an executive who proposes to lose no chances to add to municipal revenues. Burgess Clarke says that every person found guilty of using profane language in Kittanning will be fined \$5 for each offense. If he lives up to this platform for a few years Kittanning will be rich enough to pave her streets with gold. East Liverpool might derive a large revenue from a strict enforcement of the law in the same respect, and many persons whose ears are constantly greeted by vile language every street corner and in every public place would applaud vigorously.

There is not enough difference between the terms desired by the East Liverpool contractors and those demanded by the carpenters so that they

ought to hold apart an hour longer. It is for the good of the city and for its growth that the dispute be settled, and it is sincerely to be hoped that arrangements can be effected whereby the little cloud on the labor horizon will disappear soon, to be seen no more.

This city is escaping the blizzard and snow storms, which are reported in the vicinity of Duluth, but is getting storms of quite as disagreeable a character in the shape of blinding clouds and moving whirlwinds of dust. It is certainly time that the street sprinkler be withdrawn from winter quarters and put in active operation.

Certain western Republicans have resolved that the presidential ticket for 1904 shall be Roosevelt and Hanna. They have probably done this without consulting Uncle Mark. If he will not consent to stick, however, there is no need of going out of Ohio to find plenty of good Republicans who will.

It is said that Ohio Republicans at the coming state convention will declare in unmistakable terms for Roosevelt. His administration will be endorsed and his nomination next year demanded. They will voice Republican popular sentiment, if they do.

The fair buildings at St. Louis are to be dedicated today. The great exposition bids fair to be even better entitled to the name, World's fair, by which it will be popularly known, than the great show held at Chicago in 1893.

Salem is to have a big Fourth of July celebration and so is Wellsville. Is the chief city of the county going to allow them to monopolize public attention on the great national holiday?

Newport wants to shut out the circus. The Four Hundred feel that they should be allowed to put on their celebrated dog and monkey show without running up against a counter-attraction.

Some of our Kansas contemporaries, finding it impossible to get along without worrying about something, are expressing an anxious fear that this year's wheat crop is going to be too big to harvest.

If the rest of the world outside of Russia gets an open door to Manchuria it will be because Secretary Hay drove the entering wedge.

The question now arises, What would have become of the Earl of Yar-mouth had he not secured a rich wife just when he did?

There were no mortgages foreclosed in Kansas last year, and Populist oratory is no longer heard from that quarter.

OBITUARY

Joseph Brown.
 Joseph Brown, aged 75 years, died yesterday afternoon at his home near Madison church. He had been ill several weeks of gastric fever, which resulted in his death. The funeral services will be held tomorrow afternoon at 1 o'clock and the interment will be made in the Madison church cemetery. Mr. Brown was one of the best known residents of this section. He spent most of the years of his life on the farm where he died, inheriting it from his father, who was one of the old residents of this section. He was a man of exemplary habits, sterling honesty and a consistent member of the Madison Presbyterian church. He is survived by a wife and one daughter, Mrs. J. L. Moore.

 To Regulate Price or Output of Coal, Says President Baer.

INVESTIGATION IS CONTINUED

Complaint of William R. Hearst Against Anthracite Coal Carrying Railroads Before Interstate Commerce Commission.

New York, April 30.—The interstate commerce commission resumed its investigation into the complaint of William R. Hearst against the anthracite coal carrying railroads. John Edmonds, sales agent in New York for the Reading Coal and Iron company, testified that the company sold about 1,000,000 tons of coal a year, payment for which was always made to the finance company. He could not tell the average cost of selling the coal in this city.

President Baer, of the Philadelphia and Reading railway, was again called to the witness stand. He could not tell how much of the coal mined along the railroad he controlled was not purchased by him.

Ex-Governor Budd, of California was introduced as associate with Mr. Hearst's counsel.

Mr. Baer estimated that 8,500,000 tons of coal is carried annually by the Reading system. J. P. Morgan, he said, was not one of the men interested in the Simpson and Watkins project to establish a big sales depot for anthracite coal. He declined to disclose the names of those who were interested.

Mr. Baer said he promoted the plan to purchase the Temple Iron company and that six railroads were interested. He suggested the percentage of the different companies and their directors accepted it. The plan, he said, was not so broad as to make the Temple Iron company the sales agent of the six companies in New York, but was intended to get rid of the commission men.

Plan to Get Rid of Commission.
 His idea, Mr. Baer said, was not to maintain a uniform price for coal at tidewater, but to get rid of the commission of 10 cents a ton for selling coal. He had reduced the expense of selling.

"But you have not succeeded in reducing the price of coal to the consumer?" asked counsel.
 "No," replied Mr. Baer, "because you and your friends have succeeded in raising wages and getting up the cost of necessities so that profits are less."

Asked if the Temple Iron company raised a fund of \$15,000,000 to buy more collieries, he said it was not for the purpose of buying more collieries. He was opposed to loading up with more collieries.

He refused to answer a question whether the Temple Iron company has paid the Philadelphia and Reading company 12½ cents a ton for all coal shipped by it since April 10, 1899.

The capital stock of the Temple Iron company, Mr. Baer said, was deposited with the Guarantee Trust company, of New York, under a voting agreement, and they issued certificates which were held by 300 or 400 different persons. The directors of the Temple company control the different collieries in the Temple system. At their meetings, he said, there was never any discussion about the price and output of coal.

No Pool or Combination.
 "I do say most emphatically," he went on, "there has been no pool and no combination to regulate the price or output of coal between the railroad presidents since I have been president of the Reading system."

Mr. Shearn read to the witness a part of the testimony given by the investigating committee after the strike of 1900, when he explained that the 65-35 per cent agreement between the railroads and the local companies was the result of Senator Hanna—that a continuance of the strike meant danger to the McKinley-Roosevelt presidential ticket. President Baer said it was true.

The price of coal sold by the Philadelphia and Reading company, he said, was fixed after a general consultation with the general coal agents and sales agents. The other companies pursued a like course. He added:

"I thought we were the strongest people and I fixed the price and compelled the other dealers to do the same. They accused me of being arbitrary, but I felt that it was necessary. After the strike several of the companies complained they could get a better price than I had fixed for the Reading company's coal. They asked me to raise the price, but I refused, and they had to come down to our price."

Hawaiian Legislature Eended.
 Honolulu, April 30.—The regular session of the Hawaiian legislature has ended. Eighty-eight acts passed by the legislature received Governor Dole's signature. The bill providing a city government for Honolulu was vetoed. The bill dividing the islands into counties was approved. Under the provisions of this act the islands are to be divided into five counties. There will be a special session of the legislature to pass the appropriation bill.

FRIENDS AND VISITORS

Capt. Harry Palmer, formerly of this city, writes to a friend that he is prospering in the real estate business at Long Beach, Cal.

Talli Blount, of East Liverpool, called on Alliance friends Tuesday evening. His sister in Deerfield, who is quite ill, is somewhat improved.

Miss Bird Smith, who lives north of the city and teaches the Alderlick school, had both her arms broken by being thrown from a buggy in a runaway accident.

Charles W. Meakin, who was here in advance of the "Tyranny of Tears" production in which Paul Gilmore is starring, was in a railroad wreck at Salamanca, N. Y., on Monday and was the only person in the Pullman car not killed or injured.

Mrs. B. C. Ansley, who has been ill for some time, is able to be out. Mr. and Mrs. Ansley are making preparations to go to California in August. Mrs. Ansley's parents reside there and the visit will be a lengthy one.

WELLSVILLE

TWO ARE ARRESTED
FOR DYNAMITING FISH

Wellsville Man And Boy Accused of Having Broken the Law on Yellow Creek.

A report came to Wellsville lately that Yellow creek was covered with dead fish, caused by dynamiting. At the time of the report the guilty parties were suspected, but no arrests were made until sufficient evidence could be collected.

Constable Maple, of Steubenville, came to this city yesterday and in company with Constable Henry Thorne went to the West End and arrested John Ramsey and Cloyt Thomas for having committed the deed.

Thomas is about 19 years old, lives with his parents in Buckeye row and is employed at the Vulcan brick yards, at which place he was found. Ramsey is about 45 years old and does nothing. He was found in "Pat's" lower place. The two were handcuffed and taken to Steubenville. They are said to have as good as confessed and will be tried within a few days.

Thomas will no doubt be dealt with rather leniently on account of his age, but the charge is a serious one and both will receive their just dues.

Nearly Depopulated the City.

The appearance of the circus in East Liverpool yesterday made the streets of Wellsville look as if a cyclone had struck the town and everybody was anxious to get away. From early until late in the day standing room on the street cars was at a premium. Working men took a day off and business men closed their doors and went to see the elephant. During the evening, however, the streets were thronged with multitudes of people and business boomed for several hours as on a Saturday night.

Last Dance Tonight.

Prof. Bailey, of Alliance, will give a reception this evening in the city hall as a windup of the weekly dances held for the past four months. The dances have been much enjoyed. That of this evening will be something out of the ordinary. Nowling's orchestra will furnish the music, and a swell time is expected. Dancing will commence at 8 o'clock. A large crowd are expected from East Liverpool and a car will be held for them.

Shirley-De Vore.

S. Brade De Vore, of Allegheny, and Miss Elvira Shirley, of Bridgeport, N. J., were married on April 25 at the home of the bride's parents in Bridgeport, N. J. Mr. De Vore was formerly a resident of Wellsville and is quite well known. The couple are at home to their friends in Allegheny, where Mr. De Vore is employed.

Efficer Snider Resigns.

Officer Harry Snider resigned from the police force yesterday afternoon. He has been an efficient officer. The only reason that can be surmised by friends of his is that he has a more lucrative position in view.

One of Herrmann's Tricks.

Not many months before his death Alexander Herrmann, the magician, was a guest at the famous but now defunct Whitechapel club, the rendezvous of Chicago Bohemians. On the night in question a venerable Japanese priest was present. In the course of a few tricks Herrmann picked up a deck of cards and asked some one to select a card. The seven of clubs was the card drawn from the pack, and it was shown to the spectators, but not to the magician. The card was replaced in the deck, which was shuffled and then handed to one of the spectators.

"Look through the deck, please," said Herrmann.

The holder of the cards did as requested.

"Is the card that was drawn in the pack?" asked the wizard.

"No, sir," answered the spectator.

"What was the card?"

"The seven of clubs."

"Well, gentlemen," said Herrmann, "if one of you will kindly unlace the prelate's shoe you will find the card that has vanished from the pack."

After a smiling protest the Japanese priest unlaced his shoe, and there, to the amazement of all, was found the seven spot of clubs.—Rochester Post-Express.

Spider Fancies.

An elderly lady who lives in her own house at Buttes Chaumont, Paris, has discovered that spiders are peculiarly appreciative of music. She has made great pets of them, and her house is full of spiders of all kinds, on whom she spends her time and fortune.

Her proteges are lodged in a large airy room, where she has provided every necessary support for their different webs. Her great favorites are the common black spiders, which, with their hairy legs and great bodies, look very repulsive to others.

When she is inclined to show off their capabilities for music, she surrounds herself with a circle of water to keep off their too delicate attentions and plays slowly, softly and in a minor key on the harp. From all corners of the room the spiders run toward her, listening with evident pleasure, but should she strike up a noisy, gay, inharmonious strain they scamper back to their holes as though disgusted.

A curious fact in connection with this story is that the lady bears the birthmark of a spider.

Mistletoe.

The mistletoe comes chiefly from Brittany. Some 700 tons of the charming white berries plant are exported from French ports yearly. This mistletoe is to the Briton what the pig is to the Irishman—it pays the rent. The peasants of Normandy and Brittany cultivate the parasite on their apple trees—contrary to popular belief, it rarely grows on oaks—and it forms their most profitable crop. A few years ago the French department of agriculture decreed the destruction of all mistletoe, on the ground that it injured the apple trees. The peasants, however, denied the impeachment, and as the order is not enforced, they grow and export more "guil" than ever for the Christmas embellishment of English and American homes.

PARK ATTRACTIONS

Will Be Many During the Season—Big Heptasoph's Picnic Booked.

Of the attractions booked at Rock Springs park this week the dance arranged for this evening promises to be the most enjoyable. The crowd will be select, only a limited number of invitations having been issued. Elaborate preparations have been made for the affair and the occasion will be an enjoyable one. Rocereto's famous orchestra will furnish the music.

Manager J. Howard Maxwell has just returned from Pittsburg, where he has closed with the committee of arrangements for the big Heptasoph's picnic, to be held at the park Wednesday, August 26.

There will not be a bigger demonstration at the park during the present season, and special arrangements will have to be made to accommodate the large number of people. Some difficulty was encountered in arranging for the special trains over the Pennsylvania railroad. On account of the improvements being made to the roadbed on the C. & P. division, it will be necessary to bring the excursion by way of the Panhandle.

MANY TRANSACTIONS

In Chester Real Estate Have Been Recorded During the Past Few Days.

Operations in realty circles in Chester remain active, and not a day passes that several important transactions are not closed.

John Harvey has purchased two lots on Phoenix avenue, and has arranged for the erection of a fine new residence on one of them. As soon as the first is completed another will be commenced immediately adjoining.

E. H. Jessop, of East Liverpool, closed a deal for the purchase of a valuable lot on Phoenix avenue. It has not yet been decided whether or not he will build. It may be that he will keep the purchase for speculation.

A number of other properties are being negotiated for at this time, and it is confidently expected that several of them will be closed up by the end of the present week.

CONTRACTORS SIGN

Three of the Four in Chester Have Agreed to the Carpenters' Scale.

The carpenters' controversy was settled last evening when three of the four contractors of Chester signed the scale. The one question which was undecided to the very last minutes was the time for beginning work. The contractors had taken the same position maintained by the East Liverpool bosses, and insisted that the men start to work at 8 o'clock. Considerable discussion was indulged in by the men and several meetings were held before it was definitely decided to accept the hours.

It was not until last night that the contractors signed up, and only then after it had been agreed that the time for beginning work should be 8 o'clock. One contractor refused to sign and says he will not do so under any circumstances. Steps will be taken by the union at once to compel him to come into the fold.

A Very Poor Game.

The small crowd who witnessed the base ball game between the Chester team and the Crockery City, of East Liverpool, were treated to about the worst exhibition of the national game ever played on the Chester grounds. In the matter of errors and bad playing the honors were equally divided. Both teams went to pieces early in

Paving Work Delayed.

Work on the paving of the street railway track has been delayed for several days on account of the non-arrival of several carloads of brick, which were ordered some time ago. The contractor expects to complete his contract within 20 days, provided the brick can be secured.

CHESTER NOTES.

James Johnston is ill at his home on Carolina avenue.

A son was born to Mr. and Mrs. Charles Caldwell last night. They reside on Phoenix avenue.

William Hood, of Martin's Ferry, is a guest at the home of his brother, Norval Hood, Louisiana avenue.

Hon. William Brown and wife, of Brownsdale, were calling on Chester and East Liverpool friends today.

Circus day interfered with the operation of both Chester potteries, and scarcely half the regular force is working today.

Mrs. O. O. Allison, who has been in the country during the absence of her husband in the north, was in Chester yesterday.

The Ladies' Aid Society of the Chester Christian church is meeting this afternoon at the home of Miss Nellie Sinclair.

Mrs. Margaret Allison, near the Washington school house, was a guest of her brother, Robert Hobbs, in Chester, yesterday.

Postmaster Johnston has completed the preparations for the removal of the Chester postoffice to its new quarters on Second street.

Mr. and Mrs. Samuel Allison, who have been guests at the home of their son, Sheriff C. T. Allison at New Cumberland, have returned to Chester. Mr. and Mrs. John P. Miller, who have both been very ill at their home near Fairview, are not improving and little hope is entertained for their recovery.

J. D. Stewart returned from the Battle Creek sanitarium last evening. Mr. Stewart does not believe the treatment there is adapted to his ailment, and he will go to Mt. Clemens next week.

Instinct Stronger Than Will.

A curious story is told of Darwin and snakes. He used to go into the London Zoological society's gardens, Regent's park, and standing by the glass case containing the cobra de capello put his forehead against the glass while the cobra struck out at him. The glass was between them. Darwin's mind was perfectly convinced as to the inability of the snake to harm him, yet he would always dodge. Time after time he tried it, his will and reason keeping him there, his instinct making him dodge. The instinct was stronger than both will and reason.

Bismarck and Grant.

Sidney Whitman in his "Personal Reminiscences of Prince Bismarck" says:

"Bismarck's intimate friendship with Motley, the historian, is well known. He was also particularly attached to George Bancroft, so that when it became a question of Bancroft being recalled from his post of United States minister at Berlin Bismarck wrote specially to his friend Motley and begged him to intercede with the president to allow Bancroft to remain, and he did remain."

"Bismarck told me that when General Grant came to Berlin he accompanied him to see one of the reviews at the Tempelhofer field. Grant was not well that day, and they had to drive out in a closed carriage. Grant looked downcast and told Bismarck that it worried him to think that he was to meet the Prussian soldiers sitting curled up in a carriage like any ordinary civilian. 'Never you mind that,' General Grant," Bismarck said. "You may sit here hidden from view, but our soldiers are well aware what sort of fighting man is in this closed carriage."

"Why do you remain apart from others?" asked a young lion of his sire. "Would not a herd of lions present an imposing array?"

"By no means," answered the elder. "It would greatly diminish the respect now felt for us. Sheep may herd together, but the lion must flock by himself."—New York Herald.

REALM OF SPORTS

THE PARK SUFFERED

By the Tenting of the Big Show. But Will Be Repaired—Secretary Travels Booking More Dates.

As the result of the big show in the West End park the outfield and the diamond are very badly torn up. It was thought that the circus men would spare the diamond, this having been done in previous years, but they paid no heed to the aftermath and planted the stakes deep into the ground, leaving big holes in many spots. The management, however, has made arrangements to have the bad places repaired and by Saturday afternoon when the locals will cross bats with the fast team of Leedsdale, Pa., there will not be a flaw in the surface.

Without doubt the West End ball grounds are among the best in the country. They are in better condition than ever before and will be kept so if the management carries out intended plans. The outfield is free from high grass and stubble, and the fielders for the first season in the history of the park can do their work without hindrance. The diamond has been rolled and scraped until it is as level as a plane, and the fastest kind of ball is possible on it.

Secretary Travis continues to secure dates with out-of-town teams, and has now some of the best organizations on the road booked. He received word yesterday from Homestead that the team which gave the local team some very hard battles last year will be here during the first week of July. This team will draw an immense crowd, much rivalry existing, and it being a fond hope with the local fans to see the Pennsylvania boys go down to defeat.

JIMMIE DUNN HERE

New Castle Boxer Visiting Friends. Lutz Will Fight Winner of Youngs-Lemmons Bout.

Jimmie Dunn, the well known boxer of New Castle, arrived in the city last evening to be the guest of his friend Larry Lutz for a few days. Jimmie is one of the most successful young fighters of his class in the country. The last fight he had was with Billy Davidson at Pittsburg, when he knocked him out in eight rounds.

Lutz states that he has arranged to fight the winner of the Youngs-Lemmons bout, which will take place in Beaver Falls before the Nonpareil Athletic club next month. Lutz has been against both of the men and knows them well. Youngs won the decision from Lutz on March 2 and Lemmons went down before the local boxer when they met.

LUTZ WILL SIGN

Article of Agreement for a Wrestling Match With Clark Conkle if the Stakes Are Large Enough.

In response to a challenge of Charles Conkle, a wrestler of Beaver Falls, Larry Lutz has written him that he will be willing to meet him at any date he sets. Conkle recently returned from Canada, where he was successful in several wrestling matches. He, in the challenge, agrees to throw Lutz twice in an hour.

Wrestling is one of Lutz's strong points, and he anticipates easy money if the match is made. It is not known what the stakes will be, but Lutz will not agree to the match unless the amount is \$200 or over.

Head

Hurt So Badly Was Nearly Crazy.

Had no Sleep—Could Hardly Lie Down.

Dr. Miles' Nervine Permanently Cured Me.

"A year ago I suffered from extreme nervous stomach trouble. I was afraid of everything, could not bear to hear singing or music and reading or hearing of a death nearly brought me down. I could not sleep or hardly lie down, the back of my head hurt me so badly I nearly went crazy. My shoulders hurt and the least thing I did would bring on an attack of extreme nervousness. There were times when I would have a lump in my throat and my mouth would be so dry I could hardly speak. I was in despair until I began to take Dr. Miles' Restorative Nervine. I have taken in all twelve bottles and consider myself permanently cured. My home doctor has since remarked on my healthy appearance and said he wished he could say his medicine helped me. He knows it was Dr. Miles' Nervine. We are never without the Anti-Pain Pills and consider your medicine household remedies. I cannot say enough for the Nervine, because in addition to my own case my daughter, who was out of school for a long time because of St. Vitus' dance, was completely cured by your bottles. I am now feeling fine and going to school every day. We thank you for your kindness and will never stop singing the praises of Dr. Miles' Restorative Nervine."—Mrs. C. E. Ring, Lima, O.

Bowser Sticks To It

He Insists "Regime" Is Not Pronounced "Razheem"

Copyright, 1903, by C. B. Lewis.
THE Bowlers had dined well and spent a pleasant hour after-ward, and Mr. Bowser had about finished his cigar and his newspaper when he looked up and said:

"Under the regime of forty years ago these men who are squeezing the public with high prices for everything would be hauled up pretty smartly."

He pronounced the word as if spelled "regi-mee," and, without thinking what it might lead to, Mrs. Bowser inquired:

"Under the what, did you say?"

"Under the regime. Wasn't my pronunciation clear?"

"You don't get the word exactly right. It is pronounced 'razheem.'"

"What! Why, woman, you are way off! I have been familiar with the word for thirty years, and I think I know how it should be pronounced. It

haven't I got just as good a right to my way as this infernal old mousback of a Webster has to his? I'll bet dollars to cents that even the tramps on the streets call it reg-i-mee. I've a good mind to go out and—"

But he didn't have to. The bell rang, and as he passed down the hall and opened the door a tramp stood there and humbly asked for a dime to pay for lodgings.

"Come right in here," replied Mr. Bowser as he seized him by the arm.

"Now, then, do you know beans from pumpkins?"

"I think I do," was the reply.

"Then tell me how you pronounce the word 'reg-i-mee.'"

"I—I don't think I'd call it 'bee,' replied the man after some thought.

"Of course not."

"And it can't be buttermilk."

"Have you got sawdust in your head?"

"I wouldn't say it was cold chicken or mince pie, but it may be—"

"May be what?" asked Mr. Bowser as the other hesitated.

"Durned if I don't believe it's a highball, and I want to thank you for it in advance. If all men were as generous as you are, us fellows—"

He got no further—that is, he got a good deal further. He got outdoors, and the door struck his heels as he went. Mrs. Bowser was trying hard to keep a placid face as Mr. Bowser returned to the sitting room, and noting the fact he pointed a finger at her and sternly said:

"This performance is not half over with yet. I will not sleep until I have proved my case."

"I am willing to let it go as you say," she replied. "What do we care whether it is reg-i-mee or razheem?"

"I care because I have been called an ass and an idiot, and I don't propose to stand it. I will go out on the street and put the case to the public. You needn't protest, for it will do no good."

He went. His experience with the tramp warned him against that class, but meeting an intelligent looking man with a bundle under his arm he stopped him and said:

"A word with you, if you please."

"Same old story, I suppose," sneered the man in reply, "and I haven't time to listen to it."

"Sir, I am no tramp," said Mr. Bowser with great dignity.

"No? Then what is it?"

"How do you pronounce the word spelled 'reg-i-mee'?"

"Hump! Don't you monkey with me, old man! I wasn't born yesterday."

The man passed on, and it took Mr. Bowser ten minutes to get over his anger and accost a second pedestrian.

He was told to forget it. The third asked him when he got out of the lunatic asylum, and the fourth picked up a club from the street and whistled for the police. Mrs. Bowser and the cat had been looking out of the front win-

dow for a quarter of an hour when a boy appeared with a note for her. It was from Mr. Bowser. It read:

"I say it's reg-i-mee, and I'll be hanged if I don't prove it or die in the attempt. You can go to bed or sit up or hang yourself."

Ten o'clock came, 11, 12, 1. Then the cat fell asleep, and Mrs. Bowser heaved a sigh and gave it up and went to bed.

She knew Mr. Bowser. She knew he would find that reg-i-mee or break both his legs and lose the rest of his hair trying.

Fishing.

Gladys Young was fond of fishing. So she fished from morn till night; But, to tell the truth about it, Gladys never had a bite.

Hat awry and cheeks like roses, Empty basket on her arm, Piled the glistening lads and lassies No wee fishes came to harm.

"Where's your fish?" they cried in chorus, "Lovely day!" and "Stream so still!" Gladys blushed; "I caught but one fish. And he's swimming up the hill."

"By what the public says. I can bring a thousand people here to say that the word is pronounced 'reg-i-mee. Is one man to be set up against a thousand? To come right down to it,

the word was not pronounced 'reg-i-mee. Now prove it."

"Won't you let it go, dear?" she pleaded, now realizing that she had been anything but diplomatic.

"Never—never in this world. If I am an idiot, I want to know it right here and now. Produce your authority or admit that it was simply a specimen of your audacious cheek."

Mrs. Bowser waited a minute and then took a dictionary from the revolving bookcase and hunted out the word and laid the book before him.

Under the caption of "Re" he read:

"Regime (razheem, n. Fr. regime, Pr. regime, regimine, regime, Sp. regime, See infra). Mode or style of rule or management; character of government; administration."

"Well," she asked as he looked up.

"Well, what does this prove?" he demanded as he heaved the book upon the lounge and gave the cat a great scare. "Haven't I told you a hundred times over that I was not to be spinned down by a dictionary? Would I sell frog with two g's because some idiot of a man put it so in a dictionary?"

"Then how can we settle it?"

Constipation

Will Undermine Your Health.

Mull's Grape Tonic Cures Constipation.

When the sewer of a city becomes stopped up, the refuse backs into the streets where it decays and rots, spreading disease-creating germs throughout the entire city. An epidemic of sickness follows. It is the same way when the bowels fail to work. The undigested food backs into the system and there it rots and decays. From this festering mass the blood saps up all the disease germs, and at every heart beat carries them to every tissue just as the water works of a city forces impure water into every house. The only way to cure a condition like this is to cure the constipation. Pills and the ordinary cathartics will do no good.

MULL'S GRAPE TONIC

is a crushed fruit tonic-laxative which permanently cures the affliction.

The tonic properties contained in the grape go into every afflicted tissue and creates strength and health. It will quickly restore lost flesh and make rich, red blood. As a laxative its action is immediate and positive, gentle and natural. Mull's Grape Tonic is guaranteed or money back.

MOUNTAIN SIDE FELL

At Least 112 Dead From Disaster in Little Mining Town of Frank.

OUTSIDE MEN INSTANTLY KILLED

While Those in Mine Are Imprisoned by Debris and Undoubtedly Doomed. People Panic-Stricken—The Valley Threatened With Flood.

Chicago, April 30.—Information concerning the disaster was obtained from Edward B. Liagre, of Frank, who is in Chicago. Mr. Liagre is identified with the Little collieries, located a few hundred yards north of Frank. It was in a mine connected with these collieries that the catastrophe took place. Mr. Liagre said that there was an explosion of gas, which burst out of the side of the mountain, and this led to rumors of volcanic eruption and earthquakes.

Mr. Liagre received a telegram from Frank, saying:

"Gas exploding in mine completely destroyed the Frank colliery."

"There was no volcanic eruption," said Mr. Liagre. "Frank is a town of about 1,000 people. The mountain, I should say, is nearly 8,000 feet high. There are many Italians in Frank, but all nationalities are represented in the population."

Vancouver, B. C., April 30.—Overwhelmed by countless tons of rock and with probably 112 of its inhabitants killed almost instantly, the little mining town of Frank, in southwestern Alberta, is threatened with complete destruction by flood.

Old Mans river, which flows through the center of the town, is dammed up by falling rocks to the height of nearly 100 feet, and the entire valley above the town is flooded for miles. A big body of water is pressing with force upon the dam, the only protection the town of Frank now has, unless the river shall find another channel. Should the impromptu dam break the entire village would be swept away.

A dispatch from Frank says:

"A tremendous loud reverberation shook the whole valley of the Old Mans river at 4:10 o'clock and scarcely half the inhabitants of this town awakened to a realization of the impending danger, when from the top of Turtle mountain, overlooking the settlement, millions of tons of rock were hurled."

"The Frank mines, operated by the French Canadian Coal company, across the river from the town, were seen to be buried under hundreds of feet of rock just as the morning light was breaking. Inside of five minutes from the first thunderous shock and before half the town realized what had happened, a small force of men had started to the relief of the miners, despite the great risk they ran of being buried under the rocks, which were still being precipitated from the lofty mountain top. The volunteer relief force was unable to get into the mine, but managed to get near enough to determine that not a man at the workings had escaped death. Many had been fearfully mangled."

"The disaster was merciful to those men who were employed above ground, in that they must have been killed instantly, while those men in the workings of the mine may yet be alive if they have air to breathe. The disaster was not confined to the vicinity of the mine alone, for many of the dwellings houses in the town of Frank were demolished by the falling rock. Some of the occupants of these houses escaped death, but many others were instantly killed. It is conservatively estimated that the loss of life will exceed 100 and the latest returns place the number of dead at 112."

"When reports concerning the magnitude of the disaster and details concerning it commenced to come in from reliable men who had been out prospecting for news it was discovered that the earth opened for three-quarters of a mile and many feet in width and that the whole northern face of Turtle mountain slipped from its place."

"The shock resultant upon the precipitation of the millions of tons of rock into the valley, while only actually demolishing comparatively few of the houses, shook the foundations of a majority of the dwellings in the town so that they are unsafe to live in, and many hundreds of people will have to live in the open or under such temporary shelter as may be procurable. The railroad track for a distance of two miles or more east of the station is covered with from 10 to 40 feet of rock and the telegraph wires are down."

"At dusk the rock was still being thrown on the town from Turtle mountain, and it is impossible to venture within half a mile of the mine workings. It is now certain that 18 men are buried in the workings. All hope for them has been abandoned. The streets are crowded with relatives and friends of those known to be entombed. The women are behaving in a most heroic manner."

THE FIRST STEP

Of the child is an event in the mother's life. How proud she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, weak, and deficient in vitality, and clings to the mother's arms with no desire to walk or play.

Mothers should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

The use of Dr. Pierce's Favorite Prescription by expectant mothers gives them health and strength to give their children. It nourishes the nerves, strengthens the body and gives great muscular strength and elasticity, so that the baby's advent is practically painless.

"I have been using Dr. Pierce's Favorite Prescription, and can say just what you advertise it to be, and can cheerfully recommend it," writes Mrs. Victor J. Haden, of Leonardsville, Riley Co., Kansas. "I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me (as I was sick only about three hours), and also that your 'Favorite Prescription' was the one 'patent medicine' which he had faith in."

"We now have a darling baby boy, strong and healthy, who weighs nine pounds when born (July 28th). During this month he has gained three and one-half pounds."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

DEATH OF VETERAN COMEDIAN

Stuart Robson Succumbs to Heart Disease at Hotel Savoy, New York.

New York, April 30.—Stuart Robson, the veteran comedian, died of heart disease at the Hotel Savoy. He was 67 years old and had been on the stage for 51 years.

Mr. Robson was taken ill early in March and was obliged to rest in

bed for two weeks. He resumed his engagement on March 19, and after playing in New York and Brooklyn appeared in various towns in the upper part of this state. A few days ago he was taken ill in Auburn and was brought to this city. The interment will take place at Cohasset, Mass., on Friday.

Smuggling Suspect Arrested.
Detroit, April 30.—A United States officer arrested a man who gave the name of Albert Schmidt and his residence at Toronto, Ont., on suspicion of smuggling \$10,000 worth of diamonds, pearls and gold novelties into the United States. The officers believe the property was brought to Detroit from Paris by way of Canada. Schmidt was caught while he was endeavoring to pawn a diamond ring. The police allege they have learned that a pair of \$1,200 diamond earrings, which are a part of the smuggled property, have been pawned in Chicago.

No Cabinet Meeting in St. Louis.
St. Louis, April 30.—There is little likelihood of a cabinet meeting in St. Louis during the stay of President Roosevelt in the city. The only member of his cabinet who was seen by the president up to the time that he left the house of President Francis for the Sigel memorial meeting was Secretary Hitchcock, and he saw him in a social way only. The president does not know of any cabinet meeting to be held while he is in St. Louis.

Boy Confesses to Killing.
Grand Rapids, Mich., April 30.—Henry Hasse, aged 14, confessed that he shot and killed 7-year-old Charles Pohlman, on the evening of April 10, and with the assistance of his younger brother, Otto, carried the dead boy in a bag to the lake shore railroad and placed it upon the track. The Hasse boys claim the shooting was accidental, occurring in the Hasse home, where the boys were playing with a small rifle.

Decrease of Divorces.
Berlin, April 30.—The statistical bureau published figures showing a heavy decrease in the number of divorces in Prussia. There were 101 divorces per 100,000 marriages in 1895, which ratio was maintained until 1899, but the number declined in 1901 to 77 per 100,000. In Berlin the number of divorces decreased in 1901 from 457 to 273.

Committed for Extradition.
London, April 30.—Nordenfletter, the chemist who fled from Berlin during his trial there in February last on the charges of carrying on an extensive business as a quack doctor, and who was arrested here March 10, was committed for extradition.

A SIGN OF GREATNESS

President Speaks on "Good Roads" at the St. Louis Convention.

READY FOR OPENING OF FAIR.

Immense Throng Line Streets and Wildly Cheer Roosevelt on March to Hall—Ex-President Cleveland Arrives and Is Warmly Welcomed.

St. Louis, April 30.—President Roosevelt has arrived to participate in the dedication ceremonies of the Louisiana Purchase exposition.

It was expected generally that he would leave his train at Union station, and a dense throng had congregated there. But to avoid just such an assemblage arrangements were made for him to leave the train at Forsythe junction, three miles from the center of the city. His train arrived at Forsythe junction at 4:20 o'clock, where he was met and escorted to the Good Roads convention in Odeon hall for a brief address. Members of the national commission of the world's fair, a reception committee, headed by President Francis, and a crowd of spectators were present to welcome the president. For an hour before his train arrived troops of military and squadrons of police were stationed about the point of disembarkation to prevent a crush.

As the presidential train arrived President Roosevelt, accompanied by Governor Dockery, of Missouri, who had joined the train at Keokuk, Ia., stepped off the rear end.

President Francis, of the Louisiana Purchase exposition, seized the hand of the president and gave him an informal welcome to St. Louis. Mayor Wells, President Carter, of the national commission, and other members of that body, the reception committee of the world's fair and military officers shook hands with the president, and after this brief and informal reception he was escorted to the carriage in waiting. Mayor Wells, United States Senator Carter and Secretary Loeb accompanied the president in the carriage, which was at once driven off to the Good Roads convention.

Enthusiastic Woman Disappointed.
Just as the carriage started a middle-aged woman rushed through the line of officers, wildly waving her handkerchief and vociferously cheering the president. She attempted to reach in and seize his hand, but the quickening pace of the horses prevented, and although she ran after the vehicle, still cheering and waving her handkerchief for the distance of half a block, she was finally distanced and lost in the crowd.

The military companies and a platoon of police had been waiting two blocks away, and as soon as the line of carriages appeared a slow march was taken up to cover the three miles to Odeon hall. People were congregated along the streets and wildly cheering as the president passed. He continually doffed his hat in acknowledgment. The hall was packed with a crowd which had been waiting patiently for hours. The president spoke of good roads in tones which showed as well as his words that he was thoroughly in sympathy with the object of the associations.

Speech of President.
"Roads," he declared, "tell the greatness of a nation. The influence of the nations which have not been road builders has been evanescent. Rome, the most powerful of the nations of the world, has disappeared."

Don't Get Blue
You may feel out of sorts, all run down, cross, irritable, headache, back ache, nervous, discouraged, blue—but you need not. Eat what you want, keep regular hours, get plenty of sleep and take a small dose of

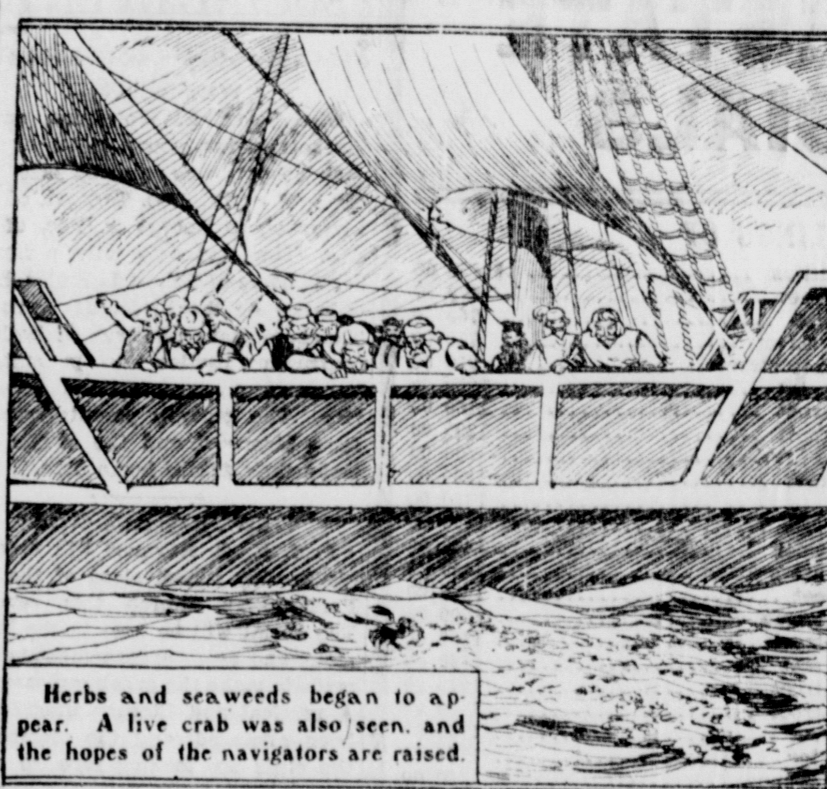

Dr. Caldwell's Syrup Pepsin
after each meal. If constipated, take a tablespoonful before going to bed.

Mrs. Sarah A. McCracken, of Corning, Ohio, writes as follows: "While visiting in Taylorville, Ill., I came across your Dr. Caldwell's Syrup Pepsin. I have used two and one-half bottles, and it has done me more good than all the medicine I have used for two years. Please let me know if you will send me three or four bottles and what it will cost to send it to Corning, Perry County, Ohio, and oblige."

civilizations, left her impress on literature and speech; she changed the boundaries of nations, but plainer than anything else left to remind us of the Roman civilization are the Roman roads."

At this point in the president's speech the crowd rose and cheered, waving handkerchiefs and hats.

"Merely from historical analogy," the president continued, "this country, which, we believe, will reach a position of leadership never equalled, this country, I say, should so act that posterity will justly say when speaking of us, 'That nation built good roads.'"

The president declared that good roads probably were the greatest agency for regulating the flow from the country to the city of young men and young women.

"A long line of liquid morass is not pleasant," the president continued. "It means in many instances practical isolation to the farmer. When the girl or the boy can't take a turn on a 'bike,' even to a neighbor's, because of the roads, well, it is a situation not likely to make farm life attractive."

In conclusion the president spoke of the benefits to the country districts—of the trolley line, the telephone and the rural free delivery—and closed with the assertion that good roads would prove the greatest benefit of all.

From Odeon Hall the President was driven at a sharp trot to St. Louis university. A few minutes were spent here, after which the president and other guests repaired to the home of President Francis for dinner.

Ex-President Cleveland arrived 25 minutes late, and a large reception committee was waiting for him.

ASK PROTECTION FROM MAFIA

Boston Italians Receive Threatening Letters and Appeal to Police Authorities.

Boston, April 30.—Several Boston Italians called at police headquarters to beg for protection against the Mafia, by which they claimed to have been ordered to contribute to the defense fund of the New York "barrel" murder case. Inspectors have been sent to the Italian quarter to make investigations.

Each of the foreigners showed a letter dated April 25, New York. The letters had been mailed Monday.

The letters told them that every where they went they were marked men, that the eye of Mafia was on them always, that they were as good as dead if they did not send the required money immediately. The letters were signed with a Latin name.

The Italians who received the letters are not members of the order, but they say they know of an Italian in their district who is. This alleged Mafia man can be arrested by the inspectors if he can be connected with the threatening letters.

Forest Fires Extinguished.
Detroit, April 30.—Heavy rains fell throughout the northern portion of lower Michigan and the forest fires that have threatened the smaller towns and done great damage throughout the lumber woods, have been extinguished. No lives have been reported lost in the fires.

Doblin Declared Insane.
New York, April 30.—Philip Doblin, who achieved notoriety from his testimony in the investigation in Washington of the purchase of submarine boats, was declared insane by Justice Giegerich, of the supreme court.

Ended Life in Novel Manner.
West Chester, April 30.—Caroline W. Carson, aged 51 years, was found drowned in the cellar of her house. She committed suicide by standing upon a chair and submerging her head in a barrel of water. The woman was unmarried.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Victors Won—The Victor Athletic club won, 6 to 5, against the Buckeyes at Rock Springs park yesterday.

Attending Convention—A number of ladies of the Home Missionary Society of the First M. E. church are to-day attending a convention of the Home Missionary Society in Steubenville.

Fine Sidewalk—Property owners on the west side of Thompson avenue, from Ravine street to the reservoir, are having a fine sidewalk of flagstone laid, greatly to the improved appearance of that rapidly growing residence district.

Struck in the Eye—John P. Wood, of the Lisbon road, met with a painful accident yesterday and as a result has a very sore eye. While chopping wood a large stick flew off the block, striking him in the eye. It is thought the injury will not be a permanent one.

Ill for Months—A letter received from Ed Zollinger, a former well-

known street railway employee of this city, states that he has been ill with rheumatism in New York for several months. He was treated in a hospital, and while there an operation was performed, but he was not benefited. The family are making preparations to remove to Pasadena, Cal., soon.

RECEIVER ASKED FOR A CREAMERY

Stockholder Alleges Property of a North Georgetown Concern Is Depreciating.

Lisbon, April 30.—(Special.)—John A. Gallenbaugh has brought suit against the remaining stockholders of the North Georgetown Creamery company, asking that the firm may be dissolved and that a receiver be appointed to dispose of the property and distribute the proceeds. The plaintiff says he is entitled to a one-twentieth interest in the proceeds, as the owner of two of the 40 shares of the concern, valued at \$100 each. He says that the purpose of the partnership no longer exists and that the value of the shares has greatly depreciated. He further alleges that as the time which the partnership was to continue has expired, the property is deteriorating in value every day from neglect and misuse.

For these reasons, he thinks, a receiver should be appointed to wind up the affairs of the concern. W. S. Ammons, of Salem, is the plaintiff's attorney.

Lisbon Epworth League.

Lisbon, April 30.—(Special.)—At a business meeting of the local Epworth League in the M. E. church last evening the annual election of officers was held, resulting as follows: Miss Bertha Johnston, president; Miss Millicent Bennett, first vice president; Mrs. C. H. Young, second vice president; Mrs. W. B. Chaine, third vice president; W. B. Chaine, fourth vice president; C. M. Young, treasurer. SOCIAL EVENTS

Woodburn-Poe.

Miss Sarah E. Woodburn, one of the best known young ladies of Hancock county, was married last evening by Rev. Dr. J. C. Taggart, of East Liverpool, to George A. Poe, of this city. The ceremony was performed at the home of Robert L. Emier, brother-in-law of the bride, at Wellsville. The immediate relatives of both the contracting parties were present, and the ceremony was pretty and impressive. The groom's parents reside in East Liverpool and the couple will make their future home here.

Prof. Rayman's Class.

Prof. R. E. Rayman will entertain his Sunday school class of the First Presbyterian church this evening. The social will be held in the lecture room, and every arrangement is being made to make the evening pleasurable. A musical and literary program has been arranged, and the members of the class are looking forward to the entertainment with great anticipations.

Coulson-Smith.

At the residence of Samuel Davis, Riverview avenue, Mrs. Elizabeth Coulson and George T. Smith were married last evening by Squire H. P. McCarron. There were invited guests present and the affair was a happy one. The groom is a well known decorator. The couple will soon go to housekeeping.

Alumni Association Meeting.

A meeting of the East Liverpool High School Alumni association will be held tomorrow evening in the high school rooms. The meeting will be a very important one, as it will be decided concerning the matter of the alumni banquet. It was to have been held last evening, but was postponed.

A BETTER GRADE THAN ANY OTHER

ENGINEER TOD ENTHUSIASTIC OVER ELECTRIC LINE.

Youngstown & Southern Will Enter Upon Its Career With Splendid Prospects.

Engineer Tod, of the Youngstown & Southern railway, after going over the route from Youngstown to this city, was very enthusiastic over the proposition. He says between Youngstown and Lisbon there will be a grade of only 1 per cent, and it is estimated that the entire route between Youngstown and East Liverpool, a distance of 42 miles, will have a grade of less than 2 per cent. Mr. Tod says the Youngstown & Southern will have a better grade than any other electric railroad in the country, and is pronounced in his statement that he never saw a better prospect.

He says there is now the greatest opportunity in the world for the farmers along the route who have an abundance of timber land to put their timber on the market by cutting it up into ties for the new line. He says the new road will prove to be a great market opener for the farmers, and its value in this regard cannot be overestimated. The fact is pointed out that all along the line there are portable mills, which prove the resourcefulness of the country from a timber standpoint.

The fact is also pointed out by Mr. Tod that there are no bridges, culverts or anything of that sort along the entire route until Lisbon is reached, and that the entire line will be free from grade crossings. It is also conceded that outside of the Gorge road at Niagara Falls the Youngstown & Southern road will unquestionably be the most picturesque in the country.

THE CAR TWO WEEKS ON WAY TO WELLSVILLE

Consignee Refused to Receive a Shipment of Oats And a Lawsuit Resulted.

Lisbon, April 30.—(Special.)—The case of Jared C. Williams against the E. H. Rogers company, of Wellsville, is being tried in court today. Williams sues for damages in the sum of \$308.20 for which he asks judgment with interest from August 14, 1902. He alleges that on August 1, 1902, he shipped a carload of oats from Chicago to the defendants in Wellsville in accordance with a contract. The car arrived at Wellsville on August 14, whereupon the defendant refused to receive the consignment. After giving due notice, the plaintiffs sold the oats, getting therefrom \$611.66, the best price obtainable, which was applied on the defendants' account, leaving the sum sued for yet due.

Suit to Quiet Title.

Lisbon, April 30.—(Special.)—Alice C. Ryan, through her attorney, Judge J. G. Moore, of Lisbon, has brought suit against Zedock Stiver, John W. Stiver et al. to quiet her title on two lots in the village of Columbiana. The plaintiff says she was in actual possession of the property and that these tracts are situated in F. and J. Stiver's addition to Columbiana. The defendants claim ownership as heirs of Frederick Stivers, deceased, and the plaintiff asks that they may be compelled to prove their interests.

Living Versus Rooming.

Stranger—How many people live in this city?
Citizen—About 200,000.
"So? I had thought you had a population of at least 300,000."
"Oh, so we have. But only about two-thirds of them live. The rest room and board."—Baltimore American

BY THE LITTLE ONES.

A Number of Bright Sayings From the Lips of Youngsters.

Little Elsie—Harry, what is a versatile person?
Small Harry—Why, a person who makes verses, of course.

Teacher—How many kinds of force have we?
Bright Pupil—Three.
Teacher—Name them.
Bright Pupil—Bodily force, mental force and the police force.

Little Margie had been very naughty and her mother was mildly reproving her when the little miss exclaimed: "Mamma, for goodness' sake whip me and stop talking so much about it."

Elmer (aged five)—Mamma, my stomach says it's time for dinner.
Mamma—Well, dear, go and see what the clock says.
Elmer (a moment later)—The clock says my stomach is ten minutes fast.

"Have you made any good resolutions for the new year, Bobby?" asked the minister.

"Yes, sir; one," replied the little fellow. "I've resolved not to fight other boys."

"That's good," said the minister. "And how did you happen to make it?"
"Cause," answered truthful Bobby. "I always get licked."—Chicago News.

Carefully Educated.

"So you want a job, do you?"
"Yes, sir," replied the boy.
"How long have you gone to school?"
"Ten years, sir."
"Can you read?"
"No, sir, but I can do drawn work and drop stitching."
"Can you write?"
"No, but I have a certificate for proficiency in china painting."
"Can you add a column of figures?"
"Not very well, sir, but I got the highest mark in my class for original research in last year's bird nests."
"What did you learn those ten years?"
"That's about all, sir. You see, I'm only fifteen."—Newark News.

Whooping the Whoop.

"I'm so sorry they can't go," said the wife of a distinguished actor-manager to a friend who had invited her children to tea, "but they're whooping the whoop."—London Daily News.
